He also spoke of the proposed new Cathedral, and strongly urged its commencement. He briefly referred to the piety and generosity of church members—both past and present—and exhorted all to cooperate with His Lordship in his efforts to advance the spiritual and temporal welfare of the diocese. The health of His Grace is evidently much improved.

MR. BURTON, of St. Pierre, having been accused by some of the parties with giving information to the Customs Department, has obtained the following letter from the Minister:—

23rd July, 1886.

WM. BURTON, ESQ.,
Anglo American Telegraph Co'y.,
St. Pierre, Miquelon.

DEAR SIR,—I am in receipt of your letter of the 11th inst., in which you inform me that certain parties trading between St. Pierre, Miquelon, and Canada, complain that you have been giving information to this Department of liquors which have been shipped on board some of the schooners to be smuggled into the Dominion. No such information has ever been given by you, nor has any sum of money been given or promised to you for any such services.

Yours truly,
M. BOWELL.

A HARD-LOOKING individual, who said that he had walked from Summerside and had not tasted food for several days, visited the eastern end of the city about 6 o'clock on Saturday, when the rainstorm was at its height. He was in search of lodging and food, but said that he had no money to pay for either, and was very anxious to put up at a house where there were not any men. After several unsuccessful efforts he entered a house where there were no men, and informed the one woman present that he had come to stay. The woman said she would not allow him to stay, whereupon he drew a knife from his pocket and threatened to use it. The woman screamed, and the tramp, becoming frightened, left. Shortly after his departure several young men, who had been summoned, arrived on the scene, and were told about the affair. They waited around for a short time, so as to capture the tramp in the event of his return. He, as they expected, soon came along, and was pounced upon, the knife taken from him, and he only escaped a severe drubbing by promising to be a better man in future. The police should look him up.

THE Fowler & Wells Co., of New York, announces the publication of *The American Kindergarten and Primary Teacher*. As the name implies, it is especially devoted to Kindergarten methods of teaching, but it will be more general than this, and will consider the interests not only of Kindergartners, but of primary teachers and parents who have the care and training of young children. Well-known educators and writers on educational topics will contribute to its pages, and all phases of important questions relating to child culture will be discussed. There will be talks with the mothers on the questions in which they are vitally interested. Articles of general interest will be published, furnishing the reader with a fund of information in such a practical form that it can be conveyed to the little ones in their charge in such a manner as to be comprehended and understood. It will be published monthly, at 10 cents a number, or $1 per annum.

THE notice of the Firemen's Reception would not be complete without special reference to the manner in which the railway men expressed themselves. Flags were displayed on the principal buildings, and Mechanical Superintendent Unsworth, who can always be counted on upon such an occasion, had placed the cannon belonging to his department under the command of his chief clerk, S. F Hodgson, and all the available whistles under direction of Locomotive Foreman H. W. Anderson. As the steamer neared the wharf a salute of nine guns was fired from off the Railway Wharf, while a perfect serenade of whistles greeted the "boys."

STRANGER than fiction are the records of some of the cures of consumption effected by that most wonderful remedy—Dr. Pierce's Golden Medical Discovery. Thousands of grateful men and women, who have been snatched almost from the very jaws of death, can testify that consumption, in its early stages, is no longer incurable. The Discovery has no equal as a pectoral and alterative, and the most obstinate effections of the throat and lungs yield to its power. All druggists.
