Pearson Urges Khrushchev To Press For Disarmament

By JAMES NELSON

OTTAWA (CP)—Prime Minister Pearson has written to Soviet Premier Khrushchev reminding him of Russia's severe Second World War losses and urging realistic action on general disarmament to promote world peace.

Mr. Pearson's letter is being regarded by veteran diplomats here as an attempt to point up the hard realities of the world situation and to soft-pedal the sweet talk which has been prompted by the Anglo-American-Russian limited nuclear test ban treaty.

The Prime Minister sent his letter to the Russian leader to mark the successful negotiation of the treaty in Moscow last week, and he made its full text public here after part of it was published by the Russian news agency Tass.

At the same time, Mr. Pearson wrote to Prime Minister Macmillan and President Kennedy, but the letters to the British and American leaders have not been made public. A source said they were messages of congratulation and hope for the future, but not couched in the same terms as the letter to Mr. Khrushchev.

The Prime Minister told Mr. Khrushchev that the agreement to ban nuclear testing in the atmosphere, in outer space, and underwater is "only the first of a series of steps which will be necessary to ensure truly peaceful relations among states."

MUST BROADEN PACT

The treaty will have to be broadened to stop underground tests, and "even an acceptable final agreement on the discontinuance of all nuclear weapons tests would itself be no more than a starting point," Mr. Pearson said.

Then, in language described by a diplomat here as attempting to bring everybody back to reality and using no accidental choice of words, Mr. Pearson told the Russian government chief:

"You, Mr. Chairman, will be fully aware that an enduring peace can be guaranteed only by a comprehensive and controlled reduction of armaments together with effective measures for the peaceful settlement of disputes.

"As head of government of a country, which has suffered so terribly in war, you will, I know, agree that the leaders of all countries have a solemn obligation to secure the realization of the goal of peace and security for their people.

"I earnestly hope that nothing will be permitted to obscure the critical importance of achieving such a goal in the months ahead."

A source in the Prime Minister's office said the decision to make public the full text of the letter resulted from Tass's reporting of only the first part of the Pearson letter. The second part, reminding Mr. Khrushchev of Russia's war losses and of the need for a comprehensive and—equally important—a controlled reduction of armaments, was not carried by Tass.

Some 500,000 tourists are expected in northwestern Ontario here,"

Brazilian Plant For Maritimes Is Suggested

HALIFAX (CP)—G. H. Lerman, Brazilian trade commissioner to Canada, said here he is "extremely interested" in promoting the idea of setting up a canning factory in the Maritimes to can Brazilian fruit and fruit juices.

Mr. Lirman said Brazil has an abundance of pineapples, oranges, lemons, grapefruit, grapes and peaches which it could send to the Maritimes.

"The reason why the Maritimes would be ideal for such a canning factory is, of course, the fact that you have ice-free and year - round navigation here," he said in an interview.
