## Toronto Stocks

TORONTO (CP) — Uraniums Wednesday sparked the stock market to a moderate advance, which was belittled by a ripple of profit-taking near the close.

The uranium buying began at the opening whistle following over night news that Britain and Canada had arranged a deal whereby Canada would sell Britain $115,000,000 worth of uranium in the next five years.

In the opening minutes as the buying quickly spread to other sections of the market, especially mines and western oils, the high-speed ticker-tape fell five minutes behind floor sales and didn't catch up for 40 minutes. Then the buying subsided and prices began levelling off.

At noon, however, activity again increased and between 1 and 2 p.m. prices generally touched their highs for the session. The profit-taking showed signs of developing after that and just before the close carried most prices a bit lower.

Algom had the best gain among uraniums, closing one point high at 22 after touching 23 after noon. Consolidated Denison and Gunnar each gained major fractions. Half a dozen lower - priced uraniums gained 20-45 cents. Most issues were ahead at least 10 cents.

Noranda was a 1⅜-point winner at 49¼ among senior base metals. Other seniors were fractionally higher. Advocate, Atlin-Ruffner, Belcher, Beaucage and Iron Bay gained 12-20 cents among lower-priced mines.

Western oils were led by Home Oil B, up ⅝ to 18⅝, and Home A, up a point to 19. Charter Oil gained 27 cents at $3.15 and Provo added 17 cents to $2.70. National Pete eased 20 cents to $4 in light trading.

Index gains: industrials 1.58 to 456.21; golds .73 to 76.35; base metals .69 to 207.39; western oils .73 to 162.78.
