### THE RAILWAY AND TUNNEL VOTES.

It is neither to be expected nor denied that those who discuss public questions shall always agree in their opinions. What is to be expected is that the newspaper organs of opposing parties shall view many questions from precisely opposite standpoints and shall reach quite opposite conclusions. And such party discussion has its uses in this way that such readers as peruse both Liberal and Conservative press opinions have the opportunity of knowing what can be said both for and against any important public measure or line of policy.

It is sufficiently obvious that the viewpoint of an independent journal must be a different one from that of any journal wholly committed to the support of one party and of opposition to another party. The treatment of public questions in an independent way necessarily involves a conflict of opinion from time to time with the advocates of one party or the other, or with both. But the public are benefitted and kept the more fully informed, and public opinion is formed on juster lines where all shades of thought and judgment find free expression in the press of the day.

What we had to say the other day in regard to the proposed vote of \$35,000 for a Tunnel survey has quite naturally been criticised in a section of the Liberal press. That the vote for this purpose has been long delayed is admitted. That it is somewhat inadequate was our candid opinion. That we might fairly ask the Government to state its intention to construct the work should the result of the survey be such as to warrant its construction, is we think an entirely reasonable conclusion. We desire to give the Government full credit for the vote proposed and for an honest intention to make the proposed survey. And we strongly hope that the Government will see the propriety of taking the people into their confidence and winning their favor by making such a reasonable statement of its intentions.

With regard to the vote proposed for the construction of branch railways to New London and from O'Leary to West Point, The Guardian is much pleased to see that these

### THE NOVA SCOTIA ELECTIONS.

The Liberal Government of Nova Scotia has dissolved the Legislature and is making a leisurely appeal to the people of the Province with much apparent confidence. Five weeks will elapse between the dissolution on May 10 and the polling on June 14. It will be seen from this that no attempt is to be made to secure a snap verdict. Ample time will be given for the full discussion of all the questions at issue.

The Liberal Government came into office in Nova Scotia in August 1882, and in the nearly 29 years since has had but three leaders—Hon. W. T. Pipes, 1882-84, Hon. W. S. Fielding, 1884-96 and Hon. George Murray since the latter date. It has been very ably led. The provincial revenues have been in the meantime vastly increased and the royalties on coal and other minerals have proved a rich and increasing source of revenue to the Province.

Nova Scotia has been favored in several ways by the federal Government, notably in the millions that have been paid in bounties on iron and steel, also in railway expenditures and in steamship subsidies. Just before the dissolution has come the vote of four millions for new railways and extensions, all of which tend to strengthen the provincial Government in its present appeal to the country.

It is to be noted also that the Murray Government has been progressive, has responded to the demands of the temperance people by giving somewhat advanced temperance legislation, and has been continuously supported by very large majorities in the Legislature in recent years down to the date of the dissolution. Thus, after a term of power, almost unprecedented in duration, it goes to the country with every apparent indication of strength, and doubtless confident of victory. The local Opposition has been strangely weak for years past, and lacks a leader of force and initiative.

Premier Murray, although his Government has been always in line with the Liberal Government at Ottawa, does not wait to follow in the wake of a Dominion election, although

### BLOOD PURIFIES ITSELF

Everybody knows that running water purifies itself with the oxygen it gets from the air, but many do not know that the same is true of the blood in the body. If the blood contains enough iron it is deep red and can take up large amounts of oxygen through the lungs and thus keep itself pure. It is not necessary to take potash and sarsaparilla. To keep your blood pure, keep it full of iron by taking Vinol, our delicious cod liver and iron tonic. This is the best thing for pale, weak, run-down people we ever sold. It is simply astonishing how it gives new strength and vitality. Try it on our recommendation, and if it does not do all we say, you get your money back. Let Vinol make you strong. E. A. Foster, Central Druggist.

works are now to be undertaken. We say this without expressing any opinion for the moment upon the route chosen for the New London branch. That is a subject in regard to which there is much difference of opinion, and it is complicated with engineering difficulties in regard to one or other of the routes heretofore contemplated and discussed. The people of the New London district have long been desirous of and entitled to a railway outlet and it is a source of general satisfaction that they are now in the way of seeing their hopes fulfilled.

With regard to the question of whether the total vote for railway and transportation improvements is generous, adequate, or unduly small, there are several points to be considered. And there are wide differences of opinion. It is to be observed that this year the vast sum of 155 millions is proposed to be expended throughout the Dominion. That is about twelve times the expenditure of the Dominion in the first year, 1868. It is much more than three times the gross expenditure of 1896. Surely these are matters to be taken into account in estimating our fair share of the public moneys to be expended this year.

Railways are being built by the Government and other roads have been subsidised by the Government on a vast scale in the other Provinces. Nova Scotia, which has both Government and company railways, is now receiving four millions in grants for railway purposes in the supplementary estimates alone. Prince Edward Island has no company railways and consequently never has and cannot now receive anything on account of railway subsidies. This calls for greater generosity than has been shown by the Government in improving and extending the Government Railway system we have. We think it also makes the Tunnel project a more imperative and reasonable one than it was in the past years of more limited national expenditure. We certainly have no desire to discredit the Government's intentions in that regard. Our one desire is to promote that great work by setting forth the claims of the Province thereto and encouraging the Government to take it up.

That is believed to be near. The fact is that his Government is probably stronger in popular favor in Nova Scotia than is the federal Government. He therefore chooses to lead rather than follow, in making his appeal to the people. Doubtless, too, there is a shrewd impression that a local Government victory may prepare the way and strengthen the party in the federal election which is to come later.

After ten years of Farmers' Institutes in this Province—institutes for men—an advance is to be made by the foundation of Women's Institutes, two for each county to begin with. Hon. Mr. Richards is to be commended for introducing this interesting and progressive feature in the agricultural life of the Province.

The Opposition press claim to have discovered a cabinet crisis at Ottawa. Their report is that Hon. Mr. Fielding is opposed to any adjournment of Parliament until the reciprocity agreement is put through; but Sir Wilfrid Laurier is determined upon an adjournment, and that if this policy is carried out Mr. Fielding's immediate resignation may be looked for. All of which seems very unlikely at this distance.

The active fighting between the rebel forces and the Government troops in Mexico is in the extreme north of the Mexican Republic, on the banks of the Rio Grande, which river forms the boundary between the State of Chihuahua in Mexico and New Mexico in the United States. The town of Juarez, captured by the rebels, has about 10,000 inhabitants. It is called Ciudad Juarez on most maps. On the opposite, or United States side of the river is the smaller town of El Paso, from which many of the war despatches are dated. Little is known of what is doing, or how the opposing forces are making headway in the interior of Mexico.

The Ottawa Journal, Independent Conservative, which had hitherto supported the reciprocity agreement, has turned against it on the ground that President Taft's recent utterance to the effect that the United States should go in for reciprocity in order to head off any arrangement for preferential trade within the British Empire. This has angered the Journal, which exclaims "What does the President take us for? For dolts?" &c., &c. No doubt the promoters of the agreement regret that the President, in his zeal to induce his own people to accept reciprocity used language which is by no means calculated to persuade the people of Canada to a like course. The President's speech was not intended especially for Canadian readers, and unwittingly he has given the opponents of reciprocity on this side of the line an advantage.

## ZAM-BUK CURES PILES

Read What Those Who Have Proved It Say.

Mr. Thomas Pearson, of Prince Albert, Sask., writes:—"I must thank you for the benefit I received from Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it and after using three or four boxes I am pleased to say that it has effected a complete cure."

Mr. G. A. Dufréne, of 183-185 St. Joseph Street, St. Roch, Quebec, P.Q., writes:—"I can highly recommend Zam-Buk to everyone who suffers from piles. I have also found it most effective in curing a sore thumb with which my little son was suffering. The thumb had begun to swell and fester and had lost the nail. I persevered in the application of Zam-Buk and the sore is now entirely healed."

Not only for piles, but for inflamed sores, ulcers, eczema, ringworm, boils, eruptions, scalp sores, itch, children's sore heads, old wounds, etc., Zam-Buk is without equal as a healer, and also for cuts, burns, stiffness and wherever and whenever a handy balm is called for. All druggists and stores at 50c. box. Zam-Buk Soap will be found as supplied amongst medicinal and toilet soaps as the balm is amongst salves. Mothers should use it for baby's bath. 25c. tablet, all druggists and stores, or post free from Zam-Buk Co., Toronto.

Robert Rhynes, now of Dunstaffnage, formerly of Aberdeen, Scotland, has written the Commissioner of Agriculture expressing his appreciation of the kindness he has received from the Department and from Rev. Mr. Winfield, and his thankfulness that he was induced to settle in Prince Edward Island. He is most satisfactorily placed, likes his farm, the community and his neighbors, and will do what he can to induce others to come to this Province. Such a letter is the best answer to the occasional complaints of sundry chronic kickers and grumblers.

### ROCKLAND PASTOR AND WIFE CELEBRATE 20th WEDDING ANNIVERSARY.

Rev. Robert Sutcliffe and wife, formerly of this city, celebrated their wedding anniversary in Cottage Grove, Oregon, Friday, Jan. 13. From the report which appeared in the Cottage Grove Leader we quote the following:

The membership of the Methodist Episcopal church of which Mr. Sutcliffe is pastor and a number of outside friends planned a most delightful celebration of this happy anniversary. In the presence of a very large number of the members of the church, at the hour of 9 o'clock to the strains of the wedding march Rev. and Mrs. Sutcliffe entered the hall, flower girls strewing the way with flowers and the party halted under a great bell where was pledged anew by Sutcliffe and wife, the vows to which they assented just a score of years previously, the pretty and impressive ring ceremony being conducted by the district superintendent of the Methodist church, Dr. J. T. Abbott, of Eugene. At the conclusion of the ceremony, Supt. Abbott delivered the brief, but eloquent address appropriate to the occasion, reviewing the twenty years of useful, happy married life of Rev. and Mrs. Sutcliffe, congratulating and wishing them many happy returns of the day.

At the conclusion of the presentation of the gifts, flowers, a beautiful hand painted chocolate set and other equally as handsome pieces of china ware, the presentation address being delivered in a charming manner by Mrs. F. D. Wheeler, who responded in his ever graceful and pleasing manner, but was noticeably affected by the great hospitality, cordiality and fervent esteem manifested on the part of his congregation and friends for himself and wife. He responded in a most hearty and cordial manner. Then in conclusion came the excellent luncheon, daintily and refreshingly, which was served in a most charming manner by the ladies of the church. Mr. and Mrs. Sutcliffe referred to above have many friends in this city. Mrs. Sutcliffe is a sister to Mrs. Geo. H. Cook, Fitzroy Street.

The Opposition press claim to have discovered a cabinet crisis at Ottawa. Their report is that Hon. Mr. Fielding is opposed to any adjournment of Parliament until the reciprocity agreement is put through; but Sir Wilfrid Laurier is determined upon an adjournment, and that if this policy is carried out Mr. Fielding's immediate resignation may be looked for. All of which seems very unlikely at this distance.

The active fighting between the rebel forces and the Government troops in Mexico is in the extreme north of the Mexican Republic, on the banks of the Rio Grande, which river forms the boundary between the State of Chihuahua in Mexico and New Mexico in the United States. The town of Juarez, captured by the rebels, has about 10,000 inhabitants. It is called Ciudad Juarez on most maps. On the opposite, or United States side of the river is the smaller town of El Paso, from which many of the war despatches are dated. Little is known of what is doing, or how the opposing forces are making headway in the interior of Mexico.

The Ottawa Journal, Independent Conservative, which had hitherto supported the reciprocity agreement, has turned against it on the ground that President Taft's recent utterance to the effect that the United States should go in for reciprocity in order to head off any arrangement for preferential trade within the British Empire. This has angered the Journal, which exclaims "What does the President take us for? For dolts?" &c., &c. No doubt the promoters of the agreement regret that the President, in his zeal to induce his own people to accept reciprocity used language which is by no means calculated to persuade the people of Canada to a like course. The President's speech was not intended especially for Canadian readers, and unwittingly he has given the opponents of reciprocity on this side of the line an advantage.

### TERRIBLE ACT OF JEALOUS MAN

BOSTON, May 11.—In a jealous rage Geo. Matthews shot and fatally wounded his wife last night in the kitchen of their apartments. He then shot himself. The bullet pierced his brain and he died immediately.

### SALVIA HAIR TONIC

An Ideal Hair Dressing  
SALVIA HAIR TONIC is compounded on the most scientific principles and nothing on the market today can compare with it. It accomplishes so much more than the ordinary tonics and does it so quickly that users are astonished. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind Bleeding or Protruding Piles in 6 to 14 days or money refunded, 50c.

### OBITUARY.

The death occurred on Friday morning, April 28th, at Murray Harbor, P. E. I., of Reuben Ernest Sencaubaugh, eldest son and fourth child of Mark and Mrs. Sencaubaugh, aged nineteen years three months and twenty days.

Deceased had been in good health until a very short time previous to his death. He came home one day apparently as well as usual and three hours later was taken ill. Pneumonia developed and in spite of all that medical skill and loving care could do, on the eighth day, the Heavenly Messenger, summoned his spirit from this world of sorrow and care into that realm of eternal joy and bliss, from which none ever returns.

His early death is rendered very sad, it being the first break in a family of eight, and being so suddenly called from active life, in the strength and bloom of early manhood. He was a young man of sterling qualities, and was loved and very popular, with all who knew him, especially with the young folk, as well as among their elders. He was a member of Luther Lodge L.O.L., Prince Albert, I. O. G. T., and also of the Court of the I. O. O. F. of Murray Harbor.

The funeral took place on Sunday April 30th at two o'clock, when a large concourse of people assembled to pay their last respects to the departed, and all that was mortal of this estimable and dearly loved young man, was laid away to rest in the cemetery at Murray Harbor, to await the final resurrection at the last day. He leaves to mourn the loss of a loving son and brother, besides his grief-stricken parents, six sisters, Mary J. (Mrs. J. Hanford), Pictou, N. S.; Hattie (Mrs. H. J. Hunt), Fredericton, N. B.; Ada, Medford, Mass.; Avelina, Cecilia and Edna; also one brother Percival; all at home, besides a large circle of relatives and friends to all of whom sincere sympathy is extended. The bearers consisted of two Orangemen, two Foresters, and two members of the Temperance Lodge, of which he was a member. The funeral procession consisted of sixty carriages and more than one hundred pedestrians. "The Lord gave, and the Lord hath taken away; blessed be the name of the Lord." :—Doctors always speak well of our drug store. They know that we give every attention to the drug and prescription departments and do not neglect any factor that makes for their success. If your doctor does not direct his prescriptions here kindly ask him to do so. You will find us prompt, careful and obliging. The MacKinnon Drug Co., D. A. McKinnon, H. L. Bethune, Cor. Gt. Geo. & Kt. Sts., drtf.

We sold more Millinery at our Millinery opening than we ever sold before. Because it exemplified the styles of the season without being extreme—and the individual touches for each person appealed to everyone. Get your spring hat here.—Prowse Bros Ltd. 4 18dtt.
