THE ENGLISH NEWS.

THE R. M. S. *China* arrived at Halifax on Monday morning last, at 4 a. m., and the Mail for this Island arrived here the same night by the *Heather Belle* from Brule. Latest dates are to the 30th ult. The Fenian excitement seems to be the principal topic under discussion with English and Irish journals; but no one seems to apprehend that it will ever result in any serious outbreak. The United States appear to have given birth to the movement, but the Government of that country, according to their own organs, neither sympathise with nor encourage it in any way.

WE intended to have written, as a *finale* to our late editorial correspondence, published while off the Island, some observations respecting the visit of the tourists from the Maritime Provinces to Upper and Lower Canada. We find we have no space for the purpose this week. Whether the matter will have sufficient freshness for our next No. will depend upon what may transpire in the meantime. Some misunderstanding seems to prevail regarding the spirit in which the Canadians received their guests. Public journals in Halifax and St. John—under the control of gentlemen who were amongst the visitors—have addressed themselves to this topic with great success; whether the misunderstanding will continue to prevail in this Island is, perhaps, a matter of small consequence.

THE SUMMERSIDE JOURNAL, published by Messrs. Bertram & Barnard, at Summerside, was issued for the first time on Thursday last. It is neatly printed, and evinces much taste and judgment in the matter which fills its columns. There is every prospect of its being quite a useful "institution" to Prince County especially and we hope the enterprise and energy of the publishers will be handsomely rewarded.

THE HON. A. J. SMITH, who recently took the office of Attorney General for New Brunswick, has been re-elected for Westmorland County without opposition. Some over zealous opponents of Confederation set down the election as a triumph of their views. We cannot see it in that light. Only a few months ago Mr. S. was elected by an overwhelming majority in the same County—about six hundred votes, we think—and it is hardly likely that so soon after his seat could be contested with any prospect of success.

OUR FISHERIES.

WE are glad to learn that those of our people who have been engaged in the Fishing business during the season now drawing to a close have met with very general success, and that a remunerative market is accessible to them in England and the United States, as well as in the Provinces, by ships to the old country and steamers to Boston, &c.

We hope that our trade in this branch of industry will be more fully developed next season, and that a larger amount of capital will be employed, in order that our own people may share in the advantages which our American neighbors have been reaping for many years past, whilst we have remained idle spectators.

We learn that Jas. McCraith, Esq., merchant, of this City, has employed labor and capital to a considerable extent, at Robinson's Island, during the past summer, in the fishing business, and has made it pay. Several others of our enterprising merchants in Charlottetown, Georgetown, Souris, &c., have done likewise, and we hope successfully.

We may mention the luck of one fishing vessel which came under our own personal observation, as a proof of what may be accomplished in this invaluable source of our wealth: That splendid schooner, the *F. Treat*, Clarke, master, arrived at this port on the 18th day of June last, on her summer voyage to the fishing ground, and in three weeks returned with a catch of upwards of 300 barrels of Mackerel, which were discharged on Queen's Wharf, and forwarded to market per steamers to Boston. The *F. Treat* proceeded again to the fishing ground, and has since made three more trips, making in all four trips, her average catch per trip being about 325 barrels, making in all some 1,300 barrels of Packed Mackerel, the value of which is estimated at about twenty thousand dollars.

It may be said that the extraordinary success of this schooner is owing to the super or tact, courage, and skill of Capt. Clarke, who is so well and favorably known by the general public as master of the Sailing Packets between this port and Boston previous to the days of steam communication, during which he very deservedly secured the confidence and respect of the whole public.

We admit that much depends upon the careful and judicious management of such men as Capt. Clarke; and we trust there are natives of this Island who, after some experience and practice, would be found to possess all the necessary qualities for becoming successful rivals to their American neighbours in the prosecution of this branch of home industry.

We sincerely trust that more of our wealthy merchants will, during the approaching winter, devote their attention and some of their spare cash to the building of fishing schooners, and thereby employ their means to the promotion and the general prosperity of the Colony.—*Com.*

RAILROAD SMASH IN CANADA. — We learn from a late Canadian paper that on the 6th instant a terrible accident occurred at Stratford, on the Grand Trunk Railway. A Stratford paper of the evening of the 6th furnishes the following particulars respecting the accident:—

"The express train from Toronto, due here at 5 a. m., was nearly two hours late, and the fog being very thick, collided with a freight train from the west with tremendous force. The effect of the concussion was such as to smash both engines, the baggage car, and many of the freight cars, killing the engine driver, Edward Deverill, on the spot, badly injuring the fireman, Vippans, as well as the baggage master, Harry Donald, and injuring to a greater or less extent several passengers. The fireman's arm is broken, and his back hurt. The baggage master is much cut about the face and head, and is also injured in the back. One of the passengers, whose name we could not learn, was bruised about the head, and otherwise injured. The hurts of the other passengers were of no very serious nature. It is somewhat strange that both the engine driver and fireman of the freight train escaped.

The night switchman states that notwithstanding the non arrival of the express on time, he received instructions to let the freight down. It had hardly gone a quarter of a mile on its way when the accident happened."

The *Quebec Daily News* says that Mr. Closter, representing several capitalists, has made a proposal to the Canadian Government to purchase the four Provincial steamers for cash. The plan is to fit up the *Napoleon* and *Victoria* with upper cabins, and, instead of the present semi-monthly line, establish a weekly line between Quebec and Halifax, calling at Charlottetown, P. E. Island, and intermediate ports. Mr. Closter is thoroughly conversant with the river and gulf trade, and is associated with persons of means. They anticipate a largely increased trade it a permanent line in private hands is opened between Montreal and the Lower Ports. The *Mercury* says that Mr. Closter waited on the Premier, and received every encouragement for the prosecution of the enterprise.—*Halifax Express.*

A late despatch says that on Sunday last two very severe shocks of earthquake were experienced in the city of San Francisco, California, causing great consternation amongst the citizens. Buildings rocked, walls cracked, and cornices and chimney's fell. The entire population quitted their houses and churches and went into the streets.

A CROWN OF GOLD or a coronet of pearls is the privilege of few to have, but any lady can rejoice in a glorious head of hair—Nature's own diadem and title to dignity—by the use of MRS. S. A. ALLEN'S World Hair Restorer and Zylobalsamum, or Hair Dressing. Every Druggist sells them. W. K. Watson, agent for P. E. Island.

The Barque "Undine," Kickham, Master, with goods for this Port, arrived here on Wednesday night last, in 29 days from Liverpool—experienced westerly gales during the whole passage.

ADDRESS TO THE REV. MR. TRUDELLE.

At a Meeting of the St. Cecilia Choral Society, on Sunday evening last, the following Address was presented to the Rev. A. Trudelle, in behalf of the Society, on the eve of his departure from this Parish:—

TO THE REV. AZ. TRUDELLE, PRESIDENT OF THE ST. CECILIA CHORAL SOCIETY.

Rev. and very dear Sir—

We, the Managing Committee and Members of the St. Cecilia Choral Society, have learned with deep regret that it is your intention to leave this Parish, in a short time, for a new field of action.

This being the case, we cannot permit you to depart from amongst us, without endeavoring to express to you the very great concern and pain which the knowledge of this intention occasions us to feel.

For several years you have zealously devoted the exercise of your great talents to the truly benevolent purpose of diffusing amongst us a correct taste for the *sacred solemnities* of Music, and a just appreciation of the exalting and purifying effects of its powers in general, when under wise and wholesome direction, whether in seasons of serious retirement or social intercourse.

Such an appreciation and love of the refinements and exalted conceptions of music have you been the happy means of cultivating in the hearts, or of instilling into the souls, not only of the members of the Choral Society, but, to a great extent, of imparting to the Catholic community in general, that every individual of that community looks upon you in the light of an especial benefactor; and thus endeared to us all as you are, we cannot but contemplate your intended removal from amongst us with the most painful and regretful feelings.

We well know the extreme modesty and abnegation of self which characterise all your endeavors to benefit your fellow man; and that, therefore, the language of direct eulogy, justly and highly merited as it is, may not be quite agreeable to you. We cannot, however, in justice to ourselves, forego the pleasure which a grateful reference to the obligations which you have laid upon us is calculated to afford us upon the present occasion. You will, therefore, we trust, Rev. and dear Sir, be pleased to bear with us whilst we very briefly allude to some of the important and highly prized benefits which you have conferred upon us.

In the first place, allow us then, with feelings of sincere gratitude, to instance the happy effects which your inculcation of the love of Music has had upon many of the youthful members of our community, in imparting to them the elevating and sustaining sentiments of self respect, upon which depend not only their own present and future respectability and success in life, but, in most cases, to a very great extent, the comfort and happiness of others.

In the next place, Sir, allow us to allude to your successful endeavors to raise the Choir of St. Dunstan's Cathedral to a state of efficiency. And in connection with our reference to the Choir, permit us, also, to mention the indebtedness under which you have laid the congregation of the Cathedral as respects the splendid new Organ lately purchased and placed in the Orchestra of the sacred edifice. It is not, and it will not, be forgotten that this Organ was procured and paid for by and through your individual exertions.

The great ability displayed by you in the getting up of our Concerts, which afforded so much rational amusement, and improvement also, to the large and respectable audiences which were collected by them, will long be pleasantly and gratefully remembered amongst us.

That the existence of the Choral Society, its gratifying progress, and the happy concord of all its elements, are entirely attributable to your benevolent conception and zealous exertions, are facts which are indelibly engraved upon our hearts.

Sincerely and deeply as, on our own account, we regret that you are about to leave us, we are nevertheless glad to know that the change will be advantageous to yourself. And in prospect of the change so soon to take place between you and ourselves, as a token of the esteem and affection in which we hold you—not, indeed, merely on account of your amiability of temper and superior talents, but in acknowledgment of those qualifications, as demanding our highest regard in consideration of the benevolent, noble and Christian purposes to which they are devoted—we beg your acceptance from us, herewith, of an Organ, the value of which, we are sorry to think, is—although equal to our limited means—very inadequate to a just representation of the regard which has prompted the gift.

In conclusion, allow us to express the hope which we confidently entertain, that your career in your new sphere of action will be as useful and acceptable to others, and as pleasing and honorable to yourself, as your course has been here; and at the same time, permit us to assure you that we shall never fail to offer up our earnest prayers for your health and prosperity, wherever your lot in future may be cast.

We are, Rev. and very dear Sir,
Your faithful and obedient servants,

JOHN GAHAN, Vice President.
WILLIAM MALONE, Secretary.

REPLY:

MY DEAR FRIENDS—

For the kind wishes contained in the Address with which you have just presented me, on the eve of my departure from amongst you, you will receive my best thanks, and rest assured that every good feeling expressed in it for my welfare is most heartily reciprocated.

Your pleasing allusion to the agreeable time I spent amongst you, causes me to reflect on the many happy hours passed together at the various meetings of St. Cecilia's Choral Society. Of the tractability and attention which have been evinced towards me while President of your Society, and of the high Appreciation which you appeared to set on my services, I shall bear away the greatest evidence, even though you never had presented me with the address which I hold in my hands. The punctuality with which you attended the meetings of your Society, and the desire which you manifested to acquire a knowledge of the principles of music, are sufficient to convince me of the high value you set upon that divine art.

The efficiency which the members of the Choir of St. Dunstan's Cathedral attained during my connection with them may, in a great measure, be attributed to their co-operation with me. For your concurrence in aiding to liquidate the debt incurred on account of the purchase of the Organ in St Dunstan's Cathedral, you have my sincere thanks, as, indeed, you should have the thanks of every Catholic in this community who takes an interest in any thing pertaining to our holy religion. The Choral Society, as a body, must feel proud when they reflect how instrumental they were in thus conferring such a great benefit on religion.

The excellent manner in which St. Andrew's Hall has been fitted up, partly by the amount realized by your Concerts, will be another lasting testimony of the good which has accrued to the Catholics of Charlottetown from your Society. The poor must feel grateful to you for the large amounts of money which you raised for them by your Charity Concerts.

In conclusion, I scarcely need say that I shall ever feel indebted to you for the valuable gift with which you have presented me. I shall regard it as an earnest of your affection and esteem for me.

Assuring you that I shall always have your temporal and spiritual welfare at heart, and promising to offer up my prayers that God may bless you with every comfort,

I remain, my dear friends,
Yours very affectionately,
AZ. TRUDELLE.

Oct. 15, 1865.

CITY COUNCIL.

28th Sept., 1865.

Presiding Councillor T. DesBrisay, Esq., in the Chair. Minutes of the last Meeting read and adopted. After the transaction of some preliminary business, the subject of the New Market House was, on motion of R. Heartz, Esq., brought under the consideration of the Council, and, after some discussion, a Resolution was adopted to the effect, that the Market house be erected on the West end of Queen Square, and that tenders for plans, &c., be issued immediately. Said Resolution carried, Councillor Brecken only dissentient. Adjourned.

Oct. 11.—Presiding Councillor J. Morris in the Chair. The further consideration of the Market House question resumed.

Plans of Building, submitted by Silas Barnard, Esq., were examined, and appeared to be favorably received by the Council; but, as several members of the Council were absent, it was considered advisable to postpone the subject until Saturday next, the 14th inst., at 11 o'clock, a. m., when the whole Board would be expected to attend for the purpose of taking action on the Market House question.

The *Commercial Bulletin*, published at Richmond, Va., has been suppressed by General Terry for libellous publications in its issue of September 30. The following extracts betray the animus of the sheet:—

"Doubtless Mr. Johnson's Democratic tendencies and education make him less prompt to enforce those little punctillios of etiquette that in the better days of the republic were attended to vigorously, &c. * * * * * The administration of the late Mr. Lincoln introduced to Washington manners the vulgar, illiterate and coarse customs of the party that had elected him to office. They came to the White House with clamour similar to that of the barbarians who entered Rome in her decline, and plucked grave and reverend senators by the beard, or with something of the insolent air of conquest with which Onroff and his boorish Cossacks galloped along the Carousel in the train of the allied army on its entry into Paris. The coincidence of the departure, about that time, in the shape of Southern population, of the kings and queens of Washington society, tended also to allow the social passion to spread, until the whole atmosphere about the White House became tainted with the miasma of the presence of clowns arrayed in broad-cloth, who talked at its occupant by the hour together, exactly as they are now doing with Mr. Johnson, and ruined the character of the establishment for respectability. Mr. Johnson has unfortunately fallen heir to these bad influences," &c.

LARGE CATCH OF MACKEREL.—On Tuesday of last week nine boats, each having from four to six men, from Mr. I. C. Hall's Fishing Establishment, on Robinson's or Rustico Island, caught *fifty-four thousand* large fat Mackerel, making in Fishermens' parlance 350 Wash Barrels, or 210 Packed Barrels of these fine fish. The first boat came in at 4 o'clock in the afternoon, and by 8 o'clock next morning all the Mackerel were split and salted. This was the largest catch of Mackerel, for the number of boats, in the same space of time, ever taken in that vicinity, as it averages 6000 to each boat.—*Weekly.*

Several lots of P. E. Island Pork, put up by Owen Connolly, Esq., and others in Charlottetown, have lately realized from $26 to $30 per barrel, in Halifax.

The fine juniper-built ship *Ocean Pearl*, launched a few weeks since from a shipyard of the Hon. James Yeo, classed seven years at Lloyd's, cleared from this port last Monday, for Miramichi, to load. She is a ship of 960 tons, and the largest vessel ever launched—in Prince County. *Summerside Journal.*

SUPREME COURT.—The October Term of the Supreme Court, for Prince County, commenced on the 3rd and ended on the 5th inst. His Honor Judge Peters, in addressing the Jury, congratulated them on the good state of the County. The names of the Grand Jurors, for the present Term, were as follows:—John Hazzard, Esqr, foreman, John Beer, Thomas Crabb, Henry Jones Richardson, Daniel Enman, John Green, junr, Isaac Clark, Edmund Farrow, James Wright, Daniel McDonald, Charles Compton, George Wright, Angus McMillan, Donald Ramsay, John Clark, Andrew Bell, James L. Holman, William B. Clarke, Andrew Campbell, Humphrey McLaren, Philip Baker, Stephen Black, William B. Tuplin, George Crosby, Esqrs.

As our readers can judge for themselves, by the brevity of the term, there was not a great amount of business to attend to. Only one criminal case occurred in a prosecution, the Queen vs Alex. Cameron, for obstructing a Constable in the discharge of his duty. Prisoner received four months imprisonment. The remaining cases were the following:—

James Campbell vs Charles Green, for trespass—verdict for Plaintiff.

Richard J. Clark vs Thos. Mowbery, for services performed—Plaintiff non-suited.

Murphy vs McNaught.

This action was brought on by the Plaintiff to regain possession of a farm sold by Dy. Sheriff for land-tax. His Honor the Judge decided that Sheriff's Deed was illegal, the land not having been advertised by metes and bounds.

This latter case, we think, will be one of the deepest interest, and also one upon the decision of which will depend a large number of Sheriff's Deeds, which will be either confirmed or rendered void, according to the final decision in this instance, an appeal having been made, we understand, to have the Judge's decision argued in Chambers.—*Summerside Journal.*

CHIRIQUI IMAGES.—We have had the pleasure of examining a quantity of gold received by DR. J. C. AYER & Co, from Honduras, in payment for their medicines, which are extensively sold throughout Central America. Among massive crosses, bracelets and chains, are the rude images which have been taken from the graves of the Chiriqui chiefs—birds, turtles, serpents, bugs and reptiles done in solid gold. They carry us back beyond historic times, to periods and places where barbarism reigned supreme They seem to come here now in mute appeal from the winding sheets of their ancestors, to ask for the simple Indians in the mountains medical protection from cultivated skill, against diseases which gather them up in too early graves. Ignorant and unlettered as they are, they have learned of the white man enough to know where to apply for relief, and what will bring it. Our well-known townsmen, above named, inform us that they require their remittances from foreign countries now to be made in silver and gold.—*Lowell (Mass.) Sentinel.*

"OFFICIAL REPORT"

One of our Generals, in a recent report to the War Department, makes use of the following words: "I cannot close my report without saying a few words concerning the cavalry arm of our service. It is almost impossible for our men to keep our cavalry and artillery horses in good order on forced marches and long rides without some medicinal aid, and I would therefore suggest to you that a

CONDITION POWDER

be issued to every cavalry and artillery soldier.

The cost is comparatively small, taking into consideration the price of horses, as I find from experience that they will not only keep them in good spirits, but they can travel farther, with more ease, with their aid. *Let this be attended to.*"

The General is correct. No man can keep his stock in good condition without them. Get

Carlton's Condition Powders.

Give them a fair trial, and you will at once see the benefit derived from them. Use CARLTON'S CONDITION POWDERS, and take no other. For sale by all merchants and druggists throughout the known world. *Get our Almanac.*

HUNNEWELL'S TOLU ANODYNE.

The real necessity for this splendid preparation was two-fold, and well has it proved how this necessity has been met. To have a true and natural *Quiate* for all cases of *Loss of Sleep*, and *Nervous Debility*, and *Anti-spasmodic* for all *Neuralgia, Rheumatic, Gout, Hysteria, Paralytic, and St. Vitus Dance*, cases as an inward application, without producing any of the horrors, or bad effects of *Opium* or preparations of Opium, but a preparation that, should it fail of reaching the complaint, would leave no stain of debility behind. For *Tooth* and *Earache*, for *Nervous* or common *Sick Headache*, for the suffering in *Monthly Menstruation, Distress after Eating*, it is almost infallible. It is the production of a celebrated herb from *India*, perfectly natural in its color, uniform in action, and by confidence to test it, will be found the greatest necessity in *Every Family*. This preparation has the most unquantified confidence of large numbers of Physicians, is controlled by a thorough knowledge of medicine, and it is the wish of the proprietor that it may be accepted with perfect confidence by all, as free from every species of quackery, and based on most perfect laws in Materia Medica. Asthma and Diptheria are effectually cured by the Anodyne, and among its greatest points.

HOLLOWAY'S PILLS for Indigestion, Stomach, and Liver Complaints.—Persons suffering from any derangement of the liver, stomach, or the organs of digestion, should have recourse to Holloway's Pills, as there is no medicine known that acts upon these particular complaints with such certain success. They strengthen the tone of the stomach, increase the appetite, purify the blood, and correct depraved secretions. In bowel complaints they remove their primary cause, and soon restore the patient to sound health. Nervous or sick headaches, and depression of spirits, may be speedily relieved by a course of these Pills. They are composed of rare balsams, without the admixture of a grain of mercury, or any noxious substance, and are as safe as they are efficacious.

SOLDIERS and OFFICERS in the Army, being exposed to sudden changes, should always be supplied with "*Brown's Bronchial Troches*," as they give prompt relief in a Cold, Cough, or an Irritated Throat.

PRIVATE THOMAS BLAIR, a Deserter from the Detachment of the 16th Regt., stationed here was recently taken on board a vessel in Georgetown Harbor, and brought to this City on Wednesday last, where he awaits his trial.

S. T.—1860—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated

PLANTATION BITTERS,

which are now recommended by the highest medical authorities and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the sytem and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach
They cure Dyspepsia and Constipation.
They cure Diarrhœa and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has an unmutilated metal cap over top of each bottle, and green label, for exportation, around each neck. See descriptive Circular around each bottle.

MILL PROPERTY
at MONTAGUE.

"Happy may the maid be that s married to a Miller
For fair day or foul day he's a' bringing till her."

THAT EXCELLENT SET of MILLS owned by *MRS. JANE CAMERON*, of MONTAGUE, consisting of the valuable and extensive Property of the Hon. J. ALDOUS, consisting of a

First Class Grist Mill,

with Three Pairs of *Superior Stones*, capable of grinding all kinds of Grain, and producing Flour or Meal of any grade—together with a commodious and well finished KILN. A superior **SAW MILL** and **SHINGLE MILL**, both new and in excellent working order. Also a COMFORTABLE **Dwelling House**, properly finished. The LAND on which these Properties are situated comprises TWENTY-SEVEN (27) ACRES, of good quality, mostly cleared, and in a good state of cultivation. This Farm can easily be made larger by any person desirous to do so, as there are 100 acres of valuable land adjoining, owned by Mr Lemuel Phillips, who feels disposed to sell should a favourable opportunity offer. On the whole, this Property is considered by competent judges to be most advantageously situated, fronting as it does on the Montague River, whose waters convey both Grain and Lumber to within a stone's throw of the Mills; and the convenient and good roads leading from these Mills to all parts of the County, and through old and highly cultivated settlements, need but be mentioned to be fully appreciated by any person acquainted with the value of such facilities. It may not be out of place here to mention that the Hon. the "Commissioner of Lands"—than whom no person should be a better judge—saw in close proximity to this Property a site on which to invest a large amount of capital, feeling sure that it furnished those numerous advantages required to make a desirable and permanent residence.

☞ The terms on which the above valuable Property will be disposed of will be as follow:—Half the purchase money to be paid down the day of sale, and the balance can remain secured on the Property for one, two or three years, at the option of the purchaser.

Parties desirous of treating for the above, can do so, by private contract, up to the

18th day of October next ensuing,

on which day, at 12 o'clock, noon, (if not previously sold), it will be offered at Auction.

F. P. NORTON, Auctioneer.
