BULLET PROOF JET OF WATER

PARIS, Feb. 8.—A factory in Grenoble, France, utilizes the water reservoir situated in the mountains at a height of two hundred yards. The water reaches the factory through a vertical tube of the same length, with a diameter of considerably less than an inch, the jet being used to move a turbine. Experiments have shown that the strongest man cannot cut the jet with the best tempered sword; and in some instances the blade has been broken into fragments without deflecting a drop of water, and with as much violence as a pane of glass may be shattered by a blow from an iron bar. It has been calculated that a jet of water a small fraction of an inch in thickness, moving with sufficient velocity, could not be cut by a rifle bullet.

The engineers of some big water power projects of the Far West, are willing to wager that a 200-pound man, swinging a 4-pound axe with all his might, cannot make a "dent" in the water as it emerges from the nozzle at the power house. Burying an axe in a stream of water looks like child's play, and the average 200-pound visitor is likely to "bite." He invariably loses. So great is the velocity of the water emerging from the nozzle in these modern power plants than an axe, no matter how keen its edge, is whirled from the hands of the axeman as soon as it touches the water.

The water travels under a pressure exceeding five hundred pounds to the square inch in many instances, and never once turns it off. At the nozzle, once it gains momentum, it has the same effect on one's fingers as a rough emery wheel, and will shave a plank with a piece of a razor-edged plane.

REV. R. W. NORWOOD WON OVER BY "DRY'S"

LONDON, Ont., Feb. 8.—Rev. R. W. Norwood, rector of the Bishop Cronyn Memorial Anglican Church, who has always stoutly opposed temperance movements, of one kind, has signed the "Dry Ontario" petition and announced himself as a convert to prohibition. By way of explanation Rev. Mr. Norwood, who is one of the outstanding Anglican clergymen of the diocese of Huron, and formerly of Montreal, stated among other things that the fact that so many victims of the liquor traffic themselves are signing the petition, convinced him that he would be doing wrong in putting any stone in their path. (Rev. Mr. Norwood is well known in Halifax; also of Spring Hill.)

THE MUTUAL LIFE ASSURANCE COMPANY OF WATERLOO, ONT. Four things stand out prominently in connection with the statement issued by The Mutual Life of Canada for the year 1915, and each of these several features is conducive to good dividends for the policyholders of the Company. Large profits in a Mutual Company, mean more insurance for a smaller outlay, because the dividends may be used to reduce the premium or increase the amount of the policy. The four points in the statement of The Mutual Life of Canada that favor high dividends are First, the Surplus that has been earned—Second, the Stability of the business or the low lapse rate—Third, the increase in the rate of interest earned and Fourth, the lower ratio of expenditure to income. The Surplus Earned:—Although there was an additional outgo through death claims arising out of the war, the surplus earned during the year amounts to the splendid sum of \$1,168,210.20, being an increase of slightly over 10 per cent. on the earnings of the preceding year. The Increase in Business: There are several notable features in connection with the insurance statement. The business has increased in the preceding year by over half a million dollars; while the policies not accepted have decreased by \$267,000. The Expense Ratio and Interest Rate: There are two items in the statement well calculated to give satisfaction to friends of The Mutual of Canada. The ratio of expense to income has noticeably fallen, viz., from 17.00 per cent. to 16.39 per cent. This affords sufficient evidence that the revenue is being well maintained and that the expenses are being kept down to the minimum. The character of the investments held by the Company was such that the effect of the war has been to increase rather than to diminish the rate of interest, earned and thus to swell the revenue as will be seen by the financial report elsewhere.

Lieut. Coderre Sentenced to Death LONDON, Feb. 5.—Lieut. Georges Coderre, of the Canadian expeditionary force, was sentenced to death today at Winchester on the charge of having murdered Sergt. Ozanne, of his regiment. LONDON, Feb. 6.—Immediate steps will be taken in the endeavor to obtain a reprieve for ex-Lieut. Coderre, of the 41st Battalion. The jury's verdict of guilty in the trial for murder came as a surprise to the lawyers and witnesses for the defence who state that the judge's summing up, although impartial, left room for a verdict in accordance with the line taken by the defence. Colonel Rioux of Sherbrooke, will confer tomorrow with Sir Charles Russel, counsel for the defence, regarding the preparation of the petition for reprieve. Ex-Lieut. Coderre's wife was not present in the court room at the trial being ill in London. The breaking of the news of the verdict on Saturday threw her into a state of hysteria. At the inquest, held in December, on the body of Sergeant Ozanne, Coderre's victim, a peculiar omen was noted. Coderre, sat in the village hall directly under a stout rope used to adjust the roof windows, and its sinister suggestion, as it swung above the suspect, was so noticeable that the officials hastily ordered its removal. The prisoner was stripped of his uniform recently, at the same time signing his resignation from the service. In court he wore hospital garb, having been under treatment for asthma.

WOUNDED SOLDIER LOSES MEMORY OF WAR TRIALS MONTREAL, Feb. 9.—A remarkable case of a soldier losing all memory of the war as a result of a wound in the head was brought to the attention of the Society of Physicians and Surgeons in Vienna by Dr. Hermann Schlesinger. A thirty-six-year-old infantryman received a wound in the forehead last July while fighting on the eastern frontier. The wound was treated and was soon healed. Strangely enough, while the soldier is mentally sound and can read, write and talk as formerly, he has lost all recollection of the war. He cannot remember being called to the colors or participating in any fighting. He seems amazed to think there is a war and learns all about it. When the doctors tell him how he was wounded and where he shakes his head dubiously. He was also shown his name in the German papers of several months ago, in which he was reported wounded, but even that does not convince him. He is also very much surprised that many of his friends are missing. In lecturing on the subject Dr. Schlesinger refers to the case as "retrograde amnesia," and is hopeful that with rest and continued good treatment the soldier's memory of the events of his life since the beginning of the war will be entirely restored. AGAINST OBOLUTION OF LIQUOR STORES REGINA, Sask., Feb. 8.—Following an all-night debate the Saskatchewan legislature, by a party vote of 35 to 3, voted down the request of the opposition that liquor stores in the province be abolished.

FIRE AT EDMONTON EDMONTON, Alb., Feb. 8.—The three story plant of the Emery Manufacturing Company, engaged in the manufacture of overalls, dresses, etc., was destroyed by fire last night. The loss is 100,000. Seventy-five girls are thrown out of employment. The cause of the fire is unknown.
