DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto — Market easier in light trading.

Montreal — Market mixed in light trading.

CURRENCIES

MONTREAL (CP) — The U.S. dollar closed Friday at a discount of 3 19-32 per cent in terms of Canadian funds, unchanged. Pound sterling $2.71 9-16, up 3-16.

TORONTO

TORONTO (CP) — Industrials were ahead, but the rest of the stock market dipped Friday, in light closing trading.

Golds were off a few decimal points and base metals and western oils had a little heavier losses.

Final volume of 2,358,000 shares was down from Thursday's 3,054,000. The Toronto exchange at times during the day just drifted as it was without the guidance of New York, idle because of the Memorial Day holiday in the United States.

Four penny issues accounted for over one-quarter of the total volume. Zenmac Mines added three cents at 50 on 205,000 shares; Maritimes Mining, rose eight cents on 172,000; New Senator Gold picked upn½-cent at 5½ on 138,500 and Maralgo moved up three cents at 62 on 107,650 shares.

Golds, base metals and western oils for the most part traded in a ½ point range and many senior issues received little or no action.

Index changes: Golds off .09 to 84.96; base metals off .12 to 152.40; western oils off .46 to 134.69.

Norad Has Completed Plan For Defence Of North America

By DAVE McINTOSH

OTTAWA (CP)—Headquarters of the Canada-United States Air Defence Command has formulated a complete defensive pslan for North America, official in close touch with the headquarters said Thursday.

They added that this defensive plan has been approved by the Canadian government. Its details, of course, are secret.

The statement by the competent officials coincides with the visit here Thursday and today of Norad's commander - in - chief, U.S. Air Force Gen. Earle Partridge, and his deputy, RCAF Air Marshal Roy Slemon.

They are conferring with Defence Minister Pearkes and the chiefs of the Canadian armed forces. For some unexplained reason, the defence department made no official announcement concerning the visit.

Basic purpose of Norad's establishment last year at Colorado Springs Colo., was formulation of an air defence plan for North America.

This plan was to be approved in advance by the two governments because there would be no time for its preparation or for inter-government consultation in event of air attack on this continent.

The plan concerns only defence.

Until Thursday it had not been established that Norad had already drawn up a plan for defence. External Affairs Minister Smith said in the Commons May 19 that the Norad commander "will operate within a single air defence plan which will be approved by the two governments."

Informants said the plan, generally speaking, sets out what defensive action would be taken under various circumstances, such as avenues of attack and the number of attackers.

Colorado Springs, in event of attack, would supply the RCAF Air Defence Command with all possible information so that it could position its squadrons to meet the threat. Direct control of the RCAF squadrons would be retained by Air Vice-Marshal Larry Wray, chief of Air Defence Command headquarters at St. Hubert, Que.
