

BELFAST NOTES

The heavy rain on last Saturday evening was quite a relief to the farmers. It broke the continued drought and brought smiles on many faces. The grain was beginning to open before it had matured from the lack of moisture.

Service was held in the St. John's Presbyterian Church, Belfast, on Sunday, August 18th. Mr. Fleck conducted the service.

We are sorry to learn that Mrs. Charles A. Morrison entered the P. E. Island Hospital a short time ago and underwent two serious operations, but are glad to learn that Mrs. Morrison is on the road to recovery.

Schools have reopened after the summer holidays with the following teachers in charge in this vicinity:—Miss Katie Murchison, at Roseberry, Miss Annie Murchison at Mt. Buchanan, Mr. MacKenzie at Eldon, Mrs. John W. MacKenzie at Ocean View.

Mr. Alexander Nicholson, one of Belfast's respected young men, passed away on Saturday, August 17th, at the home of his parents, Mr. and Mrs. J. T. Nicholson, at the early age of 28 years. The deceased was in failing health for the past few years and gradually grew weaker until the end came peacefully. He engaged himself to all who had the pleasure of his acquaintance and was highly respected by all. The funeral service which was very largely attended, took place at the home of his parents on Tuesday afternoon, Aug. 20th, and was conducted by the Rev. Thomas A. Rodger. A large concourse of people followed the remains to their last resting place in the Mt. Buchanan Cemetery, where the Orange Association, of which Mr. Nicholson was a member, took charge of the service. He leaves besides his parents, one sister and one brother, a large number of relatives and friends to mourn their irreparable loss. The pall-bearers were Messrs. Hector MacLeod, Hector Murchison, Angus Murchison, John A. Murchison, Simon Nicholson, John MacLeod.

We are sorry to hear that Mr. Malcolm MacKenzie, of Flat River, entered the P. E. Island Hospital last week for treatment. We hope he may recover soon.

quality of this great national product. We again urge its adoption as no more direct method of advertising could be employed. The Canadian Chamber of Commerce meets this year in Edmonton on September 12th. It is regrettable that we are unable to send a representative from this province. The question for consideration by resolutions are many. Some of the questions for consideration are: The suggestion that local organizations in the Dominion adopt the title "Chamber of Commerce."

The question of establishing in Canada an organization similar to the Marketing Board in Great Britain with the financial support of the Federal Government.

The question of complying with the suggestion of the League of Nations that National Committee of Inquiry be formed to study the question of Calendar Reform by dividing the calendar year into thirteen months of twenty-eight days each.

The question of a survey of the opportunities for Canadian trade in the Orient.

The question of the further implementation of the Dunlop Report. At a conference recently of the Maritime Board of Trade the question of organizing an Old Home Week for 1930 with the suggestion that a week be named for New Brunswick and Prince Edward Island.

In conclusion I would like to throw out this suggestion—a booster for your own province, as we have here what unquestionably is the fairest part of the American continent—an island with a natural charm all its own.

To the members of the Boards of Trade and to our own executive I wish to extend my appreciation for their forbearance and cooperation during the past year. To our federal representatives for their active assistance on every occasion, to Premier Saunders and members of the local government, to Superintendent Gray, the capable and obliging superintendent of the Canadian National Railway and to W. U. Appleton, Manager of the Atlantic region and his associates who have co-operated with us. And to the press of the province who have always lent a sympathetic ear to our requests and who have at all times given the fullest publicity and support to all matters in the provincial good and to J. A. Clark, the manager of the Experimental Station here and to his able staff who have made it possible for us to hold our annual gatherings here under such happy auspices. In conclusion permit me to extend the thanks not only of this organization but that of every citizen of this province to Sir Henry Thornton and to Vice President Hungerford of the Canadian National Railways for the cordial reception given to your committee from this province in the construction of a Canadian National hotel but above all for their ready consent and willingness to co-operate with the citizens of this province in their endeavor to capitalize Prince Edward Island as the fairest gem in the Northern Seas.

B. A. MacDONALD, President of the Prince Edward Island Associated Boards of Trade.

The harvesting of grain is now in course of progress here. Considering the long periods of drought even the early grain is by no means a failure, and while the straw may be short the grain is well filled. The late grain owing to the recent rains promises to be a good all-round crop.

SOUTHERN NOTES

Harvesting is now general in these southern districts at present and the prevailing opinion seems to be that the late sown grain is the best. Taken as a whole in this locality I think it is commonly considered that the crop is slightly below the average but in places which were favored with more moisture there is undoubtedly at least an average crop. Many farmers in view of the great drought are thankful that their crops have survived at all.

The root crops are not such as to call forth any wild, ungovernable hurrahs. They are just so-so, but the prices offered for potatoes are not to be jeered at.

Mr. Daniel Lamont, his son Ewen and nephews Bruce Lamont and young Mr. White, son of Mr. Ready White, all of Springton, Lot 67, motored last Tuesday from their homes and visited friends in Wood Island.
