COMMUNICATIONS.

LETTER FROM THE HON. MR. DEBLOIS.

To the Editor of the Examiner.

SIR:—From the action taken by several members of the Local Government in the present Queen's County Election for the Dominion House of Commons many of my political friends may be surprised that I, a staunch Liberal Conservative, should, up to this time have kept aloof from all party meetings.

My reason for so doing is indeed that given by yourself in the article, which appeared in the last issue of your journal, headed "Meeting in the Athenæum," although your words express a little more than my views. You say: "Local politics "have nothing whatever to do with Do "minion Politics; and Mr. DeBlois feels, "no doubt, that Local Government Officials "should take no active part whatever in "Dominion Elections." Now if these words are meant to bear simply upon *the present* state of Local Politics in this Province I entirely concur in them, but not in their more extended signification.

I maintain that the first duty of a constitutional government is to look to the interest of those from whom their power is derived, and to carry out to the best of their ability the measures upon which they were allowed to assume the reins of state. Now, to do this effectually, harmony should exist to the greatest possible extent, at least amongst the members of the Executive. Our present Local Executive is composed of, I think, five "Liberal Conservatives" and four "Reformers." Now suppose the five "Liberal Conservatives" or even one of them had met the four "Reformers" at such meetings as that at the Athenæum, where would have been the harmony in the Executive, and what might have been the result to the object for which its members had been elected? Feeling, then, that my duty to those who brought the present government into existence was, if possible, to maintain harmony in that government, I have up to this time refrained from taking any part in Political Meetings, and I may still continue to do so, although I do not hesitate to say that as an individual elector I *shall record my vote in favor of the Liberal Conservative Candidate, the Hon. J. C. Pope; and shall advise any Liberal Conservatives who ask my advice to do the same thing.*

I am, Sir, your obedient Servant,

G. W. DEBLOIS.

Devonport, Charlottetown Royalty, November 9th, 1876.

THE ELECTION.

AS ELECTOR ON THE TRUE ISSUE—THE SNEERS OF THE GLOBE—DAVIES SHOULD RISE AND EXPLAIN.

To the Editor of the Examiner.

THE GLOBE, the organ of the Mackenzie Government, after sneering at us as a small country, asks the following questions:—

"*Why should Prince Edward be a small and isolated community instead of part of a large and powerful one? If the Maritime Provinces were to join in one Local Legislative Union, Prince Edward would have a fair chance of securing what, according to Mr. Pope, she had a right to expect.*"

Here it is more than implied that if we want representation in the Cabinet, we must give up our Local Government, and beg for a Legislative Union with *the other Provinces*.

When the organ of the Government plainly tells us that we have no right to expect representation in the Cabinet, we may be sure that their policy is not to give it. It is now time for their agent, Mr. Louis H. Davies, to rise and explain the nature of the correspondence he had with Mr. Mackenzie, that he talks so loudly about in the country districts. Had that correspondence any reference to this New Confederation that the *Globe* is so anxious to bring about?

If it has, Mr. Davies has too much shrewdness to make it public at present; and he will try and delude the people with promises until the Election is over. He knows that as much as the people value representation in the Council, they will not barter away their local privileges for it. The people of this Island have had enough of Union for the present; and they will not be dictated into another by Mr. Mackenzie or his Govrenment. Surely the people will no longer be deluded by false cries and side issues of Free Trade!

Yours truly,

AN ELECTOR.

Queen's County, Nov. 15, 1876.

CONTEMPORARY OPINION.

Commenting on the enormous Government deposit for September last in the Ontario Bank of $330,971.60—or double the amount of similar deposits in all the other banks in the Province, and drawing no interest, the Belleville *Intelligencer* says: "Does not all this prove that a most corrupt bargain was entered into between the Government and the Bank President? The bold bid of Senator Simpson, and the brazenfaced declaration of Mr. Manager Holland, that their bank was very largely interested in the success of the present Government, as its continuance in power would add largely to the success and prosperity of the bank, show clearly that these large deposits in the Ontario Bank, without interest, are the results of an iniquitous arrangement by which to influence the elections by the most corrupt means. We commend these facts to the careful consideration of our readers, as it will assist them in coming to a conclusion as to the mode adopted by these men in their endeavors to elevate the standard of political morality!"

Referring to Mr. Mills, the Halifax *Morning Herald* says: "That he talks economic nonsense with the tongue of a Maine Yankee is after all the smallest of his disqualifications. He is a man quite opposed to the development of the Dominion. He would have fanned the flames of '67 in Nova Scotia. He would fan to-day the flames in British Columbia. He will probably use his best efforts to have aid to the Sugar Refiners refused; and in that attempt he appears to be in a fair way to secure the aid of some people in this quarter who were not long ago committed to quite a different opinion. It is a somewhat singular thing that this little man from Bothwell should threaten at once the constitution of the Senate at the centre of Government, and the interests of the two ocean provinces of the Dominion."

MEMORANDA.

Barkentine *Corisande*, owned by Peake Bros. & Co., with Limestone from Plymouth, arrived here on the 12th instant—21 days passage.

A VESSEL BURNED AT SEA.—A Sydney, C. B., despatch to *Telegraph* says:—Captain Letteny, of the brig *John Good*, reports that on Monday, 6th inst., at 10 a. m., when off Scatteire, sighted a ship on fire. Bore down upon her and attempted to board her with the long boat. The mizzenmast had gone over and the flames had reached the main hatch and her yards were adrift. We had to abandon the attempt. She proved to be the Russian bark *Perita*, from Liverpool bound to Miramichi, 51 days out. Meantime we saw a brigantine bearing down also; the *Hebe*, from Lanilla, Wales, bound to P. E. I. She hove to and attempted to board the bark; she wished us to take part of the crew, as she had picked them up in an open boat a few hours before. We took three of them and brought them to this port.

TELEGRAPHIC NEWS.

NEW YORK, Nov. 11.—No change in Presidential affairs. Serious riot in Charleston, quelled by the State troops. It is said week may elapse before result election definitely known. Other news unimportant.

London, Nov. 10.—At the dinner on Lord Mayor's day, in response to the toast to Her Majesty's ministers, Lord Beaconsfield made an elaborate speech, explaining the efforts of the Government for the maintenance of peace during the past year. He said in these efforts the Government had been guided by the principle of maintaining the independence and territorial integrity of the Ottoman empire, which were guaranteed by the treaty of Paris. He upheld this principle as the best adapted to secure the peace of the world. He said in conclusion: "I am hopeful that in the present temper of Europe we shall be able to accomplish these results without those terrible appeals to war of which we have heard so much. We have nothing to gain by war; we covet no cities nor provinces. Our proudest boast is that the British empire subsists as much upon sympathy as force; but if a struggle should come, it must be remembered that there is no country so well prepared for war as England, because there is none whose resources are so great in a righteous cause: and I trust England will never embark in war except in such a cause—a cause which concerns her liberty or empire. England is not a country which will have to enquire whether she shall enter into a second or third campaign: if she commences she will not finish until the right is done."

Consumption Cured.

AN old physician retired from active practice, having had placed in his hands by an East India Missionary the formula of a simple Vegetable Remedy, for the speedy and permanent Cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a Positive and Radical Cure for Nervous Debility, and all Nervous Complaints, after having thoroughly tested its curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. Actuated by this motive and a conscientious desire to relieve human suffering he will send *(free of charge)* to all who desire it, this recipe with full directions for preparing and successful using. Sent by return mail by addressing with stamp naming this paper.

THE SCIENCE OF LIFE;
OR SELF-PRESERVATION.

MORE THAN ONE MILLION COPIES SOLD.

Gold Medal Awarded to the Author by the "National Medical Association," March 31st, 1876.

JUST published by the PEABODY MEDICAL INSTITUTE, a new edition of the celebrated medical work entitled the "SCIENCE OF LIFE; or SELF-PRESERVATION." It treats upon Manhood, how lost how regained and how perpetuated; cause and cure of Exhausted Vitality, impotency, Premature Decline in Man, Spermarrhœa, or Seminal Losses (nocturnal and diurnal), Nervous and Physical Debility, Hypocohondria, Gloomy Forebodings, Mental Depression, Loss of Energy, Haggard Countenance, Confusion of Mind and Loss of Memory, Impure State of the Blood, and all disease arising from the Errors of Youth or the indiscretions or excesses of mature years.

It tells you all about the Morale of Generative Physiology, the Physiology of Marriage, of Wedlock and Offspring, Physical Contrasts, True Morality, Empiricism, Perversion of Marriage. Conjugal Precept and Friendly Counsel, Physical Infirmity, Its Cause and Cure, Relations between the Sexes, Proofs of the Expansion of Vice, the Miseries of Imprudence, Ancient Ignorance and Errors, Means of Cure, Cure of Body and Mind. True Principles of Treatment, Address to Patients and Invalid Readers, The Author's Principles. The price of this book is only $1.00.

This Book also contains more than Fifty Prescriptions for the above-named and other diseases, each one worth more than the price of the book.

Also, another valuable medical work treating exclusively on MENTAL AND NERVOUS DISEASES: more than 200 royal octave pages, twenty elegant engravings, bound in substantial muslin. Price only $2,00. Barely enough to pay for printing.

"The Book for young and middle-aged men to read just now, is the Science of Life, or Self Preservation. The author has returned from Europe in excellent health, and is again the Chief Consulting Physician of the Peabody Medical Institute, No. 4 Bulfinch Street, Boston, Mass."—*Republican Journal.*

"The Science of Life is beyond all comparison the most extraordinary work on Physiology ever published."—*Boston Herald.*

"Hope nestled in the bottom of Pandora's box, and hope plumes her wings anew, since the issuing of these valuable works, published by the Peabody Medical Institute, which are teaching thousands how to avoid the maladies that sap the citadel of life."—*Philadelphia Enquirer.*

"It should be read by the young, the middle-aged and even the old."—*New York Tribune.*

The first and only Medal ever conferred upon any Medical Man in this country, as a recognition of skill and professional services, was presented to the author of these works, March 31st, 1876. The presentation was noticed at the time of its occurrence by the Boston Press, and the leading journals throughout the country. This magnificent Medal is of solid gold, set with more than one hundred Indian diamonds of rare brilliancy.

"Although, in its execution and the richness of its materials and size, this is decidedly the most noticeable medal ever struck in this country for any purpose whatever. It is well worth the inspection of Numismatists. It was fairly won and worthily bestowed."—*Massachusetts Ploughman, June 3d, 1876.*
