Toronto Stocks

TORONTO (CP) — Base metals were the biggest gainers in moderate trading on Thursday's rising stock market.

Thursday's boost came after the Wall Street Journal predicted the United States administration will, in effect, put props under prices of lead, zinc, and other key metals through upward revision of stockpiling goals.

Four senior base metal issues hit 1954 highs—Consolidated Smelters, Hudson Bay, Normetal, and Waite Amulet. Both senior and junior groups had the most active trading in many sessions, and gains outnumbered losses by a wide margin.

Western oils picked up toward the close. Golds were steady all session.

Senior golds were steady and juniors lower in light trading. Prospects and holding companies were strong. Manitouwadge and Bathurst issues climbed, and Uraniums dropped.
