A directors' meeting in London, Ont., has apparently eliminated Canadian bidders for the company—but it is still unclear as to whether or not the Schlitz Brewing Co. of Milwaukee will succeed in its attempt to gain control of the brewery.

Power Corporation, one of the companies that was directly concerned in the fight, was off ½ to 10¼ on moderate turnover.

The stock market generally eased, only the western oil section closing ahead.

Among selected industrials, Eaton fell one point to 20. Distillers-Seagrams ⅞ and Anthes Imperial ½, while Texaco rose one point to 55, Oshawa A ⅝ and Molson A ½.

STEELS SLACKEN

Steels softened and papers and banks were mixed. Nova Scotia down ½ and Montreal ahead ½ among the latter.

Consolidated Mining and Smelting declined ½ and Falconbridge ¼ in senior base metals. Brunswick Mining and Smelting advanced 30 cents to $7.00 in junions.

Consolidated Red Poplar was the most active speculative, trading 614,552 shares for a gain of 6½ cents to 25 cents after reaching a peak of 26 cents. New Senator was up 3½ cents to 21 cents.

Dome Petroleum and Hudson Bay Oil and Gas both gained ¼ among senior western oils.

On index, the Exchange index declined .32 to 131.53, industrials .40 to 140.68, golds .70 to 133.12, base metals .07 to 60.91 and western oils rose .72 to 82.33. Volume for the day was 4,019,300 shares compared with 3,722,900 Thursday.

Regional Forces Are Termed Threat To Nation's Economy

WATERLOO, Ont.— Canada could cease to exist as an effective political and economic entity if growing regional forces in the country continue unchecked, according to E. A. Rieder, president of the Mutual Life Assurance Company of Canada.

At the company's annual meeting here, Mr. Rieder warned that Canada's productive efficiency and standard of living would be endangered, if the relatively small Canadian market becomes further broken up by regional and racial differences.

"In the long run," he said, "by encouraging the growth of many small organizations such policies will make it difficult for Canadian producers to remain competitive, both at home and in world markets."

The Mutual president said Canada's greatest challenge now is to find, beyond the ties of region and language, a sense of Canadian nationhood worth preserving and developing.

"In this age of paradoxes, when we believe that the way to balance a budget is to cut taxes rather than to increase them, the challenge to overcome the barriers which now divide us to produce the basis for unity we all seek," he said.

He said that every organization operating throughout Canada will be affected by the way in which this challenge is met, and the operating philosophies of such organizations will help determine the outcome.

For this reason, for instance, he said that he welcomed the move by some French- Canadian insurance companies to extend their operations outside of the province of Quebec.

SALES INCREASED

Policyholders were told the company's sales of new life insurance increased by six per cent over 1962.

Sales totalled $459,000,000, including $108,000,000 group insurance. Insurance in force rose by $270,000,000 to a total of over $4,000,000,000. Group insurance in force is approximately $1,000,000,000. Mr. Rieder said the lapse rate, which measures the termination of policies during their early years, continues to be the lowest in the industry in Canada.

Premium income of $87,300,000 was up 6.3 per cent over 1962. Payments to policyholders and beneficiaries were $70,500,000, an increase of $5,800,000 over the previous year. Surplus earnings were $20,700,000. Dividends to policyholders totalled $16,900,000. Another increase in dividends has been announced for 1964, the ninth in the past 11 years.

ASSETS ARE UP

Assets increased by $56,000,000 to a total of $830,000,000. Bonds and mortgage investments comprise 88 per cent of the total assets. The net interest rate earned was 5.47 per cent compared to 5.35 per cent in 1962.

The regional distribution of the company's premium income and assets is: British Columbia, 10 per cent of premiums, nine per cent of assets, the Prairies, 12 per cent and 15 per cent; Ontario, 54 per cent and 51 per cent; Quebec, 17 per cent and 18 per cent; the Maritimes, seven per cent and seven per cent.
