We have given so much space this week to the insertion of Parliamentary proceedings, including the Roll-Calls for Prince and King's County, in which a majority of our country readers will be interested—that we are compelled to withhold some editorial remarks on our local political affairs. We have been also obliged to leave out a large number of advertisements, for doing which, we hope, our advertising patrons will kindly excuse us. As soon as space and time will permit, we shall have something to say about the general policy of the Government, and the proceedings of the late Session.

It is with great pleasure we copy the following paragraph from the Montreal Gazette of the 30th April:—

"UNIVERSITY OF McGILL COLLEGE.—Among the many students who have this year graduated in the above institution for the degree of Doctor in Medicine and Surgery, it gives us great pleasure to chronicle the name of Mr. Peter A. McIntyre, of Charlottetown, Prince Edward Island, who, after a satisfactory and highly creditable examination, was admitted to practice on Friday. We hope he is not the last student who will graduate in our great Canadian University from the progressive little Island."

Mr. Peter A. McIntyre is son of Roderick McIntyre, Esq., North Side, and nephew of His Lordship the Bishop of Charlottetown. He was a student at St. Dunstan's College for a few years, and proceeded, in 1861, to the University of Laval, Quebec, where he completed his philosophical course, and commenced his medical studies, which he terminated with great distinction at McGill College, Montreal, on the 26th April. He is expected home one of those days, and we wish him every success in the practice of his profession.—*Her.*

☞ An inquest was held before Dr. Beer, one of the Coroners for Queen's county, on Thursday last, on view of a body supposed to be that of Benjamin Patapow, of Arichat, who was drowned by accidentally falling overboard from the *Heather Belle*, at McNally's Point, East river, last fall. Verdict found drowned.

A card in another column announces that Mr. Jos. F. Ellis, formerly of this city, has commenced business in Pictou as an Insurance, Shipping, and General Agent, &c. From a personal acquaintance with Mr. Ellis, says the *Recorder*, we can assure parties patronising him, that they will have their wants carefully and punctually attended to.—*British Colonist*, May 18.

THE Screw Steamer GULNARE, Capt. McLeod, Master, arrived at this port on Saturday morning the 11th inst., from Glasgow, *via* St. John's, Newfoundland, which latter place she reached after an excellent passage of eleven days. The Gulnare is owned by a company consisting of some of our most enterprising and active citizens. She was built at the order and under the inspection of Capt. McLeod, by Charles Connell & Co., who hold a first rank among British Shipbuilders. In her materials she is an entire novelty to America. She is what is termed "composite," i. e., consisting of a teak planking upon an iron frame-work, and what may be deemed the best certificate of merit, is the fact that she has classed for 14 years A 1, at Lloyd's. The Margaretta Stevenson" which has been employed by her Majesty's Surveying Officers for the last few years, having been deemed too small and unsuitable for the service, the 'Gulnare' has been fitted up with express reference to the requirements of the service, and is soon to return to St. John's to embark her officers, and then proceed to the prosecution of the Surveys in which they have been engaged for several years. She is about twice as large as the "Margaretta Stevenson," being 205 tons register. Built on the most approved model by one of the Clyde celebrities in iron vessels, of the very best materials, and without regard to expense, she might be expected to be somewhat above ordinary. It is seldom that such a handsome boat has entered our harbor. Both externally and internally she is a model of neatness and beauty. Her cabins and staterooms are large and roomy. They are made of teak, handsomely polished and ornamented by the combined skill of joiners and gilders, and on deck nothing could set off more admirably her excellent finish than the abundance of brass mountings. Her nautical qualities do not fall short of her appearance. This was her trial trip, and by no means a fair one for such a small vessel; but although she experienced some very heavy weather, yet the shortness of the passage, and the great satisfaction and pleasure of those who came as passengers, abundantly testify her sea-going excellence. Her engines are direct acting, set up by Finnieston & Co. Glasgow, and have worked most admirably on their first trial. On the whole the 'Gulnare' is a rough success, and we have much pleasure in wishing her enterprising owners prosperity in their undertaking. The following parties came passengers by her to Charlottetown:

From Glasgow—Wm. Welsh, Esq., and lady; Mrs. McDonald, and Messrs. L. G. McNeill, and John Oldrich.

From St. John's—Two Misses Reid; Mrs. Bunting and two children.

DREADFUL CASE OF HYDROPHOBIA.

Some eight weeks ago Miss Selina Eller, an intelligent young lady of 22 years, was bitten by a rabid dog while she was endeavouring to drive him out of the house. The wound was on the finger, and so very slight that it excited no alarm, although the dog was known to be mad. As usual in cases of hydrophobia, she thought nothing more about the matter until the morning of Monday, the 12th ult. when on going to wash her face, the touch of the water "made her shudder," as she described it. The fearful truth flashed on her instantly, but being a lady of great self-command, she simply said to her sister "I am going to go mad; I can't live," adding, however, that she would finish spinning the rolls she was engaged upon.—She worked on during the day, with some increase of the horrible symptoms, but nothing visible to others, and the next morning on sitting down to the table, she remarked to the family "You must take that water from the table, or I can't eat anything." She ate but little, and got up saying she would go to work again. She continued through that day as before, but with a decided strengthening of her repugnance for water, of which she said "the very sight sent a tingling feeling all through her." She also complained that the glistening face of the clock affected her in the same way. On Wednesday she was too far overcome to work, and while standing on the floor speaking to some of the family, she began grinding her teeth, and directly after fell in a fit, the foam working out of her mouth, her teeth gnashing, and her body frightfully convulsed.

Some of the younger children who were with her at the time ran out in great alarm, and the neighbors hurrying in found her on the floor near the fire, in the same terrible condition, but she bit so furiously at every one who touched her that it was impossible to do anything with her. The fire was removed so that she might not injure herself by it, and she was left lying till the spasm had passed off. She was then placed upon the bed, and Dr. Rooker called in. When he arrived she was again convulsed and senseless, uttering short barking sounds, and snapping at everything that approached her. A bloody froth was constantly issuing from her mouth, which she tried to spit at those around her. He caused her to be held down in the bed, and proceeded to administer morphine to relieve her agony. In a lucid interval she remonstrated saying, "I must die, I know it, and I want to die in my senses, so don't stupify me with medicine." After another fit the Doctor proposed another dose of morphine, and at last she consented, but added, "You must not give it to me with water." But this remedy produced but little effect. The awful paroxysms continued with the same frightful suggestions of doggish sound, and the same frantic efforts to bite. She bit her hands terribly, and bit pieces out of the pillows and bed-clothes. Dr. A. G. Reddie was also called in, but his assistance was as unavailing as that of Dr. Rooker. This was the next day, Thursday, but at all events, on that day Dr. Rooker determined to try the effect of "bromide of potassium," which had been recommended by some European physicians in case of hydrophobia. Dr. Reddie happened to have a small quantity with him, it was at once administered, and the treatment has been steadily kept up since, till yesterday nearly two ounces had been given. The symptoms continued with little or no abatement till Sunday or yesterday, when they were considerably less marked. The fits occurred less frequently, and with less severity. The unfortunate lady had ceased biting herself, and had sufficient knowledge of her situation to wrap her arms tightly in the bed-clothes, when she felt the spasm coming on, to keep them out of danger. Though very far from being out of danger, the abatement of the symptoms has been so decided as to create some hope of her recovery, which, if realized, will make this one of the most remarkable cases on record.

NEW APPOINTMENTS.

[From the Royal Gazette of Wednesday last.]

His Excellency the Lieutenant Governor in Council has been pleased to make the following appointments viz:—Mr. Hilary McInnis to be Collector of Impost and Excise and Controller of Navigation Laws for St. Peter's, in the place of John Jardine, Esquire; Mr. David Lewis, to be a Commissioner for the recovery of Small Debts for the Court at St. Peter's, in the place of John Dixon, Esquire. Mr. John Brooks, Senior to be Collector of Impost and Excise and Controller of Navigation Laws for Murray Harbour, in the place of Archibald McDonald, Esquire. Mr. Patrick Connick of Tignish, to be a Coroner for Prince County, in the place of William Hubbard, Esquire. Mr Frederick Anderson to be Harbor Master and Ballast Master and Collector of Light and Anchorage Dues for New London, in the place of John Cambridge Sims, Esquire. Mr. Charles Deagle to be Harbor Master and Ballast Master for Rollo Bay, in the place of Mr. Charles Townshend. Mr Edward Moynagh to be Harbor Master and Ballast Master for Souris, in the place of Mr Samuel Gregory; also, Wharfinger for the public Wharf at Souris, in the place of Mr. Thomas Perkins. Mr. John Chapman to be Harbor Master and Ballast Master for Mink River; also, Wharfinger for the Wharf at said River, in the place of Mr. Andrew Miller. Mr. John Hyde, Senior, to be Wharfinger for the Wharf at South River, in the place of Mr. Josiah Roberts. Mr. David Stewart to be Wharfinger for Aitken's Wharf. Mr. Robert Howlett to be Wharfinger for the Wharf at Grand River, Lot 59, in the place of Mr. William Robertson. Mr. Frederick Rodigrass to be Wharfinger for the Wharf at Bay Fortune. Mr. Michael Morrison to be Harbor Master and Ballast Master for Grand River, Lot 56. Mr Robert Wise to be Harbor Master and Ballast Master for Grand River Bridge. Mr. William McKay to be Wharfinger for the Wharf at New London, in the place of Mr. William Graham. Mr. Richard Hayes to be Assayer of Weights and Measures for Souris, in the place of Mr. James McLaughlan. Mr. Edward Shea to be Assayer of Weights and Measures for Georgetown, in the place of Mr. Thomas Poulton, resigned; Mr. George H. Wise to be Assayer of Weights and Measures for Grand River Bridge, Lot 59, in the place of Mr. Benjamin Acorn. To be Preventive Officers and Land Waiters in terms of the Act of 19th Victoria, Cap 1: Mr. John Morrison of Grand River Lot 56, in the place of William Robertson. Messrs. George A. Hughes and Samuel Ford of Georgetown. Mr. James Cantelo of Grand River Bridge. Mr. James D. Campbell to be an Inspector of Fish for Montague Bridge in terms of the Act of 22d Victoria, Cap 8. Mr Ronald Campbell to be an Inspector of Fish for Grand River Bridge in terms of the Act of 22d Victoria, Cap. 8. Mr Archibald Ramsay to be Postmaster for Township No 8, in the place of Mr Stephen MacWilliams. Mr. Aime Richard to be Postmaster for Township No 15, in the place of Mr. William Hibbett. Mr Peter Richard to be Postmaster for Township Number Two, in the place of Mr. William Haywood. Mr. Thomas Kickham to be Postmaster for Souris, in the place of Mrs ——Roswal, the present Postmistress. Mr. Alfred MacWilliams to be Postmaster for West Cape, Township Number Seven, in the place of Mr. John Coughlan, resigned. Miss Rebecca MacLhee to be Postmistress at Township Number 11, in the place of Mr. George Jelly, the present Postmaster. Messrs Isaac Clark, Robert A. Wright and Thomas Hellie of Cape Traverse, to be Commissioners of Sewers, in terms of the Act of 26 h Geo. 3, cap 7.

His Excellency the Lieutenant Governor in Council has been pleased to appoint Mr. John Alexander Dingwell to be Registrar of Deeds and Keeper of Plans, in the place of Robert H. Crawford, Esquire.

SUMMARY OF THE PROCEEDINGS OF THE HOUSE OF ASSEMBLY.

THURSDAY, May 9.

The bill to amend the Education Act was read a third time and passed.

Hon. Mr. Henderson remarked upon the small salary of Female Teachers compared to that provided for Male Teachers under the amended bill, and expressed his hope that when the Education Act would undergo a more general revision, the salaries of Female Teachers would be raised. He spoke of the influence of woman in the relation of Teacher and educated mother. He alluded to some Female Teachers whose services were highly appreciated in the different settlements in which they were employed.

Mr. McNeill gave notice that to morrow he would make enquiry of the Government relative to the condition of the Indian inhabitants of Lennox Island.

Hon. Col. Secretary submitted various petitions, relative to variety of subjects, of a public and private nature, asking for grants for roads, bridges, &c.; also praying for a bounty on mackerel, all of which had been laid before the Government, but were not entertained. Ordered that they be laid on the table.

The bill relating to pleadings and practice of Supreme Court was reported agreed to.

The bill to amend the Act relating to the Prince of Wales College was also reported agreed to.

Hon. Attorney General introduced a bill to authorise the Government to raise a loan of money for the public services of this Island. He (Atty. Gen.) explained the principles of the bill, and alluded to the necessity of further extending the principles of purchasing Proprietory Lands in this Island, with the view of promoting the public good and for the benefit of all classes. It was therefore necessary to increase the amount of money required from time to time, in order to be prepared to effect more extensively the purchase of lands, and thereby afford means whereby all parts of the Island might share equally in the benefits to be derived from a gradual extinguishment of proprietary claims. The bill in question, he said, authorized the Government to borrow from any person or persons, bodies politic or corporate, a loan or loans of money, not exceeding £140,000 stg., of that amount £40,000 sterling may be raised in this Island, and £100,000 sterling to be raised out of this Island under the provisions of the bill. Payments of said loan or loans to be secured by Government Debentures, payable at ten years from the date of issuing the same, at the rate of six pounds per cent per annum, when obtained in the Colony, and payable at twenty years if obtained abroad. The re-payment of all such sums of money, with interest, to be secured from the public Funds of the Colony. He then spoke of the double power with which the Government was armed by the provisions of the bill namely, to secure a loan either from parties in the Colony, or to negotiate for the same in Great Britain or elsewhere. That such loans could be procured, was evident from the fact that New Zealand, Australia, and even the Corporation of the City of Quebec had obtained loans on similar principles. It was necessary always on entering into contract for the purchase of large tracts of land to provide beforehand, the means by which monies, for the payment of such lands, were to be raised, in order to avoid that general monetary depression consequent upon the sudden withdrawal of large sums in gold and silver. Funds for such purposes could not, to any extent, be raised in the Colony without a heavy pressure on its ordinary resources, hence the necessity of procuring a loan abroad as provided by the bill.

House in Committee on Roads, Bridges and Wharves.

After some debate relative to the subdivision of Road appropriations the Chairman reported the Road Scales agreed to.

Hon. Attorney General presented a bill exempting property belonging to Her Majesty and the Government from the payment of duty and taxes. Received and read.

Hon. Atty. General also presented a bill to repeal the Act to compel Masters of Vessels to exhibit a light while in harbor at night time, and to make other provisions in lieu thereof. Received and read.

A petition from J. D. Haszard, Esq., and others, was presented, setting forth that petitioners had formed themselves into a company for the culture and manufacture of Flax and asking for an Act to incorporate said Company. Received and read, and referred to Committee.

Dr. Jenkins, as Chairman of said Committee, presented a bill to incorporate said Flax Company. Received and read, and referred to Private Bill Committee.

Mr Brecken presented a bill to incorporate the Charlottetown Hotel Company. Received, read and referred to Committee to report thereon.

Hon. Mr. Kelly, Chairman of the Committee to whom was referred petitions praying for the opening of new Roads, presented the report of said Committee, ordered that said Report be presented to a Committee of the whole House to-morrow.

House adjourned.

Pensylvania has 1284 miles of railway under one management.

There are more negroes in Washington than in all New England.

A man in London beat his wife nearly to death "for having too many children."

Three hundred emigrants sailed from New Orleans last week for Brazil.

The Wisconsin Legislature have extended the franchise to women.

LATE NEWS BY TELEGRAPH.

NEW YORK, May 15.—Great financial excitement is reported at New Orleans growing out of the closing of the sub-treasury and the first national bank. Large defalcations are reported. There is a run upon the other banks. The money market is stringent and the city National Bank has suspended.

LONDON, May 15.—Conflicting accounts have been received here as to the result of the recent military operations in the Island of Candia..... Several engagements have taken place, and both parties claim successes, but the latest despatch received from Athens asserts that the Turkish army under the command of Omar Pasha has been defeated in a general battle.

LONDON, May 15—evening.—Intelligence has been received here that the barque Rover, Capt. Hunt, which was last reported at Swatow, Feb. 12th, was wrecked in the Chinese Sea, and that all the crew who escaped from the shipwreck except one, were murdered where they landed by the natives.

MOBILE, May 15.—Quite a curious riot occurred here last night, caused by remarks made to the negroes by Judge Kelley of Pennsylvania. Two persons were killed and several wounded.

WASHINGTON, May 16.—The following despatch has been received by the Russian legation in reference to the sale of Russian America to the U. S.:—

ST. PETERSBURG, May 15th.—The treaty is ratified; Bodisco carries it back immediately.

NEW ORLEANS, May 15.—The following news has been received from Hon. Mr. Campbell:—His messenger to Juarez returned to-day, having made the trip from Matanzas to San Luis Potosi and back in 15 days. He was treated with the greatest courtesy and consideration by the Liberals. The feeling among the Liberals is very bitter against Maximilian and his native officers, and in case of their capture it was thought it would be impossible to save them. Juarez and his generals are confident of a speedy triumph at Querataro, and expect to be in the city of Mexico in two months. The messenger left Juarez at San Luis on the 23rd ult.

NEW YORK, May 16.—The morning papers say, "We are specially informed that England designs to seize Cuba in the event of any difficulty with Spain, and endeavor to retain the Island as a base in the Gulf of Mexico."

FALSE CHESTS FOR LADIES—WHAT NEXT!—We have already false chests of caoutchouc, tinted to suit every complexion. These false chests are made with so much ingenuity that they rise and fall with the respiration, and when terminated at the throat by a necklace *a la* Sylika, much in vogue just now, defy the examination of criticism or even of jealous rivalry. The advantage is obvious; no more *salieres*, no more hollow chests, no more stooping gait. Health, bloom and elasticity have succeeded all these, and the effect of the shaded eyelids, the painted cheeks, the colored lips, and the dyed hair, is no longer counteracted by the wornout appearance of the chest, indicating disease of the lungs, and giving that suspicion of late hours and dissipation which detracts so much from the feeling of admiration with which we have been wont to gaze in general upon the bal-room beauties of Paris. Thanks to the artists of the Rue de la Paix, the whole figure is now a wonderful composition, and inspires that sense of security and confidence without which no true admiration can be experienced. Those ladies whose throats were loaded with pearls and gold chains have thrown them all away to don the falsest chests *tout le monde*.—*Paris Correspondent of Court Journal.*

A lady about to marry was warned that her intended, although a good man, was very eccentric. "Well," she said, "if he is very unlike other men, he is more likely to be a good husband."

A destitute sewing girl in St Louis committed suicide by cutting her throat with a razor rather than go out as chamberm id.

White rats with pink eyes are plenty at Cedar Rapids, Iowa.

New York has contributed $170,000 to the relief of the South.

Married,

At the residence of the bride's father, Millbow Nova Scotia, on the 8th May, by the Rev. W. H. Perkins, assisted by the Rev. J. G. Hennigar, the Rev. W. H. Heartz Wesleyan Minister, Granville to Julia, eldest daughter of Thomas Kilham, Esq. M.P.P.

Died,

At Tignish, on the 28th ult. of measles, William, the eldest son of Mr. John Preston, aged 22 years.

At Fairfield, Lot 47, on Sunday, the 21st April, Mr. Angus McIsaac, in the 67th year of his age, much and deservedly regretted by a large circle of relatives and friends. Requiescat in pace!

On the 8th inst. at New Perth, after a short illness, Mr. Peter Stewart, formerly of Red Point, in the 31st year of his age.

At Nine Mile Creek, on the 5th inst. of measles, John Martin, aged 12 months and 23 days, son of John and Louisa McDougall.

At Charlottetown Royalty, April 27th, of consumption, Mary Jane, only daughter of Jackson and Mary Lowary, in the 20th year of her age.

On Sabbath, the 5th inst. Mrs Ann Cameron, of Scarletown in the 67th year of her age, relict of the late John Cameron, formerly of Brackley Point.

At Bay Fortune Road, on Saturday, the 11th instant, Margaret, infant daughter of Jane and James McTague aged four months and twenty-one days.—Other papers please copy.

Port of Charlottetown.

Russels Mills Cotton Duck,

the subscriber is prepared to receive orders for all the different Numbers, in quantities to suit purchasers.

I. C. HALL.

Ch'town, May 20, 1867.

I Was Once Totally Blind! BUT NOW I SEE!

To Whom it may Concern:

SOME fifteen years previous to the date of this Certificate, I was sorely afflicted with a diseased condition of both Eyes, which resulted in a formation of Cataract in either Eye, thus producing total blindness, in which condition I have been for nearly or quite 13 years.

During all this time I was deprived of the pleasure of beholding the beauties of nature, from the fact of not being able to distinguish one object from another, of white or size or color.

But my friends having heard of the OPERATING SKILL of Dr. J. HOMER, (formerly of Boston, Mass., but now located in Summerside, P. E. I.) advised me to consult him in reference to the possibility of restoring my sight. After a minute examination he readily assured me and my friends that he would warrant a restoration of the sight by an operation.

After due consideration, my friends advised me to have the operation performed, which I consented to.

On the 21st of March, 1867, he put me under the influence of Chloroform, and operated upon one Eye with perfect success; and in three weeks time he operated upon the other Eye with equal success, not having any unfavorable symptoms in either during the time.

Before the operation, I could not distinguish a Barn from a Ship; in fact, I could not see any object. But to-day I can designate all the different colors; recognise the features of my friends, and see to read letters one-fourth of an inch in diameter, at a distance of two or three feet. And I am happy to say that my Eyes are constantly improving in strength and power of vision.

No one but myself is able to feel the deep gratitude I owe to Dr. Homer for his extreme kindness during my stay under his treatment.

The pleasure of once more being able to recognise my friends, and the beauties of nature, stimulate me to offer a most earnest prayer to the one Great Physician, to whom we are all indebted for our present existence.

In test mony of the foregoing, I hereby subscribe my name, at Summerside, P. E. Island, the eleventh day of May, A. D. 1867.

CHARLES McDONALD, (Patient) Lot 14.
