Weekly steel output declined again and reports were that steel shipments seem headed for a July decline of 10 to 15 per cent.

Tobaccos reacted sharply to news that the American Heart Association had linked heart disease with cigarette smoking. Rails slumped as fears grew of a possible strike Wednesday over a disputed work rule changes.

In addition, blue chips in various sections of the list took some sharp losses.

The Dow Jones industrial average fell 5.92 to 716.49.

Getting to know the new CO...!

1 "First, let's tilt the cab forward. One hand does it, thanks to exclusive rubber torsion springs and careful counterbalancing."

2 "How's this for easy servicing! Every part of the engine is right out in the open for fast and thorough maintenance."

3 "This short bumper-to-back-of-cab dimension makes for maneuverability—and more payload. It's only 70"—the shortest of any major make."

4 "This is really functional design. Cab is protected by the fender and wrap-around bumper. Sheet metal is treated to defy rust."

5 "Look at the room in that cab! There's no doghouse to get in the way. Your driver can exit from either door with ease."

6 "Now climb aboard the new CO Loadstar. Two easy steps and you swing through the wide, wide doors."

7 "The driver's seat is posture-contoured for true comfort, and the flat-angled wheel gives relaxed control."

8 "Talk about maneuverability! This new CO takes less space in traffic—makes sharper turns in narrow lanes and congested loading areas!"

9 "Take a look at that 50° turning angle! It's made possible by Loadstar wide track stance and variable high ratio steering."
