ns to receive it or to reject it, when it becomes law, then we might *wait* to obtain all the information we could; before we would decide what action to take upon it; but if it *shall*, as well as *may*, be lawful to have the internal affairs of our church regulated by it, and that those places will be subject to its authority, where the members of the church have not decided against it, then there is no time to be lost in eliciting public opinion, either at one or more meetings which may be called for that purpose. If I am not competent to say, whether the Bill be *permissive* or otherwise; this I leave for wiser heads; but I am of opinion, that if the Bill is to be one of the first which the new Assembly is to produce as a government measure into the present session of Parliament; then, whatever we are to do, we ought to do quickly, and though some may say it is too late to do any thing, yet I think *Vigilantes* will admit the truth of the maxim "better late than never." Yours, &c.

PRO LIBERTATE ECCLESIÆ.

THE ENGLISH AND TWO COLONIAL MAILS.—The Courier arrived with the Mails yesterday, at about 3 o'clock, after a very perilous crossing. They were out on the ice in the strait for 22 hours; and although very near the shore in the evening were unable to effect a landing. The Papers and Letters were very much injured with water, and took a long time to sort at the Post Office to the great annoyance of the Post Master and the people without, who were awaiting their delivery. Two or three bags of Papers were left behind.

The following are the principal items of news.

Significant limits have been given to the recently appointed Senators, as they have made no addition to their expenditure or display, that the honours or emoluments were not conferred on them by the Emperor solely to enable them to hoard, or for the exclusive benefit of their families, but that they might add to the splendour and dignity of the Imperial Court. By the bye the latter is not what it was since the advent of the bachelor Emperor; and the Prince Moskowa has been ordered to join his regiment in Algeria, for certain gallantries in the Imperial Palace.

It is again, and very authoritatively, announced that applications will be made to the English Government for the extradition of Kossuth, Mazzini, and other refugees. In one of the last sittings of the Germanic Diet, the representative for the little Principality of Lichtenstein pressed the Federal Assembly to join the other powers in a formal demand to the above effect. Prussia, however, has refused to associate in this proposition against England.

The Australian gold discoveries seem destined to change the physical aspect of the earth. Their effect upon commerce is only now beginning to tell, and it is very probable that we are only on the threshold of the mighty future, which gold has been shown to prove that *steam*, in its present form, is not an agency that will pay to and from the antipodes; and the consequence is that *clipper* vessels and circular sailing are the means by which distance and time are to be annihilated. Everywhere the sound of the carpenter's adze on the shore, and hammer on the stocks, building of Noah's Ark was there such putting together of timber and iron. The price of vessels has advanced nearly a hundred per cent. during the last twelve months, but the supply bears no proportion to the demand. Some people—for there are always to be found croakers in every community and in the most prosperous times—already prophesy a collapse. We can see no symptoms of it. On the contrary, judging by what is passing under our eyes, we appear to be only in the first stage of the furor. The upheaving of the social frame shows the severity of the convulsion, upon which, some people are so intoxicated and emotion. It is a kind of moral partuition, the termination of which will be the birth of a mighty empire.

The Sydney *Empire* of Dec. 6, has the distressing intelligence that a boat belonging to H. M. brig Phastom, recently from that port, was upset in Poirus, in Cook's Straits, when the surgeon of the vessel and five of the crew were drowned.

The immigration into Melbourne from Great Britain and the United States is said to average about one thousand daily.

Board at the hotels in Melbourne was worth about eight shillings sterling ($2) per day.—The government was paying ten shillings sterling ($2 50) for labourers on the public works.

The Great Eastern steamship was to have sailed on the 20th Dec. for Liverpool.

INGENIOUS INVENTION.—I. Z. A. Wagner has invented an apparatus for ascertaining the speed of vessels at sea, which appears to possess much merit, and is certainly an excellent substitute for the old fashioned log and line. A brass blade, about six inches long, is placed at the side of the keel, which, when not in use, is folded close against the side, and presents no resistance to the water. By means of a rod, passing through a tube, to the cabin or captain's state-room, it connects with a dial-plate. The apparatus is thrown into exact situation the captain is desirous of knowing the rate at which the vessel is going, which turns out the blade, so that the whole resistance of the water is thrown against it, and the exact speed is shown by a hand traversing the dial.

IMPORTANT DISCOVERY.—A Paris journal states that the bad smell and taste of butter may be entirely removed by working it over in water mixed with chloride of lime. The discovery was made by a Brittany farmer, who, in practice is to take a sufficient quantity of pure cold water to work it in, and put in it from 25 to 30 drops of chloride of lime for every lbs. of butter. When it has been worked until the whole of it has been brought into contact with the water, it should be worked again in pure water, when it will be found to be as sweet as when first made.

FROM THE UNITED STATES.—The fate of the Reciprocity and Fishery question is sealed, for the present, by a vote of the House in Committee of the whole, refusing permission for the bill to lie on the table 116 to 56—57 not voting.

RACE ROUND THE WORLD.—The screw steamer *Antelope*, already celebrated as having made one of the quickest passages on record between Rio Janeiro and England, recently greatly improved by a builder at Birkenhead, has been matched for a race to Australia and back to England, doubling both Capes, with the renowned New Brunswick built ship *Marco Polo*. The latter ship has now world wide reputation for her late extraordinary passage out to and from Australia to England.

TEXAS.—The Houston Register of the 11th says:

Great excitement has been created in the towns on this side of Rio Grande, opposite El Paso, by the discovery of some very valuable silver mines on the Eastern slope of the mountains, about sixty miles Northeast of Guadalupe Ana. The ore is found in immense quantities directly on the surface of the ground, and several tons of it have already been gathered and transported on mules to Guadalupe and another town. The ore is so rich that the silver is extracted by melting it with a common long fire of pine. Lead ore is also found in extensive veins, truning down into the very place to produce as a

We are informed that thousands of tons of lead ore similar to that obtained at the lead mines near Galena can be gathered on the surface of the ground, on the mountains side of El Paso.—There is a large hill near the silver mines, that might with propriety be styled the lead mountain, as it seems to be an immense mass of pure lead ore. If we may believe the accounts of persons who have visited the mines, they must be far more extensive and valuable than any of the mines in Illinois or Wisconsin.

SONS OF TEMPERANCE.—Mr. Durand, in his *Son of Temperance*, addressed the Legislators, printers and others, formed themselves into a society, and were the germ of an order, now numbering 300,000 persons in Britain and America, including 30,000 in Canada, and 1,000 in the Lower Colonies. Its great principle is to war against the traffic in into xicating liquors.

NEWSPAPERS.—In America there are 350, and in England only 150 daily papers.

HALIFAX, NOVA SCOTIA, March, 9.

The Hon. Provincial Secretary briefly recapitulated the past action of the Legislature upon Railway matters, shewing that from the position of affairs in the House, no Railway measure of a useful character to which the government would ask the assent of the Lieutenant Governor, could be perfected. He then stated that as it was the duty of the Council to had been determined, for the purpose of giving to the country a railway, to yield the preconceived opinions they had entertained; to give up the principle of constructing the work by government and adopt the company principle. He had done so from compulsion, not from conviction, he entertained the belief that the day would arrive when the people of the Province would regret that they had not their Railway under their own control, and concluded by moving the appointment of a select committee to prepare the bill.

Hon. J. W. Johnston accepted on behalf of himself and supporters the concession made, in the spirit in which it had been proffered; he thought, the right course had been pursued in moving for a select Committee.

The Committee was appointed, composed of the Hon. and learned Attorney General, Hon. J. W. Johnston, Messrs. Wier and Kilman, Hon. Provincial Secretary, Messrs. Ball and Henry.

The Committee report a company Railroad Bill. Company to be organized within six months, otherwise the company has been shown to prove that *steam*, in its present form, is not an agency that will pay to and from the antipodes; and the consequence is that *clipper* vessels and circular sailing are the means by which distance and time are to be annihilated. Everywhere the sound of the carpenter's adze on the shore, and hammer on the stocks, building of Noah's Ark was there such putting together of timber and iron. The price of vessels has advanced nearly a hundred per cent. during the last twelve months, but the supply bears no proportion to the demand. Some people—for there are always to be found croakers in every community and in the most prosperous times—already prophesy a collapse. We can see no symptoms of it. On the contrary, judging by what is passing under our eyes, we appear to be only in the first stage of the furor. The upheaving of the social frame shows the severity of the convulsion, upon which, some people are so intoxicated and emotion. It is a kind of moral partuition, the termination of which will be the birth of a mighty empire.

The Sydney *Empire* of Dec. 6, has the distressing intelligence that a boat belonging to H. M. brig Phastom, recently from that port, was upset in Poirus, in Cook's Straits, when the surgeon of the vessel and five of the crew were drowned.

The immigration into Melbourne from Great Britain and the United States is said to average about one thousand daily.

Board at the hotels in Melbourne was worth about eight shillings sterling ($2) per day.—The government was paying ten shillings sterling ($2 50) for labourers on the public works.

The Great Eastern steamship was to have sailed on the 20th Dec. for Liverpool.

INGENIOUS INVENTION.—I. Z. A. Wagner has invented an apparatus for ascertaining the speed of vessels at sea, which appears to possess much merit, and is certainly an excellent substitute for the old fashioned log and line. A brass blade, about six inches long, is placed at the side of the keel, which, when not in use, is folded close against the side, and presents no resistance to the water. By means of a rod, passing through a tube, to the cabin or captain's state-room, it connects with a dial-plate. The apparatus is thrown into exact situation the captain is desirous of knowing the rate at which the vessel is going, which turns out the blade, so that the whole resistance of the water is thrown against it, and the exact speed is shown by a hand traversing the dial.

IMPORTANT DISCOVERY.—A Paris journal states that the bad smell and taste of butter may be entirely removed by working it over in water mixed with chloride of lime. The discovery was made by a Brittany farmer, who, in practice is to take a sufficient quantity of pure cold water to work it in, and put in it from 25 to 30 drops of chloride of lime for every lbs. of butter. When it has been worked until the whole of it has been brought into contact with the water, it should be worked again in pure water, when it will be found to be as sweet as when first made.

FROM THE UNITED STATES.—The fate of the Reciprocity and Fishery question is sealed, for the present, by a vote of the House in Committee of the whole, refusing permission for the bill to lie on the table 116 to 56—57 not voting.

RACE ROUND THE WORLD.—The screw steamer *Antelope*, already celebrated as having made one of the quickest passages on record between Rio Janeiro and England, recently greatly improved by a builder at Birkenhead, has been matched for a race to Australia and back to England, doubling both Capes, with the renowned New Brunswick built ship *Marco Polo*. The latter ship has now world wide reputation for her late extraordinary passage out to and from Australia to England.

EASTER MARKET.—There was a large number of fine fat cattle at the show to-day, and a larger number of Hogs, than we ever remember seeing in one market before; they were generally of heavy weight: we should say that there were twenty-five or thirty over 300 each.

The following is the award of the Judges:—
Best Fat Ox. B. E. Wright, Esq. £3.
Second Do. Mr. George Beer, jr. £2
Third Do. Do. £1
Best fat Cow, Hon. George Coles, £1 10s.
Second Do. Mr. John Holman, 15s.
Best carcass of Pork, (465 lbs.) Hon. J. M. Holl.
Second Do. Mr. James Parkins, Union Road.
Best pen of three Wether Sheep, J. Lyal, Esq. £2.
Second do. Henry Longworth, Esq.
Best pen of three fat Ewes, J. Lyal, Esq.
Second do. Lemuel Wright, Esq.

There was a pig shown by Mr. Mitchell, bred by Mr. Isaac Thompson, which weighed 1,050lbs, and was only twelve months one week old.

MECHANIC'S INSTITUTE.—On Thursday evening next, the Hon. the President will lecture on STATUARY, and illustrate his subject, by exhibiting a collection of Busts and other *Statuistic objects*.

☞ Specimen numbers of the Horticulturist advertised in our columns to day can be seen at the Book store.

J. S. DEALEY,
COMMISSION MERCHANT AND Ship Broker,
No. 7, SOUTH STREET, NEW YORK.

☞ Freights and Vessels procured, at short notice for Europe, the British Provinces, West Indies, Australia and California. Berths secured for the latter places.

The "HORTICULTURIST." And Journal of Rural Art and Rural Taste.

THE Subscriber, who has long been connected with Mr. BARRY, as one of the editors of the *Genesee Farmer*, has purchased the *Horticulturist*, so ably conducted by J. J. DOWLING, and after the conclusion of the present volume, it will be Published at ROCHESTER, and Edited by P. BARRY, assisted by many of the best Horticulturists of the country, whose communications will materially add to its value. The ARCHITECTURAL DEPARTMENT will be conducted by gentlemen of ability and reputation.

To render the work accessible to a greater number, and consequently more beneficial, the price will be reduced to Two Dollars, if paid in advance, and at the same time various improvements made. Each number will contain a full page engraving of some new, rare, and valuable fruit or flower, drawn from nature, and engraved in style not excelled.

Still further to add to the value of the work, and meet the improving taste and increasing wants of the horticultural community, we shall also publish an edition with COLORED PLATES, each number containing a full page engraving of some new, rare, and valuable fruit or flower, correctly colored from nature, by the best artists in this line. This will be a new and important feature, in this country, and must command the attention and patronage of both professional and amateur Horticulturists. As the number of colored plates we can furnish will be limited, from the care and time required in their preparation, those who wish the *Colored Edition of the Horticulturist* for 1853, will do well to subscribe immediately. Price with colored plates, FOUR DOLLARS, *in advance*.

All who cultivate fruit or flowers, should read the *Horticulturist*, as it is devoted entirely to Horticulture, and its kindred arts, Landscape Gardening and Rural Architecture, and will keep the readers advised of everything new on the subject, either in Europe or America.

It will be our aim not only to make the *Horticulturist* superior to any work of the kind, in Europe, of the character in this country, but equal to any of the Horticultural Journals of Europe; and we confidently ask the aid and co-operation of the Horticulturists of the country. The work is published monthly, and contains forty-eight large pages, without advertisements, stitched in a beautiful and appropriate cover.

J. VICK, JR., PUBLISHER,
Rochester, N. Y.
GEO. T. HASZARD,
Agent for P. E. Island.

Leonard Scott & Cos.'
LIST OF
British Periodical Publications.

FORWARDED FREE, under the provisions of the late Post Office Law, at merely nominal rates.

1. *The London Quarterly Review (Conservative).*
2. *The Edinburgh Review (Whig).*
3. *The North British Review (Free Church).*
4. *The Westminster Review (Liberal).*
5. *Blackwood's Edinburgh Magazine (Tory).*

These Reprints have been in successful operation in this country for nearly years, their circulation is constantly on the increase, notwithstanding the competition they encounter from American periodicals of a similar class, and from the numerous *Eclectics* and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and should convince that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political colours before indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and they are regarded as far more valuable at other journals of their class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, as the reader will find by the extract and other literary notables, written for that magazine, and first appearing in its columns, both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers, are exclusively to be re reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs. Scott and Co., so that Blackwood is the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

TERMS.

	Per ann.
For any one of the four Reviews,	$3 00
For any two of the four Reviews,	5 00
For any three of the four Reviews,	7 00
For all four of the Reviews,	8 00
For Blackwood's Magazine,	3 00
For Blackwood and three Reviews,	9 00
For Blackwood and the four Reviews,	10 00

Payments to be made in all cases in advance.

REDUCED POSTAGE.

The following table will show a great reduction which has been made on these Periodicals since 1844, and the very trifling rates now charged.

	Per ann.
Prior to 1845, the postage on Blackwood was	$2 40
" " " on a single Review	1 12
From 1845 to 1851, " on Blackwood	1 00
" " " on a Review	50
In 1851–52 (average rate) on Blackwood	75
" " " on a Review	38
The present postage on Blackwood, is	24
" " on a Review	12

(*The rates are now uniform for all distances within the United States.*)

At these rates we see no objection should be made to receiving the works by mail, and thus ensuring their speedy, safe, and regular delivery.

On Friday the first day of April,

at 12 o'clock, noon, the HILL LAND attached, at Cove Head, belonging to Messrs. JOHN and WILLIAM AULD, and formerly advertised for sale. For particulars and terms of sale, apply to Messrs. John and William Auld, the owners, or to the Subscriber, at his Office in Charlottetown.

JOSEPH HENSLEY.

ALSO.—At the SAME TIME and PLACE, *Sixty Acres* LEASEHOLD LAND, and the HOUSEHOLD FURNITURE of Mr. John Auld.

Charlottetown, March 16, 1853.

JUST RECEIVED,
Gleason's Pictorial Drawing Room Companion,
PUBLISHED AT BOSTON, MASS.

WILL commence on the 1st of January, 1853, a new Volume—being Volume IV—of this elegant illustrated Journal. It will appear with new type, new heading, and splendidly improved in every department, besides which, the price is to be greatly reduced. The publisher is resolved to commence the new year with a circulation of one hundred thousand, and, therefore, offers the most liberal inducements to clubs. Realizing the spirit of the age, the great improvement in the cheap literature, the constantly increasing intelligence of the people, the publisher, with this change of prices, will vastly improve his already splendidly illustrated journal. Especially will a great improvement be manifested in the engraving department, as well as in the literary character of the paper; so that the Pictorial shall appear in a style, not only to merit all the encouragement it has received from the public, but also to challenge increased respect for its enhanced excellence and perfection. In short, the whole paper will be far superior to anything ever yet offered to the public by the publisher. Contributing to the following list, which forms a part only of the regular contributors to the Pictorial, its high literary and leading editorial ability will be enhanced.

Mrs. Ann S. Stephens, Mrs. L. H. Sigourney, Mrs. Alice B. Neal, Miss Phebe Carey, Miss Alice Carey, Mrs. Emma Southworth, Mrs. Ann S. Wilbur, Mrs. R. P. Daughty, Mrs. C. A. Hayden, Mrs. R. T. Eldridge, Mrs. E. R. B. Waldo, Rev. H. Hastings Weld, Hon. Wm. Herbert, T. B. Read, T. S. Arthur, A. J. H. Duganne, Rev. Charles Wolcott, F. J. Dewey, Francis A. Durivage, Park Benjamin, Dr. J. J. C. Smith, Benj. Perley Poore, &c., &c.

The following are the terms of the paper:—One Subscriber, one year, $3.00; two subscribers, $5.00; four subscribers, $9.00; eight subscribers, $16.00. The paper will be for sale at all the periodical depots throughout the country, after the 1st of January, at 6 cents per copy.

☞ Any paper inserting the above editorially, with this paragraph, shall receive the Pictorial one year.

Subscriptions received at GEO. T. HASZARD'S Bookstore.

ST. NICHOLAS HOTEL.

Between Spring and Broome Streets, Broadway, NEW YORK.

TREADWELL, ACKER & Co., PROPRIETORS.

THIS magnificent MARBLE HOTEL, unequalled in architectural beauty, and in all the appliances that constitute a complete comfort and luxury, will be opened about the 1st December next, by the Subscribers. Centrally situated between the fashionable and business portions of the city, it presents unrivalled advantages, in point of locality. The edifice was erected for the lessees, Messrs. TREADWELL & ACKER, by D. H. Haight, Esq., and the interior arrangements as regards ventilation, &c., are on an entirely original plan. It is the design of the undersigned to render the ST. NICHOLAS in all respects a MODEL HOTEL of the very highest class, and to give it a reputation for its appointments which shall be known and appreciated throughout the civilized world.

Bliss's Compound Cod Liver Oil Candy.

THE first action of this candy is to soothe the organs of voice and finally to allay all pulmonary irritation. It certainly stands unrivalled as a remedy for all affections of the throat and chest, and while many other remedies for the same disease, it does not disagree with the stomach of the patient.—For sale by WM. R. WATSON.

APOTHECARIES' HALL.

The Old Established HOUSE, 1810.
CHARLOTTETOWN, JANUARY, 1853.

T. DESBRISAY & Co.
