French REVOLUTION

When you get a French chef to touch mass-produced, quick-frozen foods with a ten-foot spoon—that's a kitchen revolution. Yet some fifty quick-frozen Gallic delicacies are now being marketed by a French company of cooks.

We're glad to report that aluminum gets a Cordon Bleu from the gastronomes. They use it in conveyors, containers and kitchen equipment; and they use nothing else for packaging their products. They respect the way tasteless, odorless, moisture-proof aluminum respects their creations, keeping their freshness and delicacy of flavor till the magic moment when they reach the table.
