Toronto Stocks

TORONTO (CP — The stock market, although hampered by a late profit-taking selling spree, recorded its strongest advance in more than a week Tuesday amid the heaviest trading since mid-October.

Western oils gained three-quarters of a point while base metals, despite several fractional losses among senior issues, managed to move narrowly ahead on their index.

The most interesting aspect of the session was the increased trading. Observers said investors were a bit more liberal in their choosings as a result of an easier feeling towards the Middle East crisis. Strong buying appeared sporadically during the session.

The gold index lost a bit more than one-half point and closed at 77.92, the 1956 low. Most gold index stocks were down with Madsen Red Lake off 20 cents and McIntyre down ¼.

Noranda was a point - winner among senior base metals but other gains were fractional. Quemont lost 1¼ points to touch a new low of 20½. Ventures dipped ¾. Beaucage was the best winner among juniors, adding 40 cents. Conwest advanced 20 cents and Brunswick gained 25 cents.

Uraniums were stronger with Glenn up 22 cents and Faraday ahead 20 cents. Northspan gained 10 cents but Pronto lost 10 cents.

Del Rio was a feature among western oils, gaining 25 cents. Other advances ranged to 20 cents while declines were confined to 15 cents or less.

Index changes: golds off .58 to 77.92; base metals up .14 to 232.49; western oils up .72 to 154.36.

N. Y. STOCKS

NEW YORK (AP) — For the second day in a row, aircrafts, steels and coppers led the stock market to an advance Tuesday.

Key stocks rose from fractions to a point in improved turnover.

The market was higher from the start, widened its gains and held pretty well until late in the day when losses cropped up among a number of leading motors, chemicals and oils.

This, combined with the fact that a number of pivotal issues were selling ex-dividend, pared the gain in the averages.

The Associated Press average of 60 stocks rose 20 cents to $180.00.

Aircrafts continued their rise on increasing profits and the feeling that the international situation seems to portend no let-up in defence spending, brokers said.

In the steel group, Lukens added 6 ¼to its run-up of 9½ Monday. This followed a public estimate by its president that the kirm would enjoy record earnings.

Coppers continued ahead as the world copper price firmed.

The most active stock was U.S. steel, up ½ at 71⅝ on 33,200 shares. Second was General Dynamics (new), up 1 at 53⅞ on 29,900 shares.

Stocks of companies with heavy holdings in the Middle East declined after some early wavering. Gulf Oil was off ¼. Royal Dutch off ⅛ and Texas Company off 1¼.

Among Canadian issues on the New york stock exchange, Hudson Bay Mining rose ⅝ while Aluminium was up ⅛. Imternational Nickel lost ⅛. Canadian Pacific, Distillers - Seagram and Granby Mining lost fractionally.

On the American stock exchange, Shawinigan was ahead ⅝ while Preston East Dome lost 1-16.
