ONE of the most noted examples of the sturdy business principles of the merchants of the Western Capital is that of Mr. John Dickieson, who conducts business opposite the railway station, Summerside. After many years of busy life, by means of his industry, integrity, energy and capability, Mr. Dickieson has steadily increased his trade in importance and magnitude. He is personally known from one end of the province to the other, and enjoys the esteem of thousands of its inhabitants. This season he is showing customers a greater variety of implements than ever, made by reliable firms. In addition to all kinds of machinery a beautiful assortment of carriages, and harness is carried in stock. He extends an invitation to all to call and examine.

EVERYBODY in Summerside knows the firm of Clark & Steeves. There may be some readers of the GUARDIAN in town and country who have not had some business dealings with them. To these particularly we would recommend this popular firm, when in need of clothing. Their tailoring establishment is on Water Street two doors east of the Royal Bank of Canada. They are enjoying a good share of the public patronage and like all other business men are looking for as much new trade as will find its way to their store. By proving competency, uprightness and courteousness in business they have won a deserved popularity. Mr. Clark is a graduate of the Mitchell Cutting School of New York and has had a most successful experience in fitting men's garments. Mr. Steeves' experience in the tailoring line is long and broad, having for many years worked in some of the best tailoring houses in the United States and Canada. Messrs. Clark & Steeves guarantee all their work, which is an easy matter for them for they invariably give satisfaction. Many people in Summerside and throughout the country are wearing garments made by the above firm and all are ready and pleased to sound their praises.

A GREAT deal has been said about the opportunities of the present century. Writers have exercised some pains to persuade the world that the 20th century will be the greatest socially and commercially. The writer of this reference shall confine himself to the latter with a particular case in view. Messrs. Sinclair & Stewart the well-known merchants of Summerside, can certainly claim all that can be said in reference to a new century, a new reign, and a new business' house. The gentlemen who comprises the firm have earned for themselves a well deserved reputation as business men evidenced in the large trade they now conduct. In the dry goods realm of today the record attained and position held by Messrs. Sinclair & Stewart are attained only by a few. The large sales in one department of their house, do not detract from the enthusiasm in another. Every department is pregnant with the most approved styles, made of the latest materials, and selling at popular prices. The conditions above enumerated are powerful magnets in drawing trade from all parts of the province to their store. Those accustomed to a life of luxury can have their desires granted as well as those of the more moderate in circumstances. In short those purchasing at Messrs. Sinclair & Stewart's receive courteous treatment and their wants supplied with goods of the very best manufactured in the world.

The Best Physicians Recommend MALT BREAKFAST FOOD As A True Health Food.

Many of the common and cheaply prepared grain foods use the term "Health Food" on their labels; this is misleading, as a proper analysis would prove. The term "Health Food" is truthfully applied to Malt Breakfast Food, and the ablest physicians recommend it as such. The pure health-giving Malt scientifically combined with the choicest Wheat gives to the world a health food unequalled for producing flesh, bone and muscle. Grocers everywhere.

Comstock Shares.

I took two orders for 20,000 shares each last week not to mention a number of smaller orders of from 1250 Shares up. The Treasury Shares are ten cents (10) each and offer a good opportunity for a cheap investment in a thoroughly worthy property.

500 Shares will cost you \$50.00
1,000 " " " " \$100.00

and as the property is a good one and the men at the head of affairs are both responsible and careful, there is a good show for your making considerable money out of these Shares inside of a year. Maps and Prospectuses cheerfully sent on application.
