N. Y. STOCKS

NEW YORK (AP)—The stock market scored its biggest advance in more than two months Thursday to snap a string of six consecutive declines.

The upswing, however, was accompanied by selective trading in a light turnover. Key issues rose between 1 and 3 points.

There were only 1,087 issues traded, the smallest number since Nov. 11, 1955.

Metals, steels, motors, aircrafts and oils were in demand, with best gains generally in high-priced stocks which recently have been hardest hit.

The Associated Press averages of 60 stocks climbed $1.40 to $185.20.

After the close, the federal reserve board announced an increase to 3 per cent from 2¾ per cent in the discount rate for four of its regional banks. Wall Street had speculated all week about the prospects of this anti - inflation move and thus its effects on the market may already have been pretty much discounted.

Gulf Oil took honors as the most active stock, rising 1 5-8 to 125⅛ on 21,500 shares. It was followed by Standard Oil (New Jersey), up ½ at 56 7-8 on 21,400 shares.

Aluminium Ltd. was ahead 1¾ on the day's trading to lead Canadian issues on the New York stock exchange. Hudson Bay Mining gained ⅞ and International Nickel was up ½. On the downside, Walker-Gooderham lost ⅜ and McIntyre lost ¼.

Among Canadian issues on the American exchange Shawinigan and Preston East Dome both gained ¼. Brazilian Traction was ahead ⅛. Canadian Oil issues changed only minor fractions either way. Canadian Marconi was down ⅛.
