GRAIN

WINNIPEG, (CP) — Prices generally displayed a firm tone but moved narrowly in dull trade Tuesday on the Winnipeg grain exchange.

Commercial demand again was limited, with shippers picking up oats and processors purchasing barley. Rye trade was light and local. Flax attracted the odd industrial order and some light hedging.

There was no information available on export loadings of Canadian wheat, but the Canadian wheat board announced about 10 cargoes of wheat had been made available for Egypt. This involved roughly 3,750,000 bushels. Tenders called for Nos. 2 and 3 northern.

Prices for class two and IWA wheat were up one-half cent across the board from Monday.

Closing prices:

Oats: May 76½-b; July 75⅛b; Oct. 75b.

Barley: May 1.21½b; July 1.18-½-a; Oct. 1.16¾a.

Rye: May 1.63½b; July 1.64⅝; Oct. 1.66¾b.

Flax: May 3.15¼; July 3.17¾a; Oct. 3.20a.

Markets At A Glance

(By The Canadian Press)

Toronto — Industrials, golds slip; others steady.

Montreal — Industrials rise; papers dip.

New York — Rails lead decline.

Canada Sending Aluminum To United States

MONTREAL CP — The Aluminum Company of Canada announces it is sending 22,000 short tons of aluminum to the United States "almost Immediately" to help the American defence industry meet an aluminum ingot shortage.

The shipments will be diverted from Britain to the United States in accordance with the terms of an agreement between the Canadian company and the British government. Britain already had contracts for the aluminum but agreed to allow it to be diverted to the U. S

The announcement here Monday said the shipments, totalling 22,000 short tons for the first quarter of 1953, will be in addition to the normal Canadian aluminum supply to the U. S. and also in addition to the 38,500 tons of Canadian aluminum being loaned under a U. S.-British-aluminum company arrangement made late in 1952.

Agricultural News

Continued from page 3

weeds may be spread thereby.

Where manure is spread on pastures it is especially important (1) that either (a) that the manure be reinforced with phosphorous at the time of spreading or (b) a supplement of phosphorous fertilizer be applied subsequently, and (2) that it be spread evenly. 7. Old Established Hay Crops. An Established hay stand such as alfalfa is sometimes a good place upon which to use manure.

Rate To Apply Manure.

Light applications show bigger returns per ton then heavy applications thus, other things being equal two light applications of manure in a rotation show better results on a per ton basis then spreading it all at one time.

Also, it is generally recognized that row crops such as corn, potatoes, garden crops, etc., which are heavy users of plant nutrition and water show greater returns from heavy applications than do other crops, thus an application of eight to twelve tons of manure to row crops and four to six to other crops appears to be the right ratio under average conditions.

Although all soils benefit from the addition of manure some show greater response than others. In general, lighter and poorer soil should receive heavier applications of manure then darker and richer

Modern Ways of Handling Manure.

Modern handling of manure involves the use of such equipment and buildings as well make for (1) expediency, (2) efficiency of labour and (3) a minimum loss of nutrients. This includes the following (1) the spreader. A modern manure spreader is the key machine in almost any efficient system of handling barnyard manure. It (1) makes daily spreading practical. (2) Provides uniform application on the land. (3) saves time and labour and (4) works well with all modern loading methods (carriers, loaders or automatic cleaners) 2. Drive-through Barns. The simplest method of handling manure in the stanchioned dairy barn consists of having a wide enough alley behind the cows to permit the spreader to be driven through the barn for direct loading from the gutters. With such an arrangement the manure is handled only once. The spreader is loaded ach day as the barn is cleaned. If the spreader cannot be filled each day, the partial load should be parked under a shed roof until the following day. 3. Overhead Carrier. Where the barn designed does not permit direct loading into the spreader an efficient litter carrier system reduces the labour of daily cleaning, such as is required in a dairy barn.

* * *

If possible the carrier should be dumped directly into the spreader and the manure hauled daily or as soon as practical. Where manure must be stored before hauling the carrier should be dumped into a suitable pit. 4. Automatic Gutter Cleaning. Automatic gutter cleaners offer a way of eliminating much of the hand labour in stanchioned dairy barns, but they are expensive in the first cost. They are usually designed to carry manure directly into the spreader, located just outside the barn. With such a cleaner the sprockets and chains must be adequately shielded to prevent injury to animals and men., and the whole system designed to permit a high standard of sanitation in the barn. 5. Power Loader. Where ever manure is allowed to accumulate in sheds, or feed lots, or is stored the power loader provides a fast labour-saving way of moving it into a spreader. Sheds, feed lots, storage pits, should be designed so as to permit the effective use of such a machine.

Aryshire Breeders Meet.

During the past week a very successful meeting was held of the P. E. I. Aryshire Breeders Association. The meeting commenced in the morning and continued throughout the afternoon with a very good luncheon served by the Parkdale Women's Institute for the noon meal.

This was the semi-annual meeting of the Association. On the agenda were many problems confronting the breed which were dealt with in detail.

It certainly is very encouraging to see the large turnouts to these meetings. The members of the Association should be congratulated for the keen interest which they demonstrate by their attendance. The detail of the subjects discussed were published the day after the semi-annual meeting.

Club News

The Farmington-St. Charles Ayshire Calf Club reorganized January 20th, for 1953, with the following officers: Alban Wood, President; Vernon Wood, Vice-President; John Gorman, Secretary-Treasurer; Cyril Wood, Club Leader.

Over sixty dollars ($60.00) was raised last year by the Club and prize money was distributed. It is regretable that two of last year's members, Warren and Junior MacKinnon, were stricken with polio. These lads are now recovering and hope to join the Club by spring.

* * *

The Junior Farmers of Farmington held their annual meeting on January 20th. Last year's reports showed that nine meetings were held with an average attendance of twelve members. The Club won the square dancing competition at the Rural Youth Fair. A local crokinole competition was held last winter. They have a financial balance of forty dollars and thirty-eight cents ($40.38)

The Club is off to a fine start as several new members indicated their desire to join. The following officers were appointed: Elmer Curran, President; Hubert McLeod, Vice-President; Cyril Wood, Secretary-treasurer.

New Directors: John Gorman, Lucille Wood. Eileen Larkin.

Adult Directors for Calf Club: Elmer Curran, Hubert McLeod, Mellie Wood.

Recreation Committee: Lucille Wood, Lauretta McIsaac, Vernon Wood.

* * *

Miss Martina Hughes was appointed President of the Bear River Junior Farmers at their reorganizational meeting on Friday evening, January 23rd The meeting was well attended and all showed their interest by active discussion of and participation in the various items of business.

Miss Patricia McIsaac was appointed Vice-President, and Miss Zeta McGaugh, Secretary treasurer. Other directors are: Joseph McIsaac, Harold Gallant, Beatrice Hughes and Joan Hughes.

Recreation Committee: Frances McGaugh, James Hughes and Martina Hughes.

On motion the lower age limit was lowered from 16 to 14. The group plans on meeting every second Wednesday beginning February 4th.

The Directors of the Prince Edward Island Junior Farmer's Federation made plans for 1953 at a meeting held at the Department of Agriculture's Office on Saturday afternoon. There were three directors from Prince County present, three from Kings and four from Queens. The President, Miss Martina Hughes of Bear River, occupied the chair. The business discussed was previouly reported.

A new Holstein calf club, the Barbara Weit Club of New Annan and Traveller's Rest districts was organized last week at the home of Mr. and Mrs. Robert Williams, New Annan. Officers of the club are President, David Walker, Vice-President, George Dalziel; Secretary treasurer, Edward Wright. Adult Directors are Mr. Roy Walker and Mr. Allie MacNeill. Other club members are: Wendall Moase, Edwin Walker, Jackie Schurman, Robert Marchbank, Francis Pillman, Edgar MacNeill and Clarence Moase. This club is sponsored by the Farm Forum in the two districts and the Adult Directors are members of these forums.

* * *

The Flying Enterprises Ayrshire Calf Club of Souris Line Road, held their reorganization meeting at Harry Leslie's, Tuesday evening, January 27th. All members were present and indicated their desire to again join the Club.

The following officers were appointed:

Catherine Gillis — President; Mary McCormack — Vice President; Martha Leslie — Secretary-Treasurer; Mervin McInnis — Club Leader; Jack Leslie and Peter McInnis — Adult Directors.

They plan on holding their meetings on the last Tuesday of each month.

* * *

The Kingsboro Poultry Club held their reorganization meeting at Red Point School, on Tuesday evening, January 27th. Sixteen members were present and the following were appointed on the Executive:

Helen MacLean — President; Florence Bruce — Vice President; Arlene Robertson — Secretary-Treasurer; Bertie Robertson and Elwood Ching — Adult Directors.

* * *

A meeting was held at Murray Harbour on Thursday, January 29 to organize a Poultry Club. Twenty young people were present. Mr. Keith Buell introduced Mr. Harry Robbins, Provincial Director of Poultry Services, who outlined the work carried on by Poultry Clubs, and stressed the benefits to be derived from such a Club. Although the young people were anxious to get organized, more field work was thought necessary in the district, and another meeting will be called soon. N F B films were shown by Mr. Morris Deacon, Kings County Fieldman.

* * *

The Jolly Farmers 4-H Calf Club of Alexander held their reorganization meeting in the school on Friday evening, January 30th. Addison McCabe was appointed President, with Arthur Jones Vice President and Chrys Judson Secretary-Treasurer. Adult Directors and Club Leaders are Mrs. Cyril Jones and Charles Jones.

It was decided that for the present meetings would be held on the 2nd and 4th Wednesdays of each month, with the next meeting being held on February 11th at the home of Janet Jones. At the next meeting, Addison and Arthur, who attended the Maritime Winter Fair last fall, are to report on their trip. It was decided that the membership fee would be 25c and all the members ordered 4-H Club pins.

S. C. Wright of the Provincial Department of Agriculture was present and assisted the club members in their reorginization.
