The finest acrobatic work ever seen in the City will be put on in the Big Arena Rink tonight. Trained dogs, trained cats, trained ponies and the unrivaled kicking mule. The biggest show in the City tonight. Everybody should see it.

It is a pleasure for The Guardian to announce that the welcome news of the safe arrival of the S. S. Amelia at the Magdalen Islands was reported last evening. The Amelia left Sauris on Monday night and some anxiety was beginning to be felt on her account.

Owing to the enormous amount of time and expense necessary in bookkeeping and making out small accounts as well as mailing and collecting same, The Guardian has decided that in future all ordinary amounts under one dollar will be accepted in a cash in advance basis and ten per cent discount given, except to those who have a regular advertising account, who will still have the privilege of monthly credit.

Football games have been arranged by the P. E. Island Football League as follows:—

 Victoria v. St. Dunstan's College.
 Victoria vs Abegweit.
 Abegweit vs St. Dunstan's College Thanksgiving Day.
 Victoria vs St. Dunstan's College.
 Victoria vs Abegweit.
 The dates of the other games will be published later.

The Quarterly meeting of the Charlottetown Board of Trade last night was one of the most interesting that the Board has had for some time. The secretary read a report of the work which had come before the Council since the last meeting of the Board, and the president called upon H. H. Mr. Huggan for his report of the meeting of the Maritime Board of Trade. Mr. Huggan's report was replete with information, and he considered that the conference of the Island Boards of Trade held this city last March had been instrumental in doing a great amount of good. No longer can it be said that we do not know what we want, nor that we are divided in our opinions as to what we want for Island delegates worked by every resolution passed at the conference, with the result that they were adopted by the Maritime Board. Hon. A. B. Warburton brought before the Board a matter of very great interest to this Province, and which will engage the attention of a special committee. The Dairy and Cop report issued by the Minister of Agriculture, Hon. Mr. Reid, was considered by all present a move in the right direction, and a resolution asking that it be continued and enlarged was passed. The following gentlemen were elected members.—Messrs Edwin Atkin, J. W. Ryan, Wm. Pearson, Fred Robins, P. Bourke, C. Whitlock, R. L. Cotton, Harry Winchester, and W. A. Winfield.

Advertisers will kindly bear in mind that The Guardian cannot undertake to insert in following issue any "changes" of ads received after one o'clock each afternoon.

Rev. T. F. Fullerton, of Charlottetown preached very acceptably to good congregations in St. John's Presbyterian church Moncton, Sunday. His sermon "The Gospel of Success," was an especially timely topic.

More than twelve hundred people were in attendance at the Arena last night and witnessed the best performance of its kind ever presented to the citizens of Charlottetown. For the benefit of those who could not be present the entertainment will be repeated this evening.

W. J. Martin who has been for ten years with Cliff Wood & Co., and twelve years with Martin Bros., has opened up a produce depot at Cliff's Cove, St. John's, Newfoundland, and is prepared to receive all kinds of Prince Edward Island produce on consignment. His ad appears elsewhere in this issue.

At the Police Court yesterday the case of Emmanuel Gallant was heard. J. J. Johnston appeared for the defendant. This case was one of considerable interest, being the first one tried under the search clause since the Prohibition Act was amended. In this case the bartender was arrested when the search was made. Officer Taylor testified to seeing Gallant break the bottles, and throw them down the chute. There were also broken bottles found on and under the counter, the contents of which, when analysed showed 5.24 per cent of alcohol. The defendant went on the stand and testified that his name was Wilfred Cosgrove, and that he belonged to Wellington—that his name was not Gallant as he had told the policeman when he was arrested. He claimed that he was selling a light beer, and that George Bessy's son removed the bottles as they were empty. The Magistrate held that the evidence was sufficient and convicted Cosgrove, imposing a penalty of \$10 or three months. Jas. Conway, trunk was fined \$5.

Water Main Supplying it Burst Yesterday Causing Loss of Thousands.

HALIFAX, Oct. 8.—Operations throughout the plant of the Dominion Steel Co. were suspended this afternoon at five o'clock by the bursting of its main supplying the industry with water. The 24 inch main which has caused the trouble is the only one leading to the pumping station, the source of the company's water supply its going out of commission has seriously interfered with the working of the plant and will entail a loss of thousands of dollars. The break occurred below the bed of Wentworth Creek near Morrison's bridge, Argyle street.

The company have special connections with the city mains to provide for just such an emergency. Unfortunately, however, this connection is beyond the locality of the accident today and the plant is consequently without water tonight except the little it can obtain from hydrants in the vicinity of the works. It is said that when the break occurred this afternoon the greatest difficulty was experienced at the coke ovens in saving the boilers, which at the time were most inadequately supplied with water. The work of repairing the damaged main is being pushed tonight with all possible speed by a large gang of workmen and the officials hope to have the plant in active operation again by tomorrow morning at at five o'clock.

Retinoscopic Eye Examination

The cut accurately shows this method in operation. It is probably, the most reliable test known today. By its use the expert optician accurately measures the amount and kind of error in the patient's eyes, completely removing the uncertainty of the old system, and reducing to a minimum, the possibility of prescribing the wrong lenses.

We use this System

and rely on its readings, almost entirely; The results in past years have been remarkably satisfactory, and if you are in need of Glasses you cannot do better than allow us to examine your eyes.
