## NEW YORK

NEW YORK (AP)T—A late buying drive put the stock market sharply higher Thursday and almost erased Wednesday's loss.

The performance followed a boost in margin requirements to 90 per cent from 70 per cent by the federal reserve board. Wall Street traders had talked about it so much that the action proved an anti-climax.

Based on the rise in the Associated Press 60-stock average, the quoted value of stocks listed on the New York stock exchange rose an estimated $2,250,000,000. The average rose $1.80 to $197.40.

Business news remained good. There were reports of higher copper prices, the biggest rail carloadings since last November and a boost in auto output.

Aluminium Ltd., the day's fifth most active stock, closed ⅝ higher in the Canadian section. International Nickel gained 1¼. Also higher were Canadian Pacific, Dome Mines, Hudson Bay Mining and Walker - Gooderham. McIntyre Porcupine lost a point and Distillers-Seagrams was off ¼.

On the American exchange, Canadian gainers included Richwell and Preston East Dome. Shawinigan was trimmed 1¼.

## TORONTO

TORONTO (CP) — The stock market recorded a slight advance Thursday after spending most of the session down in moderate trading.

Base metals down 1½ points at noon bounced back for almost a point win on index. Western oils were ahead more than one-half. Golds slipped one-half point.

A combination of rising metal prices in New York and London finally halted the profit-taking that has plagued base metals for the last two sessions.

International Nickel and Noranda each gained ¾ while Labrador was up ½ and Hudson Bay Mining ¼. Macfie lost 2 cents at 28 cents. Buffadson was unchanged at 13½.

In western oils gains were limited to ¼ point with Pacific Pete, Canadian Husky and Calgary and Edmonton ahead this amount. Losses were generally small among golds.

Index changes: Golds off .53 to 82.84; base metals up .96 to 179.84; western oils up .54 to 142.92.

# Trend Towards Cities In Canada Displays Speed-up

OTTAWA (CP)—Canada's rapid industrial expansion accelerated the country's growth as a nation of town and city dwellers between 1951 and 1956, the bureau of statistics said Thursday.

In 1956 two-thirds of Canada's population resided in urban areas, against 65.5 per cent (excluding Newfoundland) in 1951 and only 37.1 per cent in 1901.

The bureau's figures, based on a study of 1956 census returns, show a continuing sharp contrast between rural and urban population growth—a characteristic of population movements since the turn of the century.

**GATHERING MOMENTUM**

"The reports show that urbanization has been gathering momentum in recent years," the bureau said. "The forces of industralization have significantly altered the distribution of population in this country."

Canada's urban population in 1956 rose to 10,714,855 from 8,817,637 in 1951 and less than 2,000,000 in 1901. The rural population in 1956 totalled 5,365,936, compared with 5,191,792 in 1951 and 3,400,000 in 1901.

Betwen 1951 and 1956 only 174,144 persons were added to the rural population, a rate increase of 3.4 per cent. But the same period the urban population rose by 1,897,218, accounting for almost 92 per cent of the total population growth.

**ONTARIO MOST URBANIZED**

Ontario in 1956 was the most urbanized province, with more than three-quarters of its population living in urban areas. British Columbia and Quebec were second, each with more than 70 per cent of its population classed as urban.

However, in Prince Edward Island and Saskatchewan the bulk of the population in 1956 still lived in rural areas, although the actual rural population in Saskatchewan declined by 3.6 per cent and in P.E
