THE DELICATE GIRL
What Mothers Should Do as Their Daughters Approach Womanhood

If growing girls are to become well developed, healthy women, their health must be carefully guarded. Mothers should not ignore their unsettled moods or the various troubles that tell of approaching womanhood. It is an important time of life. Where pallor, headache, backache or other signs of anaemia are evident you must provide the sufferer with the surest means of making new blood. Remember, pale bloodless girls need plenty of nourishment, plenty of sleep, and regular open-air exercise. But to eat the bloodless sufferer she must have new blood—and nothing meets the case so well as Dr. Williams' Pink Pills. These pills increase the supply of new, red blood; they stimulate the appetite and relieve the weary back and limbs; thus they restore health and charm, and bring to anaemic girls the rosy cheeks and bright eyes of strong, happy girlhood. You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brock, N. Y., U. S. A.

THE S. S. LOVAT of the Lovat Steamship Co. will be sailing from Charlottetown every Wednesday for Souris and Magdalen Island Ports. For further particulars apply Carvell Bros. Agents, 3596-8-16-4.

N. S. Premier Not Impressed

(Canadian Press)

HALIFAX, N. S. Aug. 15.—Premier Armstrong was not much impressed with the British House of Commons, according to a statement which he made this afternoon in addressing the Commercial Club, since being his first public speech since returning from Great Britain. He said the British House was very different from the Canadian and United States Parliaments. Some members here grumble about cumulative duties. Over there, said the Premier, they sit in a House as we do in our street cars, a great majority having no desks. One speaker said there was no attempt at oratory in the British House. This he considered an advantage as he did not like so much "Hot Air."

Notes By The Way

(Continued from Page 4)

In the meantime local Liberal missionaries are regaling small and sleepy rural audiences with long and thrice-told fairy stories of a balanced budget, a federal surplus and reduced taxation of which they have dreamed and a standardised railway to be completed before the snow flies, which they have seen in a vision. Dull and intangible as it all is, when the speaker has ended his prosing some good party men who had been lulled to sleep by sound and waked by silence, feebly stamp their approval on the floor. Thus both the soles and bodies of his hearers assure the speaker of their joy that he has finished.

Canada has great natural resources, a splendid geographical position fronting on two oceans, an industrious and thrifty population, and is first and foremost among the British Dominions. Yet six years after the war she is a laggard standing alone at the rear of all the English speaking peoples—Britain, Australia, United States, New Zealand—they paying their debts, Canada still borrowing and borrowing and adding to her liabilities. Why is this? If there is any other answer to the question than that she has a mongrel, incompetent and extravagant Government let the Liberal "missionaries" tell us what it is!

CANADIAN NATIONAL RAILWAYS EARNINGS

The gross earnings of the Canadian National Railways for the week ending August 7, 1924 were \$4,008,501.00 being a decrease of \$721,107.51 over the corresponding week of 1923. The gross earnings of the Canadian National Railways from Jan. 1 to Aug. 7, 1924 have been \$138,857,729.00 being a decrease of \$2,441,107.51 as compared with the corresponding period of 1923.

Mrs. Smith, who are spending their holidays this year in the Maritime Provinces. They are stopping at the Y. W. C. A.

Miss Margaret Bagnall of Auckland, New Zealand, has been visiting in Halifax, for a few weeks and incidentally to meet her niece Miss Eva Bagnall, also of Auckland, who arrived yesterday. These much travelled visitors will return to Charlottetown tonight and will be the guests of Miss Williams 229 Sidney Street.

Mr. and Mrs. L. Davis and Miss Marjery Davies are returning today to New Jersey, after a most enjoyable two weeks, in which time they visited many interesting spots throughout the Garden Province.

The engagement of Miss Grace Messervy to Mr. Bruce Marr of Dorchester, Ont., is being pleasantly discussed by her friends among whom she is a favorite.

Rev. Mr. and Mrs. Mitchell of Summerside, returned Thursday evening by the Hochelaga from a holiday visit to Nova Scotia. They left yesterday afternoon for their home in Summerside.

Mr. and Mrs. C. Frederick Paul of Toronto, are now in Souris enjoying a few days among the beauty spots of Eastern Kings.

The social event of the summer was the pleasantly arranged dance given on Thursday evening by Mr. and Mrs. George DeBlois at their beautiful summer home at Tracadie, when the youth and beauty of the city and many visitors from the summer hotels were invited to while away the hours happily in mirth and music.

Mr. C. G. Mussel and daughters Misses Constance and Clair Mussel who have been holidaying here and at Chester, N. S., are now at Cascade House, Metis Beach.

Interest is growing in the new Golf course at Beach Grove Inn and some good records are being made over the course. This afternoon a tournament is being arranged in which many visitors will take part.

Blue collars and blue blood evidently go together in England. "The Prince of Wales looked very boyish in a brown tweed suit and wearing a blue collar," says an item in an English paper. Another paper says: "The older Mr. Asquith becomes the more youthfully does he dress. Yesterday he appeared in a brown suit of smart cut, wearing a blue soft collar." It is not certain whether it is the blue collar or the brown suit that gives the youthful appearance. Those wishing to look youthful in Charlottetown had better be on the safe side by trying both.

Mr. J. C. McKeen is spending a holiday with his mother in Halifax.

The Misses Mathieson and Miss Ruth Hartz will preside at the tea hour at the Tennis Courts this afternoon. On Wednesday the club had quite a number of visitors from the mainland, and although the honors on the courts went to the home teams the visitors were being pleasantly entertained and enjoyed their visit. Dainty refreshments were served before they returned to the city.

Dr. George A. Warburton of Victoria, B. C., is home on a visit of several weeks.

Miss Katherine McLeod is spending a pleasant holiday among friends in Summerside.

Fall colors will be dull for afternoon and daytime wear, featuring black, browns, and navy blues. Tete de nigre will be a popular shade. More brilliant shades that have been sponsored are shutter green, Venetian fushia, burnt russet and lip-stick red.

Suits will have seven-eighths length coats in almost all instances and frocks worn beneath them will be straight-lined and unbelled. There is a tendency towards the flare at the bottom of the frock such as the circular flounce which begins below the knees and extends around the skirt. Tailored suits are looked upon rather dubiously and will not be as popular as they have been. Suits show a tendency towards elaboration of trim.

The gown and long coat combination will be very popular, in which case the gown is straight-lined and of the same material as the coat. Buttons are used in numbers on many of the frocks, but do not ap-

Doctor Admits Slayers Lied During Tests
CHICAGO, Aug. 15.—When the afternoon session of the Loeb-Leopold hearing opened State's Attorney Crowe pounded away at Dr. Hulbert in an effort to show that some of the fantastic "childhood dreams" told of the boys by defense attorneys were conceived for the purpose of settling up a defense.
"Couldn't some smart doctor or some smart lawyer have put the idea of the king-slave into Leopold's mind for the purpose of building a defense?" Crowe asked. "No I don't think so. I think that was one of Leopold's childhood fantasies," the witness replied.
Dr. Hulbert admitted that the two youths lied to him on certain points but said he believed all the essentials they told him.
Reading from Dr. Hulbert's written report of his examination, Crowe asked the witness if it were not true that Loeb kept from the doctor certain phases of his criminal career "either because I considered it inadvisable, or because I had been advised not to?"
"Yes, sir," Dr. Hulbert replied.
Loeb admitted he would have some facts either because he thought them inadvisable, or because he had been advised to.
Well doesn't that indicate that "bathing beauties" of so many automobile attorneys or some shrew doctor bids these days.
Commissioner Griffin, in a new set of instructions, just issued to his inspectors, frowns upon the presence of windshields of "posters that obstruct the view," and declares that they must be removed.
But the "bathing beauties" are not the only things objectionable to the commissioner. For he also earns his inspectors to watch out for "crowding parties" on front seats, drivers who proceed with one foot resting on the hand brake or windshield support, operators of trucks, whose rear view is obstructed, and the well known "one armed driver with the two armed girl."
Number plates must be kept clean and in plain sight, also, and baggage must not be fastened on cars in such a way as to endanger other cars in passing.
