FIRE.—The *Journal* says that a barn belonging to Mr. Thomas Keefe, Postmaster, was burned, together with its contents, at Alberton, on Monday evening last. The cause of the fire is unknown, but it is supposed to have been the work of an incendiary.

FROM BOSTON.—The steamer Carroll, Capt. Brown, with a cargo consisting of 2,025 bbls. flour, 200 bbls. apples, 100 bbls. onions, and the usual miscellaneous freight, arrived here last evening. GOLD IN NOVA SCOTIA.—Says the Halifax *Chronicle*: There is considerable excitement in Gay's River over the prospect of the development of the gold mines there on an extensive scale. Mr. William Frost, of Brooklyn, New York, a mining expert of experience, visited the grounds last week in the interest of a number of American and New Brunswick capitalists, and if he reports favorably, operations will be commenced on a large scale.

EVICTION SCENES.—During the evictions in Ireland on the Draperstown estate of Robert T. O'Neill, M. P., Tory, last Saturday, a bedridden woman, aged 92 years, was removed from her home and had to be carried to an adjoining house. A woman who was in a state of delerium and her four children, one a baby three months old, were also ejected. A fierce gale was blowing at the time and the ejected tenants' furniture was blown into the mud. Fifty policemen were present.

MILITARY APPOINTMENTS.—From a supplement to the *Canada Gazette* we learn that Lieut. H. M. Davison, of the Engineers, who recently passed a highly creditable examination at the Royal School of Artillery, Quebec, has been appointed to the position of Captain of No. 1 Battery, G. A., *vice* Passmore resigned. We congratulate Captain Davison, and feel assured that under his direction No. 1 Battery will always hold a first place among the other Batteries of the Province. From the same source we also learn that G. M. Gillis, of the Montague Battery, has been appointed assistant surgeon of the Brigade.

BEGAN TOO SOON.—A curious scene occurred in one of the churches at Bridgeport, Conn., a few days ago, viz., a wedding was suddenly broken up. The groom and his best man were waiting for the bride, who was considerably behind time. The groom finally began to swear at the bride to the best man, and the bride arriving, overheard him. She said nothing just then, however, but approached the altar and stood motionless until the minister asked if she "would love, cherish and obey," to which she replied in a clear, ringing voice: "Not by a long shot," and majestically marched out of the edifice. The wedding has not yet taken place.

FIRE AT BRACKLEY POINT.—We regret very much to learn that on Tuesday night last all the outbuildings on the fine farm of Mr. James G. McCallum, about ten miles from the city, on the Brackley Point Road, were destroyed by fire. In the outbuildings were some twenty-two head of cattle, an All Right mare with Hernando colt, this season's crop and much of last season's, agricultural implements, etc., all of which were destroyed. The dwelling house was saved with much difficulty. The fire started between ten and eleven o'clock, while the family were all slumbering. The roaring of the cattle as they were being cremated awoke the sleepers, but when they got outside it was too late to save any of the stock or the buildings. The mare broke loose and rushed out of the burning stable, but before she could be captured became alarmed and rushing back into the blazing building was soon burnt to death. There is nothing definite known as to the origin of the fire. Mr. McCallum's loss is estimated at about $3000. The buildings were insured for $600. Mr. McCallum has the sympathy of all who know him.

TWO MEN'S LIVES BLASTED.—On Friday last Fred. Barber, of the firm of Thomas Ellin & Co., Cutlers, Sheffield, Eng., committed suicide at Niagara Falls by shooting himself through the head. A despatch says that the motive for his rash act was that he had been duped into marrying a woman of loose character named Bredin, who already had a husband living. This woman had represented herself to Mr. Barber as Miss Mary Pattison-Hill, an orphan, and a native of Edinburgh. Her identity was not discovered until a few days ago. Her first husband was Thomas W. Bredin, the son of a Methodist minister living at Whitby, Ont. When Bredin married her he held the position of manager of the Bank of Whitby, but his wife's misconduct drove him to drink and he lost his position. The pair then drifted to Toronto, where they separated, he to fill a position as clerk in the Grand Trunk freight sheds, and she to live a life of shame. In this course she made money, and it, together with a good education she had received, enabled her to act the part which culminated in poor Barber's suicide. The woman has been arrested for bigamy. Barber visited Charlottetown quite often in the interests of his firm, and was well known to many of our people who will regret to learn of his untimely death.

ADVICE TO MOTHERS.— Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. [April 1 '88.

British Parliament.

LONDON, Nov. 21.

Mr. Gladstone leaves London for Hawarden on Saturday, and will not return during the present session of Parliament.

The Parnellites are discontented with the manner in which the debate on the Ashbourne extension bill is conducted, and declare that the bill is not fought with sufficient spirit and tenacity, and that the attitude of the Liberal leaders is wanting in hostility. The steamer George W. Clyde which sailed yesterday for Monte Christo, San Domingo, had on board 500 cases of rifles and a quantity of ammunition. PLASTER—'I never saw anything more complete than the way land plaster acts as an *absorbent and preservative of manure.* I use about two barrels of this plaster per winter, which costs me $1.60 per barrel, and I would not be without it if it cost me $5. Every night my man takes two or three quarts of it, and as he passes along scatters it in the gutters behind the cattle and the horses in the stables. So completely does it absorb everything, that if you go into the stables in the morning, you would scarcely know that there were any animals there, any more than you would in a parlor. The principle of this absorptive power of land plaster is, that it requires about 5,000 times its bulk of water to dissolve it.—*W. D. Hoard, at Ontario Dairymen's Convention.*

The above mentioned Plaster (Ground Land Plaster) should be used in every Stable, especially in large ones where many animals are kept together. It purifies the air, thus promoting the health of the animals, while it

Greatly Increases the Value of the Manure,

by retaining the ammonia, the most valuable element in it. The heaps of manure in the field and farmyard often become white or *fire-fanged* by overheating; a sprinkling of Plaster over the heap will prevent this.

Price of the Plaster in Barrels of about 330 lbs. each, $1.60 per Barrel, or $1.50 in lots of Five Barrels or upwards.

We deliver free of charge to any part of the city or to railway or steamers.

Orders by mail will receive prompt attention. Address:
