HAD OVER 500 BOILS.
This may seem an exaggeration to you, BUT IT IS TRUE.
All sufferers from Bad Blood should read about this miraculous cure by BURDOCK BLOOD BITTERS.
CURED IN 1885.
Mr. David F. Mott wrote us from Spring Valley, Ont., in 1885. He said:— I suffered from impure blood and had over 500 boils, but since taking BURDOCK BLOOD BITTERS I am entirely cured, and can recommend it to any person troubled with bad blood.

THE CANADIAN STEEL AND COAL COMPANY Limited, was organized to mine and manufacture iron and coal coke and steel in Canada, at Atlantic tide water.
The raw materials for these manufactures are:—
1. COAL, 2. IRON, 3. LIMESTONE.
All these materials we have at hand.
2.—Iron.
The Company has acquired by purchase, immense iron deposits on the North Shore of the Gulf of St. Lawrence, about 350 miles from Sydney. The deposits are estimated to contain 20,000,000 tons of ore above sea level with probably as much more below that line. The iron can be handled for \$1.00 per ton or less. Quantities of this ore have been shipped to Great Britain and United States where it has given great satisfaction, and we can sell large quantities f. o. b. at the properties, netting us a profit of \$2.00 per ton. This ore makes the finest steel.
Output.
When in full operation the output is expected to be about as follows:
1. IRON.—200,000 tons iron ore shipped direct from property, showing net profit of \$2.00 per ton, \$400,000 00
200,000 tons fine iron ore shipped in briquettes, showing net profit of \$4.00 per ton, \$800,000 00
100,000 tons steel blooms showing net profit of \$3.00 per ton, total \$300,000 00
2. COAL.—600,000 tons coal, showing net profit, at least, \$1.00 per ton, total \$600,000 00
3. AIDS.—Government bounties (averaged) added to above per year for 6 years \$100,000 00
Total year revenue Net Revenue \$2,200,000 00
Total net annual profits LESS FIXED CHARGES:
5 per cent interest on bonds \$37,500 00
7 " " on preferred stock 70,000 00
Sinking Fund 67,500 00
Incidentals 25,000 00
200,000 00
Net yearly profits Equivalent to yearly dividends of 30 per cent, or 15 per cent, half-yearly on total capitalization.
If the capitalization was increased to this estimate would still show a dividend-earning capacity of 10 per cent, per annum.
The capitalization of the Dominion Coal Co., is earning fully 12 per cent., and is paying 8 per cent, guaranteed dividends on this enormous sum.
The capitalization of the Dominion Iron and Steel Company is on which it is believed 6 per cent dividends will be earned.
The capitalization of the Canadian Steel and Coal Company is only controlling, it is believed, equally valuable properties, and it is reasonable to expect much larger dividends.
Within the last few months Dominion Coal shares common rose in market value from \$40 to \$144 per share, and Dominion Iron and Steel Company's shares common rose over \$30 per share in market value.
With such low capitalization The Canadian Steel and Coal Co's shares would show tremendous profits; and it is confidently believed they will.
