FIDDLING AND DANCE WINNERS

Directors of the Summerside Boys' Club formed the fiddling and step-dancing contest held at Prince County Vocational School Wednesday night to raise funds for the club — a success". Some 500 old-time music enthusiasts turned out for the lively entertainment. Above are the winners of three of the four events on the program: Tousaint Arsenault, Summerside, winner of the fiddling contest; Leonard DeRaspe, Mt. Carmel (centre) top contestant in the step-dancing event for men 16 and over and young Paul Smith, Kinkora (right) first place finisher in the step-dancing event for boys and girls 15 and under.

Russia Moves To Get Hold In Algeria With Aid Offer

By ANDREW BOROWIEC

TUNIS (AP)—The Soviet Union, apparently disregarding its disappointments in Africa, may be moving to establish a major foothold on the continent's northern coast.

The new pledge of Soviet aid to Algeria, announced in Moscow, opens the door to an important Soviet penetration effort in North Africa.

At the same time, Premier Khrushchev and an impressive party of Soviet officials are en route to the United Arab Republic for a two-week visit. Their ship passed through Turkey's Bosporus Strait Thursday and steamed south toward Alexandria.

May 15, Khrushchev and President Gamal Abel Nasser will dedicate the Aswan Dam flood-control and power project being built with the help of Soviet funds and technicians.

It is too early to say whether the Soviet effort will bring permanent results. So far, Soviet aid and spending in half a dozen African countries have not brought results expected by Communist leaders.

STEEL PLANT PLANNED

The Algerian - Soviet agreement, the Soviet Union will build and equip a steel plant in Algeria, a petroleum institute and technical school as well as a textile school and two agricultural study centres. The centres will have Soviet teachers.

This aid is in addition to shipment of tractors, two air planes and a 19,000-ton tanker promised by the Soviet Union.

On the completion of the educational part of the program, the Soviet Union will become second after France in cultural influence in Algeria.

Some Western diplomats believe from Algeria, the Russians will attempt to exert more influence on the neighboring countries of Tunisia and Morocco.

The new Soviet aid announcement follows a triumphant visit to Moscow by Algeria's left leaning President Ahmed Ben Bella. It follows a period during which Algeria has been making increasing strides toward socialism and reduction of its economic dependence on France, its former ruler.

FRANCE IS MAIN SOURCE

However, France still remains Algeria's main source of aid and without it the country could not function.

The Soviet bloc moved into Algeria after Algeria's July 1962, Independence from France. The Russians at first adopted a cautious attitude.

A ban on the Communist Party in Algeria in the fall of 1962 kept the Soviet effort down. However, the growing orientation toward socialism, hostility to the United States and efforts to reduce French influence apparently prompted the Soviet Union to increase its activities in Algeria.

The Soviet Union has been active with money and technical assistance in Guinea, Mali and Ghana in West Africa, Somalia on the eastern side of the continent and in the U.A.R.

However, at this stage only Ghana follows the Soviet Union to any extent. Guinea and Mali although pledged to socialism are gradually revising their attitude.

WOMAN TO APPEAR

UNITED NATIONS (AP) — Mrs. Janet Jagan, wife of British Guiana's Prime Minister Cheddi Jagan, will appear Friday before the United Nations special committee on decolonization. British Guiana is seeking the committee's support for Jagan's demands for independence.

AMIS ORDERED TO PAY

LONDON (Reuters)—Kingsley Amis, author of Lucky Jim and other best-selling novels, was ordered Wednesday to pay costs of an undefended suit in a divorce court where he was named a co-respondent.

Program Seen Cutting Pulp Industry Costs

TORONTO (CP)—A complex, long - range program to cut production costs in the pulp and paper industry by as much as 25 per cent has been developed by DCF Systems Ltd., a subsidiary of de Havilland Aircraft of Canada Ltd. of Toronto.

The program, largely based on the use of computers, was developed on the firm's own initiative at a cost of $100,000, President L. D. Clarke said. The plan is based on tying together a number of new technological developments and on the integration of pulp and paper operations through computers.

The plan could be put into effect by a single company or by the entire industry, DCF said.

Main point of the program is a network of pipelines to carry wood chips out of the bush to the mills. Dr. Lincoln R. Thiesmeyer, president of the Pulp and Paper Institute said that if only 10 per cent of the industry adopted pipe lines, the annual saving would be $15,000,000.

The program also proposes that data collection systems feed daily reports on all operations, and that the entire system be linked through existing microwave and telephone networks.

New machines, such as rapid-cycle pulp digesters and miniature high - speed paper machines, would be used to replace present slower more costly equipment.

MURPHY MOVES OUT

HOLLYWOOD (AP) — Actor Audie Murphy has moved out of their home and wants a divorce, his wife said Wednesday. "I will abide by his wishes," Pamela Murphy told a reporter. Murphy, the most decorated soldier in the Second World War, is out of town. The couple has been married 13 years and has two children.
