U.S. DOLLAR HOLDS OWN

British Treasury Officials Silent On U. S. Monetary Move.

By Frank H. King. Associated Press Staff Writer. (By Guardian's Special Wire) LONDON, Feb. 1.—The new United States "lightweight" dollar held its own in the world money market of London today and strengthened, after earlier uncertainty, to close unofficially at \$49 1/2 in relation to sterling.

Bullish Attitude

Persistent influences such as a growing bullish attitude on the London Stock Exchange regarding the American Recovery Programme, continued repatriation of United States funds, and the existence of a favorable American trade balance enforced the new dollar.

REFUSE TO GIVE PRIVATE INFORMATION

(C. P. by Guardian's Special Wire) OTTAWA, Feb. 1.—Hon. E. C. Matthews, Minister of National Revenue, declined, in the House of Commons this afternoon, to give information in respect to the declared values of merchandise imported during recent years by the T. Eaton Company, Ltd., the Robert Simpson Co., I. L., and the Hudson's Bay Company.

ITALY INCREASES EXPORTS OF RAYON PRODUCTS

Science has made vast changes in the production of various commodities not the least of which being the production of rayon or artificial silks, since the Industrial Department of the Canadian National Railways has had Japan for many years as dominant factor in the silk industry but with the development of rayon the whole structure of the industry was changed. Italy is the chief country to commence increased production of rayon.

THE BAPTIST CHURCH — The morning service will be broadcast by station CHCK. The Rev. A. C. Vincent, D. D., will speak on "The Parable of the Tares" being the third of a series on the Parables of our Lord. "The Christian Attitude toward Amusements" has been the general title of a series of sermons of very general interest. The final sermon of the series will be delivered Sunday evening, when Dr. Vincent speaks on "A Better Way" offering an interesting, constructive message. Sunday morning, Mrs. Vincent will sing Gounod's setting of "There is a Green Hill Far Away." In the evening, Matthew's "The Twilight Shadows Fall" and "Build thee more stately mansions, O my soul," will be sung.

PRESBYTERY P. E. ISLAND

The Presbytery of Prince Edward Island met in special session at 11 a. m. on Tuesday, Jan. 16th in Zion Church Hall, Charlottetown, and was opened in the form of the Moderator, Rev. G. Carlyle Webster.

Those present were: Rev. G. Carlyle Webster, Moderator, Rev. J. Hensley Skaver, Clerk, Rev. R. Moorhead Legate, D. D., Rev. J. A. Pritchard and Messrs. A. E. Morrison and A. A. McDonald, representative Elders.

The clerk stated that he had received a call from the congregation of Chatham and Newcastle, addressed to Rev. A. R. Gibson, Montague. The call was signed by 26 members from Chatham and 20 members from Newcastle and was concurred in by 4 adherents from Chatham and 17 adherents from Newcastle, and was accompanied with guarantee of stipend of \$1700.00 together with the use of the manse and four weeks holidays. It was moved, seconded and carried unanimously that the call be received and that Rev. Dr. Legate who had been requested to represent the Presbytery of Miramichi be heard in support of the call, as Dr. Legate had indicated in his address to the Court that he had received word from Mr. Gibson to the effect that he intended to accept the call. It was agreed that transmittion be granted to Mr. Gibson and that his credentials be sent on to the Presbytery of Miramichi. The Presbytery then adjourned to meet at the call of the Moderator and Clerk, of which public intimation was given and the meeting closed with the Benediction by the Moderator, Rev. G. Carlyle Webster. (Pastor's Please Copy)

Need of Investigation. There was need of an investigation to stop extravagant profits and low rates of pay, said Mr. Stewart and, at the same time, to determine how manufacturers were hiding behind tariff protection.

From his place in the front benches of the Liberals, Mr. Stewart definitely broke off relations with the United Farmers and Progressives in the corner of the House. "The Progressives need not fear 'contamination' from the Liberals, there would be no such intimate relations. He advised the Progressives, if they imagined their policies were successful and popular, to examine the record of the U. P. A. Government in Alberta. If you (the Progressives) are proud of that record, if you think they have been economical, if you think they have not put a burden on the taxpayers of Alberta too grievous to be borne, then I will take back everything I have said."

"Can you read the bottom line?" inquired the orator. "No, sir," said the negro customer. "These glasses will fix you so that you can read it."

The negro brightened up at this. He said, "An education and a pair of glasses all for one dollar, I never learned to read."

MEIGHEN ON PROBLEM OF UNEMPLOYMENT

(C. P. by Guardian's Special Wire) OTTAWA, Feb. 1.—Canada should study carefully and wisely a lot of the nations of this continent in order to overcome the serious conditions with which that country is faced, Mr. Hon. Arthur Meighen, declared in the Senate today. As Government leader in that chamber he was speaking on the address in reply to the Speech from the Throne. Canada was doing, he believed, the best it could to meet the unhappy situation in which it, along with the other countries in the world, found itself. Perhaps, with the exception of Italy, the Dominion was making as great progress as any.

However, Canada could not assume an exemplary position, never offering an interesting, constructive message. Sunday morning, Mrs. Vincent will sing Gounod's setting of "There is a Green Hill Far Away." In the evening, Matthew's "The Twilight Shadows Fall" and "Build thee more stately mansions, O my soul," will be sung.

Ordered To Hold Inquest

(C. P. by Guardian's Special Wire) FREDERICTON, N. B., Feb. 1.—Instructions were issued here today by R. P. Dwyer, K. C., Deputy Attorney-General, for New Brunswick to Dr. H. M. Gardiner, of Miramichi, Coroner for Queen's County, to preside at an inquest at Miramichi tonight in the death of Helen Cullen, a light-colored miner of Newcastle Bridge, victim of an accident which occurred yesterday.

There is no Coroner at Miramichi since the resignation of W. B. Wisely. Green died this morning at two o'clock in the hospital conducted at Miramichi by Dr. Fraser. An examination conducted by Dr. Gardiner and Dr. D. W. Buchanan of Miramichi revealed that death was evidently brought about by shock and asphyxiation, no broken bones or internal injuries were revealed.

HAD JAZZ MUSIC IN MEDICAL TIMES. LONDON, Feb. 2.—Composers of the 18th century, including King Henry VI, knew just as much about "jazz" music as the present generation does, in the opinion of E. A. Samson, 2, Hughes St., Haslemere, Surrey, a leading authority on medieval music.

Discussing the revival of interest in 100 year old music he said it is a mistake to think that Henry VI was a first class composer, just as years later Henry VIII, was.

U.S. Publishers Attack Newsprint Code

(A. P. by Guardian's Special Wire) WASHINGTON, Feb. 1.—An effort by the newsprint publishing industry of Canada and the United States to fix prices encountered opposition today from American publishers who left with National Recovery officials a virtual threat to go to court should it be approved.

The newsprint code authority asked for modification of the existing code to include an agreement tentatively negotiated with the Canadian mills, for holding the price at a basic \$41 a ton delivered, though maintaining even this price would not cover the actual cost of many mills on both sides of the border.

PARIS, Feb. 1.—The year 1934 will see a specialization in suits for women.

This practical certainty was predicted by a fashion which has just come on display. The expected throngs of buyers will go to work next week when the various modistes' calendars are jammed for day and night showings of their creations.

Suits shown by a new house here stressed the softer "Dressmaker" line, contrasting with the previous severe tailored suit. The new line has slightly longer jackets fitted with a navy wool lined bodice.

A chartreuse green wool model had a brown sequored-tin lighter a navy wool had a lighter blue linen blouse three inches longer than the jacket.

AGAINST GOLD AND NICKEL EXPORT

Labor Member Suggests Gov't Take a Monopoly On Industries.

(C. P. by Guardian's Special Wire) OTTAWA, Feb. 1.—The taking over of gold mining, a "public work for the general advantage of Canada," and Government monopoly of nickel to prevent exports for war munitions in Europe, were suggested by a member of the House of Commons today. They came from J. S. Woodsworth (Lab. Winnipeg North Central) in his speech on the debate on the address in reply to the Speech from the Throne.

Coined Gold. "Roosevelt is today taking over all coined gold supply," the Labor member declared, "and I should like to ask this question: Why should Canada continue to pay premiums for gold mined in Canada? It always has been a mystery to me."

Further, what is going to be the effect on gold in this country of the decision of the American Government to devalue the dollar? If the gold content of the American dollar is to be altered which is going to benefit in Canada—the same American corporations which all gold has been benefiting? If gold is so essential, why should not gold mining become a public work for the general advantage of Canada? He suggested several years ago that we should establish work camps for the unemployed and pay them decent wages, allowing the profits to go to the Government.

Nickel Question. From the gold industry, Mr. Woodsworth launched into a discussion of the nickel industry.

"Another industry that seems to have been prospering is nickel," he observed. "Undoubtedly a large proportion of the nickel mined in this country is destined ultimately for the manufacture of war munitions. I urge that anyone can seriously question that."

"We, Canada, very easily protect the private manufacture of armaments, but in this country we have almost a monopoly of nickel; and nickel is essential to the manufacture of armaments. Well then, if we are really serious in our wish for peace, why should we permit the unregulated export of nickel destined to build up armaments in Europe?"
