N. Y. Stocks

NEW YORK (AP)—The stock market started higher Tuesday but weakened later and closed irregularly lower.

Railroads were just about the only area of strength in the list, and most of that was confined to a few key issues.

Lower were motors, steels, aircrafts and chemicals.

Railroads had estimates of good earnings to back their climb and at the same time their plan for a seven-per-cent freight rate increase gained momentum in Washington.

Automobiles were confronted with the prediction by the president of American Motors that the industry's production next year would be 15 per cent under this year, the widest drop yet forecast.

The Associated Press average of 60 stocks was up 10 cents at $179.80 with a gain of 70 cents in the railroad component providing the push. Industrials dropped back 30 cents and utilities remained unchanged.

Canadian issues were mixed. McIntyre was off 1 point, International Nickel and Hiram Walker fell fractions. Canadian Pacific was up ⅜ and Dome Mines and Distillers Seagram both remained unchanged.

On the American stock exchange Lake Shore gained ⅛, Giant Yellowknife slipped ⅜ and Royalite Oil remained unchanged.

Toronto Stocks

Chibougamau area issues were popular in the mines section. New Royran climbed 27 cents to $2.89. Copper Cliff was up 40 at $3.90. Other strong issues, with gains ranging to about 30 cents included Central Patricia, Chimo, Coldstream, Merrill Island and Consolidated Sudbury. In the seniors, Noranda added $1.50. Steep Rock traded briskly for a half-point advance to a new high of 16⅝. Temagami was one of the few losers, slipping 25 cents to $2.50.

Hollinger again headed the upward golds, gaining $1 at 23.

Uraniums moved ahead in narrow-range trading. Beaucage gained 15 at $2.85.

Calgary and Edmonton continued to roll ahead in the western oil section, tacking on ⅜ at a new high of 23. Several issues posted advances in the 15-20-cent bracket. Canadian Williston dropped 55 cents to $2.60.

Canadian Army Training Own Light Plane Pilots

RIVERS, Man. (CP)—A nucleus of a proposed army air force is quietly training soldiers as pilots at this joint services air training centre.

A large number of personnel have been trained to fly fixed wing light aircraft and 20 servicemen have graduated as helicopter pilots since the light aircraft school opened.

At an Ottawa press conference recently Lt.-Gen. Howard Graham, chief of general staff, said the army will recommend to the government within six months a plan for creation of its own air force.

FOR SHORT FLIGHTS

Lt.-Gen. Graham said the army wants planes and helicopters to move troops and supplies over short distances but it has no intention of entering into competition with the RCAF.

The army's school here consists of three instructors—two from the army and one from the air force. Each class has been made up of four air force and two army students. Most of the army pilots are from the service corps.

Students taking the six-weeks helicopter course already have their light aircraft wings and at least 300 hours' flying experience.
