NEW YORK

NEW YORK (AP)—Big three motors, steels, aerospace issues and electronics were prominent as a boiling stock market moved upward again to historic peaks Tuesday.

Buoyed by an assortment of glowing economic reports, stocks moved upward from the start, weathered some sharp profit-taking in the afternoon and ended with a fairly good gain on balance.

The Wall Street atmosphere was given a further note of excitement by the approach of the Dow Jones industrial average to the 1,000 level which in years past has been spoken of as something of a millenium.

The Dow industrials made another record closing high as they rose 4.45 to 994.20. Some technicians could claim that the average actually made 1,000 because the so-called "intra-day" high was 1,000.80—but this figure is compiled by averaging together all the highs made by the 30 component stocks during the day, regardless of when they were made.

At no time during the session on the basis of the regular half-hourly reports was the average higher than 994.97, its reading at noon.

VOLUME HIGHER

Volume was 9,630,000 shares compared with 9,430,000 Monday.

The Associated Press average of 60 stocks rose .9 to a high of 369.7. Standard and Poor's 500-stock index rose .16 to a new high of 93.95.

Among Canadian issues, Hudson Bay Mining jumped 3½ points, International Nickel 1⅛ and Granby Mining ¾

All changes in Canadian issues on the American Stock Exchange were in small fractions.

MONTREAL

MONTREAL (CP) — Stocks were generally mixed to fractionally higher Tuesday on the Montreal and Canadian stock exchanges.

Senior metals held the spotlight as they climbed higher with three individual issues gaining more than a point and reaching new highs. In the base section Falconbridge and International Nickel each jumped one point to 112 and 103 a new high for International Nickel.

Among the primary issues Algoma again surged higher as it climbed 1¾ points to 70. Canada Iron reached a new high as it advanced ¾ to 68½ and Aluminium ¼ to a new high of 36¾.

Industrial volume was 194,900 shares and mines and oils 1,641,100. This is compared with 156,000 and 1,858,000 Monday.

Banks advanced 0.99 at 132.01. Montreal led the banks jumping one point. Canadienne Nationale rose ½.

Utilities moved higher 0.14 at 158.30. Interprovincial Pipe Line advanced 1½ points and Maritime Telephone ¾. Brinco and Newfoundland Light each were ¼ higher. Quebec Telephone was up ¼.

The industrial section edged ahead 0.08 at 169.62. CIL and Dominion Glass each added ¼.

Papers slipped 0.46 at 123.45 Great Lakes and Price Bros each dropped ½.

Speculative mines and oils were mixed. Midepsa jumped 55 cents to a new high of $4.95 in a turnover of 32,000 shares. Jubilee was up 10 cents to $3.20.

Senior oils were off. Imperial dropped ⅛ and Shell ¼.

THE HIGHWAY ADVERTISEMENTS ACT

Regulations under authority of The Highway Advertisements Act have recently been amended, and persons interested are advised to read them without delay. Copies may be obtained from the Department of Highways.

Briefly the new Regulations provide:—

1. All advertisements within view of any public road must be licensed, whether on the owner's land or not.
2. No advertisement may be placed—
   (a) within 200 feet of any previously licensed advertisement;
   (b) within 200 feet of any highway intersection;
   (c) within 200 feet of a crossing of a highway and railroad track;
   (d) within 200 feet of a curve or bend in the road.
3. Unlicensed signs may be removed 10 days after publicly published notice.
4. Licensed signs may be removed 10 days after notice sent by registered mail.
5. No advertisements are permitted within highway boundaries.
6. A written permit is required before a sign is illuminated.
7. Posters are defined as signs of cardboard or similar material, intended to be displayed for a period of not over 30 days.

Emergency Generators

Users of electricity who are contemplating the purchase and installation of emergency generators and similar equipment are to be cautioned in determining whether or not the unit to be purchased is suitable for the particular use required.

Several instances have occurred where the equipment was not suitable and only a fraction of the capacity required was available.

The correct installation of the equipment is also very important so that it will not be possible to have the emergency plant in operation on the same circuits as the supply authority should power be restored by the latter.

Unless properly installed it is also possible for an improperly connected emergency generator in a power failure to feed back power to the lines of the supply authority.

Farm Equipment (electrically operated)

There is being brought into the Province a considerable quantity of equipment that is not approved by the Canadian Standards Association e. g. potato graders and sprout removers, escalators, pumps.

Some of this equipment is completely substandard and unsafe to use, not to mention its being very inefficient in operation.

To install this equipment in a substandard manner is asking for trouble.

Oil fired electrically operated kitchen range units

Many of these units have been in use for some time and oil has been spilled over the conductors, motors etc.

This has deteriorated the insulation and caused accidental grounding, creating a potential life and fire hazard.

A THREE not a two conductor cord and receptacle properly grounded is required for these units so that the 15 amp fuse protecting the circut will burn out before more serious trouble develops.

Consult the Electrical Inspection Division of The Dept. of Industry & National Resources before purchasing and have your electrical contractor make the installation.

E. S. CHANDLER, P. Eng.,
Chief Electrical Inspector.

OBITUARY

Inserted by the family.
MRS. FRANK WILLIS

There passed peacefully away on Dec. 3, 1965, in the P.E.I. Hospital, following a brief illness, Mrs. Frank Willis, North River in her 87th year. She was the former Birdie Stevenson, daughter of the late John and Ada Jane (Scott) Stevenson, North River. After completing her education at P.W.C. she taught school for several years before her marriage in 1917 to Ervin Farnan of Londonderry, N.S. This marriage terminated in 1920 in the death of Mr. Farnan.

She was re-married in 1923 to Frank Willis who predeceased her in 1964.

The late Mrs. Willis was a life long member and loyal supporter of the North River Baptist Church, where she was organist for more than forty years. Only a few years ago she was forced to retire from this capacity, due to ill health, but her place at church on the Lord's Day was seldom vacant, while her health enabled her to attend.

Her keen interest in the welfare of the church and community will ever be remembered by her many friends, who cherish the memory of her fine Christian character. Besides a stepson, Milton Willis, with whom she resided, one sister and three brothers mourn her passing. They are Mrs. Linnie MacLean, Calgary, Alberta; Everett of Charlottetown; Brenton, North River and Frank, West Somerville, Mass. Another sister, Mrs. Ella MacLean predeceased her.

The funeral, under the direction of Cutcliffe Funeral Home, held on Dec. 4th from North River Baptist Church was largely attended. Service was conducted by her pastor, Rev. T.W. Howard, assisted by Mr. Roydon Reynolds of Cornwall United Church. Mrs. Hector Currie was organist and hymns sung were "The Lord's My Shepherd" and "The Sands of Time are Sinking."

Her remains were tenderly laid to rest in the East Wiltshire Cemetery. Pallbearers were Donald Ramsay, Keir Warren, Alexander MacGregor, John Warren, Lester Younker and Robert Vickerson.
