Organ Playing Serves As Daily Dozen Substitute

FLORENCE BLUM

You talk about your sweetie, stop talking about your sweetie, let's talk about my sweetie now

### Also Excellent As Charleston Aid Says Florence Blum

New York City.—A good substitute for the daily dozen is playing the pipe organ. So says Florence Blum, well-known organist and vaudeville performer. Miss Blum also recommends the organ as a muscle builder to anybody who has an ambition to become an expert Charlestoner.

"Instead of stepping out into a cold, cold world from a nice warm bed to do your daily dozen by radio every morning, play the peppy shoulder-shaking 'Let's Talk About My Sweetie' on your organ," advises Miss Blum.

"Playing the organ uses nearly all the unused muscles in the body. It sets the blood dancing

through the veins and even is an aid to a good complexion. It is especially successful as an antidote to spring fever.

"Besides all that, the music of the organ is, to my mind, the most beautiful made by any instrument. I believe every home ought to have my favorite melody maker."

Miss Blum now plays at The Parkhill Theatre in Yonkers, a suburb of New York City. She handles one of the largest organs ever built. When she first began, some musicians predicted that only a man could manage it successfully.

Miss Blum proved the prophets wrong. She has a way of doing extraordinary things. At fourteen, she managed an act of her own in vaudeville. She is a member of the National Association of Organists and the Society of Theatre Organists.

### Noted Professor Has Island Correction

MONTREAL, July 21.—Prof. Clarence Victor Christie, Associate professor of electrical engineering at McGill University, who succeeds the late Prof. L. A. Herdidas Macdonald Professor of Electrical Engineering and head of the Department of Electrical Engineering at McGill, has had an interesting career, holds many important offices on scientific bodies, and is the author of notable scientific writings.

He was born in Couva, Trinidad, B. W. I., on February 2, 1882. His parents Rev. Thomas Christie and Georgia Archibald, were both born in Nova Scotia, but were stationed in Trinidad as missionaries of the Canadian Presbyterian Church. In 1886 the family returned to Nova Scotia and located in Halifax. Prof. Christie attended the Dalhousie University where he obtained the Degree of Bachelor of Arts (B.A.) in 1902 and Master of Arts (M.A.) in mathematics and mathematical physics in 1904. In 1904 he came to McGill, entering the third year in electrical engineering, and graduated with the degree of Bachelor of Science (B.Sc.) in 1906.

Prof. Christie is a brother of Rev. Dr. Christie late of Alberton and is a cousin of Dr. C. C. Archibald of this City.

### BETT CHAMP EATHER OF 13

Matt Immen of Ohio, who was awarded the state championship cup of Ohio State University for his sugar beet yield last year, is the father of 13 bustling, ambitious boys and girls. With one blood man and a tractor, however, Mr. Immen manages to keep his children in school throughout the school year in spite of being a renter who handles 170 acres. His sugar beet yield was 20.16 tons to the acre last year. Deep plowing, thorough and timely seedbed preparation, the best drill and thorough cultivation with a crop rotation that includes alfalfa are the "secrets" of his success. The children all turn out and make several "hands" for the farm. Mr. Immen is trying for both the sugar beet and winter wheat championships of his state this year.

### STRATFORD WOMAN

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Stratford, Ontario.—"After my first baby was born I started to get on the tenth day and did a big washing on the twelfth day. Being so young (I was married at 19) I did not know what was the matter, so let it go until I was all run-down, weak and nervous, and had a bad displacement. For nearly two years I could not sleep and I would always complain of having 'not a head-ache, but a brain-ache.' My mother is taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and she recommended it to me. After taking two bottles I began to get a little sleep and to feel better and I have never felt off since then, except for about three months. I can safely say I have taken thirty bottles since my second baby was born. I think it makes child-birth easier as I had terrible pains with my first three children as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing baby."—Mrs. OMAK PAUL, 49 Cherry Street, Stratford, Ontario.

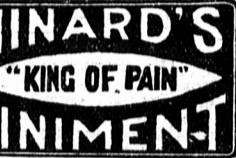

If you are suffering from any weakness which causes such symptoms as pains in the side and back and nervous feelings, give Lydia E. Pinkham's Vegetable Compound a trial now.

### CARDIGAN HIGH SCHOOL

At the closing exercises of Cardigan High school the teachers received valuable presents from their pupils and Master Bernard Gillis read the following address:

To Miss Vickerson and Miss Lewis Dear Teachers: As the closing hour of school draws near mingled with the happiness that comes to us at the thought of pleasant holidays, comes also the feeling of deep sorrow in having to say farewell to you.

To say good-bye is always difficult, but especially so when those are leaving us who have been very intimately and lovingly connected with our daily lives, and who, other than our parents, have been more so than you.

We have, dear teacher, merely to look back upon the school years that are gone to realize how well both of you have performed your arduous duties. We want you to know that we appreciate your many acts of kindness and generosity performed solely for our good, and are sure that as we grow older that appreciation will become deeper.

Not only in our studies were you so deeply interested, but likewise in our recreation, our school sports and school fairs; and by your deeds you have manifested beyond all doubt your desire to lessen the monotony of school life, and to enliven the dull moments that come from time to time in the classroom.

At times, no doubt, dear teachers, we have been the cause of anxiety and are sure that as we grow older, a reason of our bad behaviour, or because of our lack of interest in our work, and our neglect to correspond

# MOORE & McLEOD LIMITED

with your noble efforts in our behalf. Yet we want you to understand, dear teachers, that these faults were not at all intentional, not done to vex you, but must be attributed to one youthful characteristic—thoughtlessness.

We are very loath indeed, dear teachers, to say the parting word, yet we must do so. Our most sincere good wishes go with you both, and may God bless you at all times.

Very Sincerely  
Your Pupils

The Principal before leaving Cardigan, was presented with a purse and the following address. To Miss Florence Vickerson Principal Cardigan School

Dear Miss Vickerson, Your resignation as teacher of our High School has made us realize how much we owe you and how difficult it will be to find another who will give to our pupils the care and attention you have bestowed so generously. For two years you have helped to form their minds and characters, and your gentle and firm discipline, your steady attention to their progress and your high ideals must leave their mark on those who have been fortunate enough to be taught by you.

You have given our children an energy to help our children onward, and we want you to know that we realize this and that nowhere can your work be more highly regarded than in Cardigan. Your position is a well deserved one, and while we hope you will be very happy in this wider world of usefulness, we would be pleased to think that you will have pleasant memories of your years in Cardigan.

We should like to thank you individually, but as we cannot do that, will you accept our thanks and this small gift as a token of our appreciation of your work in Cardigan.

Signed on behalf of the Principal
