Federal Minister Says 'No' To Mining In National Parks

By DON ANGUS

HALIFAX (CP)—Use of national park areas for development—controlled or otherwise—of mineral resources will not be permitted by the federal government, William M. Benidickson, minister of mines and technical surveys said here.

Speaking to the opening session of the 20th annual provincial mines ministers conference Mr. Benidickson said the request of the conference last year to allow controlled development of mineral resources in national parks had been carefully considered.

However, he said, " . . . that any man-made modification to a protected area should be for the . . . optimum enjoyment and appreciation of the natural beauty of the . . . land concerned."

He said he had conferred with the minister of northern affairs and natural resources who felt that to permit mining activities within the parks would introduce " . . . a foreign principle into the use of national park resources."

He said the benefits which might be gained from the exploitation of mineral resources " . . . is clearly outweighed by the benefits now provided under the national Parks Act."

PROMISES ASSISTANCE

Mr. Benidickson told the mining ministers and their deputies from across Canada that the federal government would continue to give assistance to Canadian coal in amounts necessary to meet the competition of imported coal and imported residual oil. This assistance would continue until changing conditions and circumstances require that they be amended.

The federal minister noted a request by representatives of the mining industry for re-examination and revision of rules governing the proportion of mining taxes paid to a province, which may be allowed as a deduction in computing federal income tax. He said no immediate change was anticipated.

Mr. Benidickson said an announcement would be made in the fall session of Parliament as to the continuation of cost aid to the gold mining industry.

A second speaker, Dr. George W. Holbrook, president of Nova Scotia Technical College here, said mining research "may wither on the vine" unless more effort and more money is spent by the mining industry itself on research at the university level.

He said that viewing mining as a university president " . . . the most outstanding feature of mining engineering is the dwindling supply of mining engineers at university."

The Canadian mining industry, he said, represented 2.6 billion dollars in 1961, but that only less than one per cent of the total sales value was being spent in research.

Dr. Holbrook said money spent by mining companies on research at universities would be of great benefit to mining, and would actually save the industry money.

Mr. Benidickson will visit the Bedford Institute of Oceanography in adjacent Dartmouth today and later in the day will inspect the $7,000,000 oceanographic research vessel CSS Hudson in Saint John, N.B., which is nearing completion.

Two Children, Mother Killed At Crossing

RED DEER, Alta. (AP)—Two children and their mothers were killed Wednesday when the taxi in which they were riding was crushed by a CPR passenger train at a level crossing in north Red Deer.

The taxi driver was in serious condition in hospital. All five occupants were thrown from the car.

Killed were Mrs. Dorothy Haertel, 25, and her four-year-old son Nicky Walter Haertel, Mrs. Shirley Marie Hucal, 18, and her son Terry George Hucal, 2½ months. All lived in Red Deer.

John Hubbard, 21, also of Red Deer, was identified as the taxi driver.

The two-coach diesel passenger train was northbound on its regular run from Calgary to Edmonton. Police said the train pushed the car 200 feet along the tracks.

DUCKS DEFECT TO RUSSIA

CALGARY (CP)—Two confused Alberta pin-tail ducks broke through the Iron Curtain in the mid-1950s and were shot by Russian hunters, it was learned here.

The ducks were banded by a combined crew of Alberta government officials and ducks unlimited members in 1954 and 1955 near Tilley, 130 miles southeast of here.

Fred Sharpe, leader of the banding team, said Wednesday he has received word from Russian authorities that the two ducks were shot along the Siberian coast, near the Aleutian islands.

Rob Webb of the Alberta wildlife branch said the ducks probably reached their Pacific flyway after being banded, took a wrong turn and followed the Alaskan coast to find themselves wintering in Siberia instead of sunny California.

He said it was unusual for pin-tails to stray so far from Alberta.

Ducks are banded by wild life officials to record migration routes, calculate flight speed and estimate mortality rate.

Ben Bella Plans To Retain Post

ALGIERS, Algeria (Reuters) Ahmed Ben Bella, elected Algeria's first president in an unopposed national referendum Sunday, disclosed here he will continue as premier, aided by a streamlined cabinet of "militants" pledged to fight "the evil of paper warfare."

Socred MP Disagrees With Leader

MEDICINE HAT, Alta. (CP)—H. A. Olson, member of Parliament for Medicine Hat and chairman of the National Social Credit Party's agricultural committee, said here he disagrees with the stand taken by his national leader on Canada's big wheat sale to Russia.

Robert Thompson said earlier in Invercargill, N.Z., that Canada has fallen into a Communist trap by selling 228,000,000 bushels of wheat and flour to Russia.

Mr. Olson said in a statement "I don't agree that trading in foodstuffs with the Communist countries is detrimental to our own interests or the international political situation.

"This concept that we can starve the people of Communist countries into uprisings against their governments is detrimental to our own national security."

Drew Suggested As Gov.-General

LONDON (CP)—The Evening Standard welcomes suggestions that George Drew, Canada's high commissioner in London who is retiring, become the next Canadian governor - general.

"This would be a splendid appointment," says the newspaper. "Mr. Drew is a man of the highest distinction."

The comment appears in the Londoner's Diary, an editorial-page column that often contains terse contributions from the newspaper's publishers, Canadian-born Lord Beaverbrook.

Railways Oppose Champlain Plan

BURLINGTON, Vt. (AP)—A spokesman for 12 railroads operating in Vermont told the U.S. - Canadian International Joint Commission here that a Lake Champlain waterway would be "disastrous" for rail carriers.

Testimony in opposition to the proposed waterway was offered by Foster F. Spofford, assistant to the vice-president for operations of the Boston and Maine Railroad. He labelled the project "a scandalous waste."

Spofford appeared not only as spokesman for 12 railroads operating in Vermont but also for the New Haven and Bangor and Aroostook Railroads.

QUEBEC MAN NAMED

OTTAWA (CP) — Lt.-Cmdr. Jean Marc Favreau, 40, of St. Eustache, Que. and Montreal, has been appointed to the acting rank of commander, the defence department announced Thursday. Commander Favreau is military secretary to the minister and associate minister of national defence.

Yesterday's Answer

9-20

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

B W P I B B M C P J M Q E O P F F P V
F C J W J C R W M V P M E F V B W I
C J W M E. — X R S S P V

Yesterday's Cryptoquote: IN TIME WE HATE THAT WHICH WE OFTEN FEAR.—SHAKESPEARE

CONTRACT BRIDGE

By B. JAY BECKER

QUIZ

You are South, both sides vulnerable. The bidding has been:

East	South	West	North
Pass	Pass	Pass	1♥
Pass	?		

What would you now bid with each of the following five hands?

1. ♠QJ9852 ♥K83 ♦4 ♣KQ6
2. ♠J94 ♥9872 ♦6 ♣AKJ73
3. ♠Q9863 ♥5 ♦AK84 ♣QJ6
4. ♠K75 ♥94 ♦KQ73 ♣K963
5. ♠5 ♥KS764 ♦AJ983 ♣J3

1. Two spades. The partner of a player who passed originally is not bound by the principles that govern most bidding sequences. Thus, if South responds one spade after having passed previously, North is not required to bid again, since he knows that South did not have the values for an opening bid. He might be in a position to know that game is impossible and he can therefore pass when his partner indicates that this is the best thing to do.

In the present case it is best to jump to two spades to aprize North of the strong possibility of game despite the previous pass. A response of one spade would be in order if partner opened fourth hand with a diamond—which would diminish the face value of the hand—but with the actual opening bid of a heart the hand rises in value and North should be quickly advised of the game-going potentialities.

2. Three hearts. The jump raise, after passing originally, does not promise quite the values that would be expected from a player who had not passed previously. The bid is not forcing. It would be wrong to suppress the heart support by responding two clubs, which North would be at liberty to pass with a minimum opening bid.

3. One spade. Even though the hand is only a trifle short of an opening bid, it is still best to respond with only one spade. The singleton heart is a liability, not an asset, after partner bids hearts, and a jump response would therefore not be in order under the circumstances.

4. Two notrump. Ordinarily, this response shows 13 to 15 points, but when the bid is made by a passed player, the high-card point range is only 11 to 13 points. The bid is not forcing and may be passed.

5. Four hearts. Even though there are only 9 high-card points in this hand, the chances of making game are good and no risk of dying at a part score contract should be run. The excellent trump fit and the attractive distribution indicate it is unlikely that four tricks will be lost. There is no need to mention the diamonds — partner will learn about them as soon as dummy comes down. The important thing is to make sure of getting to game.

Lavish Funerals Are Criticized

OTTAWA (CP)—Lavish funerals are sharply criticized in a pamphlet issued by the Ottawa Anglican Diocesan Council for Social Services.

The pamphlet, issued with the approval of Bishop E. S. Reed of Ottawa, deplores expensive caskets, embalming of the body over - abundance of flowers, costly tombstones and inappropriate music.

"Christian funerals should be carried out with simplicity and reverence," it says.

"Lavish display and expensive caskets are not in keeping with Christian tradition. A simple funeral is not a sign of disrespect for the deceased and Christian people should not feel guilty in making such arrangements."

The pamphlet says preservation of the body from decay after burial is "foolish and inconsistent with the view of the Holy Scripture that the body decays and returns to dust while God provides a new spiritual body."

Flowers were symbols of the resurrection and it was appropriate that a few be given.
