Trusses Like These Are A Crime

Get Rid of Elastic Bands, Springs and Leg-Straps. Such Harness Has Forced Thousands to Undergo Dangerous Operations

Trusses like those shown above—the belt and leg-strap, elastic and spring contraptions sold by drugstores, surgical supply houses and many self-styled "Hernia Specialists'"—make life miserable for everybody who wears them.

And—even when drawn so tight you can scarcely stand to keep them on—they do no good whatever.

Instead, they often do immense harm—they squeeze the rupture, often causing strangulation—dig into the pelvic bone in front—press against the sensitive spinal column at the back.

The Plain Truth Is This

Rupture—as explained in our free book—can't be relieved or cured—can't even be kept from growing worse—unless constantly **held in place.** Just as a broken bone can't "knit" unless the parts are held securely together.

And—just as a bandage or splint is the only way a **broken bone** can be held—the **right kind of truss** is the only thing in the world that can keep a **rupture** from coming out.

What a difference it will make when you get that kind of truss.

And you can get exactly that kind of truss—without risking a cent of your money.

It's the famous **Cluthe Truss** or **Cluthe Automatic Massager.**

Far more than a truss—far **more** than merely a device for holding the rupture in place.

So different from everything else for rupture that it has received 18 separate patents.

Thousands say it is as comfortable as their clothing.

No belt, elastic belt or springs around your waist, and no leg-straps. Self-regulating, self-adjusting. It is held in position by suction—can't shift or slip—the only truss in existence that is honestly guaranteed to hold your rupture every minute of the day.

Sent on 60 Days' Trial to Prove it

We have so much faith in the Cluthe Truss—we have seen it work wonders for so many others—that we want to make one especially for your case and let you try it at our risk.

We'll give you 60 days trial to prove that this truss will keep you rupture from coming out, when you are working and at all other times, that it will put an end to the trouble you've heretofore had with your rupture—that it will improve your condition. If the trial we allow you doesn't prove it, then the truss won't cost you a cent.

How It Strengthens and Heals

In addition to holding the rupture, the Cluthe Truss or Cluthe Automatic Massager is constantly giving a strengthening massage to the weak ruptured parts.

All automatically—the massage goes on all day long, all without any attention whatever from you.

This massage—which strengthens just as exercise strengthens a weak arm—is so remarkably beneficial—that nearly all feel better and stronger—get immediate relief—after trying this truss.

Get World's Greatest Rupture Book

Don't go on letting your rupture get worse—don't spend a cent on account of your rupture until you get our book of advice—which two cents for a stamp—or a penny for a postal—will bring you.

This remarkable book—cloth-bound, 96 pages, 21 separate articles, and 19 photographic pictures—took us over 40 years of day-after-day experience to find out all the facts we've put in it.

It explains the dangers of operations and why they don't always cure to stay cured. Tells why—for the protection of the public—drugstores should not be allowed to sell trusses.

Explains why belt, spring and elastic trusses can do no good. Exposes the humbug "methods," "appliances," "plasters," "systems," etc.

And tells all about the Cluthe Truss—just how it holds—how it gives the curing massage—how it is water-proof—how it ends constant expense—how you can get it on 60 days' trial—thus giving you plenty of time to make sure of its wonderful holding and healing powers—and gives names and addresses of over 5000 people who have tried it and want you to know about it.

Write for it to-day—don't put it off—this book may be the means of adding many years to your life and of restoring you to full strength and usefulness.

Just use the coupon, or simply say in a letter or postal, "Send me the Book." In writing us please give our box number as below—

Purchasers are Entitled To a Common Stock Bonus

Have you ever thought of the advantage of buying bonds or preferred stocks with a common stock bonus?

It often turns out to be a very profitable investment.

Take, as an instance, the undermentioned securities, which we offer in lots to suit purchasers, and with which is given a substantial bonus of common stock.

Hewson Pure Wool Textiles 6 p. c. Bonds.
Hewson Pure Wool Textiles 6 p. c. Preferred Stock.
Nova Scotia Clay Works 7 p. c. Preferred Stock,
North Atlantic Fisheries 7 p. c. Preferred Stock.

In the first place, these securities afford a safe investment, yielding a good interest return, and then there is a possibility of a very profitable investment in the common stock.

As the position of the companies improve, the price of the common stock will increase, and when, in a few years, these companies are in a position to pay dividends investors can sell their common stock holdings at a good profit, or retain them and further increase their interest income.

Full particulars regarding any of the above issues will be sent upon application.

Minard's Liniment Co., Limited.

Dear Sirs,—I had a Bleeding Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it made a complete cure, and it healed all up and disappeared altogether.

Everyone was well pleased with the very pleasant and profitable evening they had spent, and the best wishes of those present go out to Mr. and Mrs. Gates for their success in future fields of labor.

Don't Grow Bald, Young Man!

Take Care of Your Hair While You Have Hair to Take Care Of.

It's a safe ten to one bet that the young man who uses PARISIAN Sage as an occasional hair dressing will never grow bald.

There's a reason, of course, and it's a very good and sufficient one.

Dandruff germs cause falling hair and falling hair means thinner hair and in due time baldness.

PARISIAN Sage prevents baldness, by destroying the cause of baldness—the little persistent vociferous dandruff germ.

If you have dandruff or itching scalp it means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of all hair troubles by using PARISIAN Sage.

It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. It is a scientific preparation that abolishes dandruff, stops falling hair and scalp itch, and makes hair grow lustrous and luxuriant.

Many young women as well as men are growing bald and for the same reason.

Use delightful, refreshing PARISIAN Sage; it nourishes the hair roots, if the roots are not dead, and brings to every user a head of glorious hair—radiant and fascinating. Large bottle for 50 cents at drug stores and toilet counters. See that you get PARISIAN Sage.

Geo. E. Hughes, Druggist, Charlottetown, guarantees it.

...*The display of military trophies in the show-window of M.A. Paquet's store, Souris, is one of which the boys might well feel proud. The centre is occupied by the Governor General's Cup, presented by His Excellency Earl Grey to the Souris Artillery team at Petawawa in 1906; on the right is the handsome Ladies' Challenge Cup, won in 1910 by Geo. J. McQuaid for Miss Cornelia Paquet, in 1911 by R. C. McLean for Mrs. J. J. Hughes, and in 1912 by Capt. M. A. Paquet for Mrs. H. J. Mabon. On the left is the Fraser Challenge Cup, presented by A. L. Fraser, ex-M.P., and won in 1909-11 by R. C. McLean, in 1910 by J. F. Sterns and in 1912 by Capt. M. A. Paquet. At the top is a silver shield won by Sgt. J. D. Brennan in competition with the National Artillery Association of Great Britain at Petawawa in 1907, whilst in front are the Government Silver Salvers won in 1908-9-10-11 by P. J. Seaman, R. C. McLean, J. F. Sterns and Geo. J. McQuaid. The general effect of the trophies against a background of British ensigns, and interspersed with Ross and Lee Enfield rifles, 4.7 and 12 lbs. shells, and decorated with pen pictures of military scenery by Sgt. J. D. Brennan is simply grand and worthy of inspection by all the townspeople and visitors.*

...*The Guardian's Bridgetown correspondent writes that almost a fatal accident happened here, a few nights ago which ought to be a warning to some young men not to delay too long in Souris after transacting their business. A young man of this place on his way home from Souris at a late hour and, having a fractious horse ran under a heavy staging knocking the props from under causing the staging to fall smashing the wagon box and pinning the young man under its weight, the wonder is that he escaped with so little injury. We are all pleased to see Adjutant Squarebriggs and family, who are visiting at J. A. Sterns. Visitors of Mr. Squarebrigg's stamp are always welcome in any community.—The schr. Beatrice has arrived with a load of coal from Sydney for the use of the Starch Factory in this place. It is to be hoped that the factory will be furnished with all the potatoes required as the potato crop promises to be a good one.—There was quite an old fash oned break-down dance took place at Daniel Smith's a few evenings ago. Mr. Smith had a stumping frolic during the day and in the evening, about one hundred guests sat down to a sumptous repast, after which the music and dancing commenced, when Mr. Smith's mother, who is in her 90th year engaged in the dance in a way that was a wonder to the young folks.

NOW ENJOYING SPLENDID HEALTH

Nervousness And Dyspepsia Cured By "Fruit-a-tives".

WALKERTON, ONT., MAY 9TH 1911

"My trouble was extreme Nervousness, brought on by Indigestion or Dyspepsia, from which I suffered in its worst form.

I asked Mr. Hunter, my druggist, about "Fruit-a-tives" and he advised me to try them.

I took several boxes and am pleased to say I am now enjoying fine health.

I honestly believe I owe my health to "Fruit-a-tives" and strongly advise anyone suffering from Indigestion, Dyspepsia, Nervousness or Sleeplessness, to commence using "Fruit-a-tives" and continue this remedy until a cure is accomplished".

ALEX. McCARTER.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 for $2.50, or trial size, 25c —or write Fruit-a-tives Limited, Ottawa.

IS SPAIN TO WAR WITH THE VATICAN.

ROME, Sept. 9—The sudden return to Rome this week of Cardinal Merry del Val, who was spending a vacation in the Umbrian Hills, has ceased to puzzle the Vatican world and is now furnishing the Catholic press with material for a very important discussion. The Vatican Secretary of State was not expected back until late in September, and would certainly have remained in his summer residence had not extremely important developments in Church politics called him back to his post.

The Catholic press frankly admits the Church of Rome is one the eve af another long political fight of the same nature as that waged with France a few years ago. This time the fight will be with Spain, where, notwithstanding the hope that the trouble, owing to the intervention of King Alfonso, seemingly was approaching speedy settlement.

It is now learned that the Canalejas Cabinet intends to resubmit to Parliament the bill modifying the present status of the religious orders with the view of converting it into law before the end of the present year. While the law gives the Government absolute control over church organizations, it will abolish many privileges now enjoyed by the ecclesiastical element. For instance, the exemption of aspirants for holy orders from military service.

On the other hand, the law will render members of many religious orders in Spain economically independent of their Roman superiors.

The new status resulting from the proposed law is greatly at variance with the traditions of the Roman Catholic Church, and deeply injures the Church's interests in Spain. In a certain sense it also will curtail the power of the Roman Curia.

Whether King Alfonso will again interfere with the plans of his Minister is difficult to predict. In the Vatican State Chancery the impression prevails that the King, who until a few months ago had resisted all out-side influences, has finally surrendered.

FLATS ON BOARD NEW CUNARD LINER.

MONTREAL, Sept. 13—News from the other side is to hand with regard to the progress being made with new ships building for the Atlantic trade. The new Cunarder Aquitania will be launched in December and commissioned by the spring of next year. She will be the largest British vessel afloat, though not so large as the mammoth German ship Imperator.

A novel feature will be the private flats for millionaire families who will be able to eat alone just as in their own homes.

King George is expected to use the Gladstone dock at Liverpool next July, entering the dock aboard the new liner. The Gladstone will be the first dock in Liverpool capable of accommodating a ship of the Aquitania's size.

The Cunard line are adopting a policy of secrecy with regard to the building of the Annadnia and Alaunia for the Canadian trade, and are jealously safeguarding their secrets with regard to the new vessels, which, it is known, however, are meant to represent the latest phases in the evolution of trans-Atlantic liners.

The local offices of the Allan line report that rapid progress is being made with the Alsatian and Calgarian. They will be the largest ships on the St. Lawrence route, but it is thought will be unable to visit Montreal until the ship channal has been deepened and widened. The Alsatian will likely be ready by May, and the Calgarian by August next. Both vessels will be 18,000 tons gross register and of an average speed of twenty knots.

FIRE ON A STEAMER.

MONTREAL, Sept. 13—A fire broke out today in the steamship Wakanui, belonging to the New Zealand Shipping Company. The flames originated in the hold where a quantity of paper had been stored. Two firemen, George Leduc and Arthur Ricnards, were suffocated by the dense smoke and were got out of the hold of the vessel with difficulty. The cause of the fire is not known. The damages which were confined to the cargo are estimated at $13,000 to $14,000.

THE EMPLOYMENT OF AIR CRAFT IN WARTIME.

LONDON, Sept. 13—The war office issued last night a long memorandum on the employment of air craft in war. It points out that it cannot longer be doubted that airships and aeroplanes are of greatest help in locating the enemy, obtaining information which otherwise could only be obtained by force. That all the powers are expending money and energy in the development of an air service, which is certain to have an important effect in future European wars, and deals with the details of the instructions for the use of air craft in the coming manouevres.

The memorandum emphasizes the fact that the employment of these machines is quite experimental and that the present war in Tripoli although it has given an impetus to aviation, has afforded no test, because the Italians had the air to themselves.

On account of the recent casualties to aviators of a British army corps, four lieutenants having been killed in a week, the war office has suspended the use of monoplanes in the service. Army aviators consider that biplanes are safer and more stable than monoplanes. Machines of the latter type have been used, however, because they are speedier.

PROFIT IN POTATOES.

KNOXVILLE, Sept, 13—Eugene H. Grubb, author of a book on potatoes and master of a 2,000-acre potato farm in Colorado, is trying to interest farmers in the tuber. Germany has an average production of 200 bushels an acre. We are content with an average production of 86 bushels. Mr Grubb has averaged 380 bushels on his farm, without using commercial fertilizers.

Potatoes sell at a high price, there is usually a scarcity and about 25,000,000 bushels are imported annually from Europe. Mr. Grubb thinks our market easily could absorb at paying prices about 450,000,000 bushels of potatoes, whereas the present average is about 350,000,000 and a seventh is required for seed purposes. What is the objection of potatoes? Wherein are cotton, corn and wheat more profitable than potatoes at 80 cents to $1.20 a bushel?

COL. HUGHES LEAVES FOR FRENCH MANEUVERS.

LONDON, Sept. 13—Colonel Hon. Sam Hughes and Major Robertson, who left yesterday for France to attend the grand maneuvers, accompanied by General Wilson, Major Farquhar and Colonel MacDonogh, British representatives, will return at the beginning of the week in time for the opening of the grand maneuvers at Aldershot and district. On that occasion the Canadian minister of militia will be presented to King George, who himself will be present as head of the army. The officers will be quartered during the maneuvers at Cambridge College.
