CURRENCY

MONTREAL (CP)—The U.S. dollar closed at a premium of 7 19-32 per cent in terms of Canadian funds, unchanged from Tuesday. Found sterling closed at $2.81½, up 1-16.

NEW YORK

NEW YORK (AP)—The stock market had a fairly sharp decline Wednesday as trading picked up enough to make it the biggest day in nearly three weeks.

Recent trading, however, has been so sluggish that the total of 3,240,000 shares was still well below the daily trading average of 3,700,000 for the first nine months of 1962. The turnover contrasted with Tuesday's total of 2,860,000 shares.

The volume total was increased by a wide assortment of sizable blocks which apparently represented tax-loss transactions which are expected to run the impetus to the market for several weeks. There was no sign of a rise in public participation.

The Dow Jones industrial average closed with a loss of 1.67 at 587.68. The final reading on the Dow industrials was considerably better than its lowest at noon, when the loss stood at 4.77

The background of economic news remained flat, although record auto sales for the early part of October continued a shining spot. All of the auto stocks, nevertheless, took fractional losses.

The Associated Press average of 60 stocks was off 1.0 at 217.9. The loss exactly cancelled Monday's gain in the AP average.

Among Canadian issues, Walker-Gooderham was up ¼ and Domo Mines % . Aluminium Ltd. was off ¼ and Canadian Pacific ⅛.

Prices moved generally lower on the American Stock Exchange. Security Bathbow Oil was down ⅜, but Eureka gained a small fraction.

Immigration Via U.S. Ports To Be Continued Two Years

By DAVE McINTOSH

OTTAWA (CP)—Immigration to Canada from Europe through American ports will continue to be permitted for at least two more years, informants said here.

It is expected that this policy, first undertaken in 1959 for a five-year experimental period, will prevent some 30 cables a year by ocean liners at Halifax.

Ray March, executive secretary of the Halifax Port Commission, and Edmund Morris, Progressive Conservative MP for Halifax, Friday met Dr. George Davidson, deputy immigration minister, in an apparent attempt to have the policy changed before expiry of the five-year period.

Mr. Morris was in Halifax Tuesday but it was learned here that Mr. March had little, if any, success.

An immigration regulation says that groups of up to 99 immigrants coming to Canada by sea and of up to 25 coming by air may enter this country through U.S. ports of entry. Once they reach the U.S. port of entry—in effect, New York—they may travel to Canada by rail for examination at border points.

FARE CHEAPER

What appeals mainly to many immigrants is that, besides any valid reason they may have for travelling to Canada via the U.S., the rail fare to their intended homes is often cheaper from New York than from Halifax

Sea transportation companies which carry no more than 99 Canada-bound immigrants in one ship now can save time and money by eliminating a call at Halifax, which does most of its port business in winter months when the St. Lawrence River is ice-locked, and going direct to New York on the westward passage

A total of 65,627 immigrants came to Canada from Europe in 1960, 41,865 in 1961 and 26,194 in the first six months of this year

Negro Student Withdraws After Entering Class

CHARLOTTESVILLE, Va. (CP) — The University of Virginia has announced that a Negro girl who enrolled in its Patrick Henry branch at Martinsville last week has withdrawn.

The official statement said:

"Hazel Ruth Adams withdrew Monday from Patrick Henry branch of the University of Virginia school of general studies after one day of classes.

"She told Dr. Sherman Dutton, director of the branch, that she wanted to return to Virginia State College, which she had entered in September before transferring to Patrick Henry last Friday.

"Her letter said that after enrolling in classes at the branch, she found that the classes she had been taught at Virginia State were better for her intended course of study. Her letter said she planned to return to Virginia State Tuesday."

Virginia State at Petersburg, is the only state - supported college for Negroes in Virginia, and operates a large branch college at Norfolk.

Miss Adams had been the first of her race to sit in a classroom with white students in Virginia's staunchly segregationist southside

She had registered Friday and attended her first classes at Patrick Henry Monday. No incidents were reported and the Negro girl had said "everything was fine."
