45 Policies Issued On Potato Crop

"To date, 45 potato growers have taken advantage of this province's scheme of potato crop insurance," Agriculture Minister Andrew MacRae said yesterday.

"It is expected that there will be more policies issued shortly," he said, "as some applications are being processed through the banks."

The minister felt that crop insurance has gotten off to a good start in the province. "Saskatchewan," he said, "in its first year of crop insurance, had only about 100 policies taken out."

Mr. MacRae pointed out that crop insurance here has been well publicized through the press and radio and, as well, there has been door-to door selling by crop insurance agency representatives.

"Consequently," he said, "no grower can say that he didn't know such insurance was available."

Corn Surcharge Draws Comment

"Imposition of a five per cent surcharge on corn will not affect beef or dairy producers here but may have an effect on egg producers," Agriculture Minister Andrew MacRae said yesterday.

He was commenting on a warning by the Canadian Feed Manufacturers National Association to Prime Minister Diefenbaker that the surcharge will mean increased production costs.

"Corn is not used in livestock or dairy feeds," said Mr. MacRae, "but there is a percentage of corn in poultry feeds."

Weather Records For June Show It Was Cooler, Dryer

On the average, the month of June was slightly cooler and drier than usual, it was learned yesterday from Warren Burns official weather observer at the experimental farm.

The average temperature for the month was 57 degrees, compared with the 53 year average of 58.6, and last year's mean of 59.7, while rainfall amounted to 3.22 inches in comparison to 1961's 4.61.

The mean minimum temperature was 47.6, considerably lower than the 53 year average of 49.6, and the 1961 50.7 degree reading.

Tignish Area Housing Need To Be Probed

Representatives of the P.E.I. Senior Citizens Housing Corporation will meet in Tignish today with local clergymen and members of the school board in an effort to determine the need in the area for low-rental housing for the aged.

Welfare and Labor Minister Henry Wedge, corporation chairman, will be accompanied by C.R. McQuaid, corporation secretary; Rev. Mark Ferguson, Summerside and J.W. Don Campbell, MLA for the area.

A similar survey was made in Souris recently, but Mr. Wedge is awaiting further word from the area on the need of such housing. "It looks," he said, "as though the first units will be constructed in the Souris area, however."
