

In this Modern New Plant

MARCONI

has perfected Radio

3* Different Ways

FOR over thirty years Marconi engineers have amazed the world with repeated achievements in wireless. Now the same men who have made the name Marconi famous in wireless have turned their attention to Radio Receiving Sets.

A Dominion-wide investigation determined three essentials Canadians wanted in radio. Then, in accordance with known facts and public demand, Marconi perfected its radios 3 different ways: in tone, in appearance and in selectivity.

Three different groups of outstanding Canadian authorities—musicians, interior decorators and scientists—have now tested Marconi's contributions to radio (1) NATURAL tone quality (2) MODERN cabinet beauty and (3) CLEAN CUT sensitive-selectivity—AND EACH GROUP HAS UNRESERVEDLY APPROVED the New Marconi!

See, hear, and test the new Marconi Radio tonight at your nearest Marconi Dealer's Store.

Here are the 3* Different Ways MARCONI has Perfected Radio

Dynamic Speakers mean True Tone

1 TONE—Marvelous... natural... specially designed speaker and amplifier give perfect one quality... Tested and approved by such outstanding Canadian artists and musicians as Dr. Ernest MacMillan, Dr. Herbert Austin Fricker, Madame Jeanne Dussau, Boris Hambourg, Stanley Gardner and George Brewer.

Correct Design means True Beauty

2 APPEARANCE—Beautiful... absolutely correct, modern design... judged and approved by such outstanding interior decorators and social leaders as Mrs. Minerva Elliot, Miss Martha Allan, Dr. A. E. Whitehead, Mr. Adjutor Savard, Mr. J. Herbert Hodgins and Dr. Augustin Frigon.

Matched Coils Keener Sensitivity

3 SENSITIVE-SELECTIVITY—Amazingly keen and accurate on both far and near stations. Tested and approved by world-famous radio engineers... A set that requires no artificial tone adjustment yet one that will bring in stations you never hoped to get.

Here are the New MARCONI Radio Sets... Perfected 3* Different Ways
