Former United States Senator Mason Takes Nuxated Iron

Pioneer in Pure Food and Drugs Legislation, Father of Rural Free Delivery System TO OBTAIN RENEWED STRENGTH, POWER AND ENDURANCE AFTER THE HARDEST FOUGHT POLITICAL CAMPAIGN OF HIS LIFE IN WHICH HE WAS ELECTED CONGRESSMAN FROM THE STATE OF ILLINOIS. THE RESULTS HE OBTAINED FROM TAKING NUXATED IRON WERE SO SURPRISING THAT

SENIATOR MASON NOW SAYS NUXATED IRON SHOULD BE MADE KNOWN TO EVERY NERVOUS, RUN-DOWN, ANAEMIC MAN, WOMAN AND CHILD.

OPINION OF DOCTOR HOWARD JAMES LATE OF THE MANHATTEN STATE HOSPITAL, OF NEW YORK AND FORMERLY ASSISTANT PHYSICIAN, BROOKLYN STATE HOSPITAL, WHO HAS PRESCRIBED AND THOROUGHLY TESTED NUXATED IRON IN HIS OWN PRIVATE PRACTICE.

WHAT SENATOR MASON SAYS: "I have often said I would never recommend medicine of any kind, I believe that the hardest political campaign of my life, without a chance for a vacation, I had been starting to court every morning with that horrible tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the pure food and drugs legislation, I was at first loath to try any advertised remedy, but after advising with one of my medical friends, I gave it a test. The results have been so beneficial in my own case I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now sixty-five years of age, and I feel that a remedy which will build up the strength and increase the power of endurance of a man of my age should be known to every nervous, run-down anaemic man woman and child."

Senator Mason's statement in regard to Nuxated Iron was shown to several physicians who were requested to give their opinion thereon. Dr. Howard James, late of the United States Public Health Service, said: "Senator Mason, is to be commended on handling out this statement on Nuxated Iron to give increased energy to thousands of men and women who need a strength and blood-build, but do not know what to take. There is nothing like organic iron—Nuxated Iron for public print. This strength, snap, vigor, and staying power. It enriches the blood, brings roses to the cheeks of women and an unflagging source of renewed vitality, endurance and power for men who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day."

Dr. King, a New York physician and author, said: "I heartily endorse Senator Mason's statement in regard to Nuxated Iron. There can be no nervous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale; the flesh flabby; the muscles lack tone; the brain fags and the memory fails, and often they become weak, nervous, irritable, dependent and melancholy. "In the most common foods of America, the starches, sugars, table breads, candies, polished rice white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. "Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. E. Sauer, a Boston physician who has studied abroad in great European medical institutions, said: "Senator Mason is right. As I have said a hundred times over, organic iron is the greatest of all strength builders. "Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with a blood pressure of a boy of twenty and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had filled him with renewed life. At thirty he was in bad health. At forty-six he was careworn and nearly all in—now at fifty, after taking nuxated iron, a miracle of vitality and his face beaming with the buoyancy of youth. Iron is absolutely necessary to enable

division apparently went astray for lack of precise orders, and, falling up on barbed wire, suffered terrible losses. Altogether the Allies are justified in high hopes.

BANGOR, Me., April 22.—The little town of Howland has two mysteries in its hands. The more serious case is that of Michael Nadeau, a French-Canadian, whose body was found floating in the river. He disappeared on the night of December 9 last. The other case is that of Bert Ayres, whose hat was picked up in the river. Ayres disappeared on the night of March 31, and it is probable that his body is in the water. It is the general theory that he fell into the river while walking home in the dark from a moving picture show at West End.

An examination of Nadeau's body disclosed two contusions on the head. There is a suspicion that Nadeau had a quarrel with some one and that he was killed in the fracas and his body thrown into the water. The Penobscot County Attorney, has been an investigation, and the medical examiner has performed an autopsy

your blood to change food into living tissue. Without it, (no matter how much or what you eat your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work on how far you can walk without being coming tired. Next, take two five-grain tablets of ordinary nuxated iron three times per day for two weeks. Then test your strength again, and see how much you have gained. I have seen dozens of nervous, run-down people who were alling all the while double their strength and endurance, and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or iron sulphate to try to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is almost not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray; while many another has gone down in inglorious defeat simply for the lack of iron."

NOTE—Nuxated iron which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as presented in this city by Geo. E. Hughes, Apothecaries' Hall; E. A. Foster, Central Drug Store; H. J. Mabon, Montague.

Former United States Senator Wm. E. Mason, recently elected Member of the U. S. Congress from Illinois.

From the Congressional Directory, published by the United States Government.—Wm. E. Mason, Senator from Illinois was elected to the 50th Congress in 1887, to the 51st Congress in 1891—defeated for the 52nd Congress 1892—Elected Senator to the 55th Congress 1897 to 1903.

Senator Mason is now Congressman from the state of Illinois. Senator Mason's championship of Pure Food and Drugs legislation, his fight for the rural free delivery system, and his strong advocacy of all bills favoring labor and the rights of the masses as against trusts and combines, made him a national figure at Washington and endeared him to the hearts of the working man and the great masses of people throughout the United States. Senator Mason has the distinction of being one of the really big men of the nation. His strong endorsement of Nuxated Iron must convince any intelligent thinking reader that it must be a preparation of very great merit and one which the Senator feels is bound to be of great value to the masses of people everywhere, otherwise he could not afford to lend his name to it, especially after his strong advocacy of pure food and drugs legislation.

Since Nuxated Iron has obtained such an enormous sale—over three million people using it annually—other iron preparations are often recommended as a substitute for it. The reader should remember that there is a vast difference between ordinary metallic iron and the organic iron contained in Nuxated Iron, therefore always insist on having Nuxated Iron as recommended by Dr. Howard James, late of the Manhattan State Hospital of New York and formerly assistant physician at Brooklyn State Hospital; Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York and other physicians. In this connection Dr. Howard James says: "Iron to be of the slightest value to the human system must be in a combination which may be easily assimilated. In the case of metallic salts of iron, iron acetate, etc., it is very doubtful if sufficient actual iron can be taken up and incorporated into the blood to be of any service, especially in view of the disadvantages entailed by its corrosive action upon the stomach and the damaging effect upon the dental enamel. When, however, we deal with iron in organic combination, such as for instance as aluminate, or, better still, Nuxated Iron, a far different story is told. We will observe no destructive action upon the teeth; no corrosive effect upon the stomach. The iron is readily assimilated into the blood and quickly makes its presence felt in increased vigor, snap and staying power."
