**MORRIS & SMITH**

**The Proper Light for Country Houses**

Acetylene does away with all the bother and inconvenience that go with kerosene lamps. There's the disagreeable smell of oil, the everlasting cleaning of lamp chimneys, trimming the wicks, filling the lamps, etc. Then there's the constant danger of your lamp exploding. Wherever you want light you've got to take the lamp with you. You never know when you may trip over something and fall, while carrying the lamp. And what will the consequence be?—probably an explosion, followed by fire. A fire in the country means a total loss of property, apart from the risk of being burned alive. If you have children around where there are lamps, you've got to be constantly on the watch to see that the lamp isn't overturned. But why continue to run these risks when you can have your home lighted with an absolutely safe light—acetylene? It costs very little more than kerosene. To produce acetylene of the greatest lighting power, you need Calcium Carbide—the best and most satisfactory carbide made. You want to know more about carbide, don't you? We shall be pleased to give you information if you send us your address.

**The Shawinigan Carbide Co., Limited,**  
Montreal

Cleared, Nov. 21—Sgt. Ethel, McLeod Montague.

**Record-breaking Fur Sales on Saturday**

Saturday we broke all records for Fur Coat sales, and in connection there with there were many significant and amusing incidents. Fur Coats were actually brought into our store for comparison, but in every case we made a sale easily, which speaks volumes for the quality of our furs and the prices asked.

Fur Coats were never more fashionable or desirable than in the present year. Everyone who keeps abreast of the fashions must know this. From time to time fads will come in—which are all right for those who can afford them—only to go out again in a short time, but the Fur Coat is a "thing of beauty and a joy forever." Nor is this to be wondered at? They are comfortable, becoming, durable, trim and smart looking, and withal moderate in price.

We have them in all the fashionable furs from the rich Persian Lamb with Mink trimmings down through Ukrainian, Astrachan, Seal, &c, some plain others with sable and other trimmings. In no other coat will the same amount of money invested, bring so much solid satisfaction, in wear comfort or appearance.

For those who will have the fur-lined we have provided a nice range, at closest prices. We invite all to see our lines before making a purchase, as we feel confident, that quality considered, we tower ahead of all competition.

Our sales in small furs this season, have been most satisfactory indeed, and we are looking forward to an increased demand as the weather gets colder. We have magnificent sets and separate pieces in Mink, Stone Martin, Sable, Martmot, and a number of cheaper furs, all honestly priced, something to suit every person and every purse.

Our Men's Coon Coats will rank as the best imported to this Province being most carefully selected, and everything in the least doubtful rejected as unworthy a place in our stock. During the past week we sold some beauties, and would advise every man who intends to secure a fur coat this season, not to delay too long as the choicest are sure to go first.

Come in and become convinced that here you can put the most thorough care in both furs and prices.
