VARIETIES.

WHAT IS A 'SNOB'?—Thackeray, in one of his lectures, said there were not as many *snobs* in this country as in his, but there were *some*. If the reader will follow us through his definition of a 'snob,' and then look round up the community, he will begin to suspect that the class is "large and respectable." Said Thackeray:

"A *snob* is that man or woman who are always pretending, before the world to be some thing better—especially richer or more fashionable than they are. It is one who thinks his own position in life contemptible, and is always yearning and striving to force himself into one above, without education or characteristics which belong to it; one who looks down upon, despises and over-rides his inferiors, even equals of his own standing, and is ever ready to worship, fawn upon and flatter a rich or titled man, not because he is a good man, a wise man, or a Christian man; but because he has the luck to be rich or consequential."

An eccentric individual in Gloucester, Massachusetts, has built a vessel, but having been informed' as he supposes, by the spirit of his deceased father, that he would not live six months after his vessel was launched, he immediately procured the assistance of several of his neighbors, loaded her on wheels, and with several yoke of oxen she was drawn into the river at low water, and placed upon blocks where she remained till high water, when she was afloat. She is named the Lyancha, and hails from "The Kingdom of God." She is believed to be the only vessel ever built that was not launched.

We know an honest blacksmith in this city who clears two dollars a day on an average, while one of his near neighbors is starving on his profession. A very miscellaneous thing is pride. We know a lady who, a dozen years ago, could not endure the thought of her sons, working at a trade. One of the young gents is now officiating in the capacity of quarter-master general to a strolling music-grinder, while the other is foreman of an institution for blacking boots.—*Cleveland True Democrat.*

CURIOUS DISCOVERY.—The *Corriere Mercantile* of Genoa quotes a letter of the 15th ult., mentioning the discovery at Pompeii of three human skeletons, evidently belonging to one family, together with that of a dog. The postures in which they were found lead to the presumption that they were engaged in flight at the time of the irruption, but were overtaken by the lava, the dog refusing to leave his master. They had bags of gold and silver coin with them; one of the skeletons still displaying rings and ornaments, was that of a young girl, probably the daughter of the fugitives.

MACAULAY'S HISTORY.—The third volume of "Macaulay's History" (according to a recent London letter in the *New York Tribune*) is to appear in a few weeks, the celebrated author having at last delivered his MS. to his publisher. His friends never believed that he would be able to finish it, as the excessive use of opium to which he is addicted, has destroyed his health.

"THE CRADLE OF OUR SAVIOUR."—The *Journal de Bruxelles* says, that the Pope has sent the Duke of Brabant a fragment of the wood of the manger which formed the *cradle* of our Saviour. When this precious relic was presented to his Royal Highness, he is said to have been much affected. The Duke is aged 18 years.

The population of Iceland is diminishing. The island once contained a population of 100,000; but now the number is 48,000. The poorer people suffer much from the severity of the climate, and from leprous diseases induced by the dirtiness of their habits, and the coarse, unwholesome food on which they subsist.

The Russians have a story of a widow who was so inconsolable for the loss of her husband, that she took another to keep her from fretting herself to death.

"How do you do, Mrs. Tome; have you heard that story about Mrs. Lundy?"

"Why, no, really, Mrs. Gab, what is it; do tell."

"Oh, I promised not to tell for the world. No, I must never tell it, I'm afraid it'll get out."

"Why, I'll never tell it as long as I live, just as true as the world—what is it? come tell."

"Now you promise my anything about it, will you?"

"No, I will never open my mouth about it, sacredly. Hope to die this minute."

"Well, if you believe me, Mrs. Fundy told me, last night, that Mrs. Trott told her that her sister's husband was sold, by a person who saw it, that Mrs. Trouble's oldest daughter told Mrs. Higgins that she heard Mrs. Putein tell Madam Blute, that a miller told her that BUSTLES were out of fashion.

AYER'S

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to overcome most dangerous affections of the lungs. Our agent here will not permit us to publish his proportion of the cures effected by its use; but we would present the following:—and refer further enquiry to my 'American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, 1853.

J. C. AYER. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was entirely, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the Fall of 1851, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours, commencing in the morning, and by ten o'clock at night, he was a good deal better for the better, and after three days use he was able to eat or drink without pain.

In use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt. Trans., L. R.

Rock Hill, (Sumpter Co.,) N. J., July 21, 1852.

Dr. J. C. AYER,—Since your medicine has become known here, it is a great demand when anyone is taken with a cough, I believe it is not an exaggeration in terms of unmeasured praise by those who have used it, and I spare no pains to let those who have, say on my of it, is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel grateful to be the means of doing good.

Please send me a further supply, and believe me

Yours, with respect,

JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. AYER. Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have been in the grave long before this, had it not, this cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours respectfully,

D. A. McCULLIN, Attorney at Law.

Wilkesbarre, Pa., September 28, 1850.

DR. J. C. AYER, My dear Sir.—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physicians. Yours, truly,

Yaw your friend,

BELLS! BELLS! BELLS!

THE Subscribers manufacture and have constantly on hand, all sizes of Church, Factory, Steamboat, Ferry, Locomotive, School House and Plantation Bells, with the *best* description of Hangings.

These Bells are made from the best stock, and the small sizes undergo the same process in manufacturing as the Bells from Bavaria. An experience of thirty years, with a great many recent improvements, and an unlimited new method of casting, enables us to obtain the most melodious tone, combining also, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded us for the "best bell for sonorousness and purity of tone." We pay particular attention to the getting up Peals or Chimes, and can refer to those furnished by us. Our establishment is contiguous to the Erie and Champlain Canals, and Railroads running in every direction, which brings us within four hours of New York. Cash paid for old Copper. Old Clocks, Levels, Compasses, Transits, Theodolites, &c., for sale, or exchange for new instruments. All communications, either by mail or otherwise will have immediate attention.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST—no rubbing required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes to which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for presently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLINS and LACES.

Astonishing efficacy of the Oxygenated Bitters,

IN A CASE OF FIFTEEN YEARS' STANDING.

From Fitzhenry Homer, Esq., of Boston, Mass.

BOSTON, Boston, September 25, 1848.

DEAR SIR,—It is now eighteen years since I was first troubled with the sick-headache and derangement of the stomach. I have taken advice of the best physicians in this city and New York; in London, Paris, Germany, and Italy, followed their prescriptions, and visited the several sulphur and other springs in this country, the watering places of Germany, and elsewhere in Europe, and not found no relief. Since taking the Bitters I feel like a new man. Of the Water-brash, which daily troubled me of late years to a very great degree. My appetite has returned, the uneasiness and distress of mind, the weight of the bowels, general debility, and sleepless nights until which I suffered, have entirely left me. Having found such relief from this most discouraging disease, I feel it my duty to make this public, that I may be the means of my friends, who are now suffering as I did, advantage. And I cannot refrain from writing to you in the language of gratitude, for the good you have bestowed upon the community, and trust that, what little is in my scope to offer in extending the circulation of your "Oxygenated Bitters," will be done with grateful pleasure at all times.

Yours very respectfully,

FITZHENRY HOMER.

The Wonder of the World!

Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA, COSTIVENESS AND CONSUMPTION have lost their terrors, and vanish as if by magic, before this sovereign remedy. Yes! ever before known that, *Hopeless cases of Consumption were cured for less than 50/ They, may indeed, truly be be proud,* and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
Some fade unseen, unsung, unwept, unprized."

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

"The prints of their parting steps appear,"

All we ask is this one question:—If you have any mucous membranes, or any other members of the body that are "Weak and Weary," why not introduce this *great remedy*, DEVINES' COMPOUND PITCH LOZENGE.

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD.

Copy of a Letter from Mr. John Lloyd, of Ewe-men, near Harlech, Merionethshire.

To Professor HOLLOWAY.

SIR,—I avail myself of the first opportunity of informing you, that for a very long period, I was afflicted with a dangerous giddiness and frequent swimmings in the head, attended by a loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming, that I was really afraid of going about without an attendant. In this melancholy condition, I waited personally upon Mr. Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your obedient Servant

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Mr. Edward Hoare, Esq., of Tobia Walk, Tobago, dated April 8th, 1852.

To Professor HOLLOWAY.

DEAR SIR—I deem it a duty I owe to you and the public at large to inform you of a most remarkable recovery from that dreadful disease, DROPSY, and which, under God, was effected by your invaluable Pills. I had been given up within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and was wonderfully all I had undergone, this miraculous medicine cured me in the space of six weeks. (Signed) EDWARD ROWLEY.

A DANGEROUS LIVER COMPLAINT AND SPASM IN THE STOMACH EFFECTUALLY CURED.

Copy of a Letter from Mr. Bostock, Druggist, of Milton under Lyme, dated July 21, 1852.

To Professor HOLLOWAY.

DEAR SIR—Have much pleasure in handing to you a testimonial of the efficacy of your Medicines. A person in this neighbourhood, with whom I am well acquainted, was affected for a long time with violent spasmodic pains in the stomach and liver, arising from frequent colds, smells of paint, and the effects of a sedentary occupation, which rendered his assistance in his business. The spasms were of an alarming character, and frequently left him in a weak and debilitated condition. He at length was heard of the salutary effects of your invaluable Pills, and was induced to give them a trial. The first dose gave him considerable relief, and by following them up in accordance with your directions, they have acted so effectually in cleansing the liver and stomach, and strengthening the digestive organs, that he has been restored to the enjoyment of good health.

I remain, dear Sir, yours faithfully,

(Signed) WILLIAM BOSTOCK.

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES.

Extract of a Letter from S. Gowen, Chemist, of Crediton, Devon, dated Feb. 14th, 1852.

To Professor HOLLOWAY.

DEAR SIR—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you, that for upwards of 20 years she had a family suffered from continual bad health, arising from disorders of the Liver and Stomach, Indigestion, loss of Appetite, violent Head-aches, pains in the side weakness and general debility, which had so prostrated the most eminent men in the colony, but without any beneficial result; at last, she had recourse to your invaluable Pills, which have acted so wonderfully in giving her a change for the better, that she continued them, and the whole family were restored to health and strength. Further she desires me to say, that she has witnessed their astonishing virtues in the most complaints incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with another family.

(Signed) S. GOWEN.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ages	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
Blotches on the skin	Female Irregularities	Lumbago
Bowel Complaints	Fevers	Piles
