MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, July 16—From a stock market viewpoint there is nothing in the general news this morning which would help the market but despite this we would look for a generally weak week end market. The far eastern situation seems to have gotten no better, in fact this morning there are reports of further armed conflict. The price of gold in London is slightly lower. Toward the close last night steel stocks, primarily U. S. Steel, were the leaders in the market and we would expect leadership to continue. As we mentioned before other groups which act well are the oils, farm implements, mail orders, credit company stocks and electrical equipments. A view of the news yesterday which probably had some effect on railroad stocks was that only 13 railroads in the U. S. would have reported a net income of 1936 if present labor wage demands had been in effect.

TORONTO, July 16—Mosher Long Lac—A total of 18 diamond drill holes on the property of Mosher has indicated length of around 750 feet states Murdock Mosher, President. Drilling up to about two weeks ago seemed to indicate Mosher ore was dipping off into adjoining Elmos property but more recent drilling causes belief that this is not the case. Officials have not considered further definite plans beyond present drilling.

Powell Rouyn—Shareholders at special general meeting approved necessary by laws transferring the assets of the company to a new company of the same name incorporated under Quebec laws. At the meeting the chairman stated that to date a total of 1,270 feet of ore has been exposed on 500 foot level averaging 8.8 feet wide with an average grade of .181 ounce gold per ton, or about $6 grade.

Kirkland Lake Gold—Reports profit of $293,331 but before depreciation in first six months 1937. Profit by quarters was $132,234 and $161,097 respectively. Improvement was made in the second quarter when mill grade handled increased to $16.63 average.

Howey Gold—Reports operating profit of $83,500 for three months ended June 30, 1937. In the quarter there were handled 132,811 tons average $2 per ton for mill production of $266,000 as compared with $2.19 per ton for production of $287,792 in first quarter last year. In the second quarter costs were pushed to a new low record of $1.38 per ton hoisted. For six months the total tonnage hauled was slightly less than half the estimated 568,000 tons broken at the year end.

MONTREAL, July 16—Int. Petroleum June production up 5.3 per cent over June 1936. Beer sales in Ontario for six months 12.28 per cent ahead of corresponding 1936 period. Honey Dew Ltd. seven months ended May profit $2,000 as compared to loss $29,000 for same period last year.

B. C. Nickel Mines—If contract secured with Japanese interests 500 ton concentrator will be built.

Canadian Hydro Electric and Gatineau plan—Special meeting July 15 large majority of preferred shareholders in favor reorganization plan. Redemption price of new Gatineau preferred raised to $110 per share.

Canadian Exports—For first quarter ended June $272.5 million up nearly 24 per cent over like 1936 quarter. Collections of tariffs excise duties and taxes up 27 per cent and income tax collections 23 per cent ahead for the three months.

Canadian Wheat—Crop for three prairie provinces estimated by Minister of Agriculture 150,000,000 bushels, an all time low.

Gypsum Lime and Alabastine—Results of voting at special meeting yesterday will not be known until July 22.

Sou. Can Power—June gross up 11.4 per cent and net up 12 per cent over June 1936. For nine months ended June gross up 7 per cent and net 6.4 per cent ahead of like 1936 period.

TORONTO, July 16—With reference to Brazilian gold agreement. While the amount is not large when compared with U. S. holdings it is a straw in the wind indicating a gradual better distribution of world gold holdings.

General Comment—This week witnessed definite improvement in the outlook of general business. It is now possible that the moderate gain over 1936 may be maintained throughout the balance of the year says the Financial Post. News from security markets has been more encouraging. Observers are beginning to feel that the recent prolonged bear movement is ending.

NEW YORK, July 16—Loading revenue freight week ended June 19th 682,205 cars a decrease of 123,963 cars from previous week. 42,072 below same week last year, but an increase 116,073 over the like week 1935.

Currencies

MONTREAL, July 16 — (CP) — Pound sterling advanced 7-16 cent on Montreal foreign exchanges today to 4.98 1-32. The French franc dropped 1-16 cent to 3.83 cents while the United States dollar was off 1-32 at 1-32 premium.

NEW YORK, July 16—(AP)—A heavy decline in government bonds on the Paris bourse brought a sharp break in the French franc today. The franc closed off .05 1-4 from yesterday at 3.82 3-4.

The pound sterling at $4.97 3-8 was slightly strengthened, up 1-16 of a cent, indicating a flight of French francs into that currency. The Canadian dollar was unchanged at .99 13-16.

CROP REPORT

WINNIPEG, July 16 — Weather conditions during the past week have been more favorable. Very considerable moisture has been received over the greater part of the grain growing region and is considered of intestimable value for the feed and pasture situation. Some portions of southern Saskatchewan will have no commercial crop but the feed situation has improved a little. In other districts crop can still be classed as fair with late grains benefiting mostly by recent rains. Rains were heaviest in the Edmonton territory of Alberta and general over a large part of the province. No serious damage from other sources is reported, according to the weekly crop report of the Department of Agriculture, Canadian National Railways.

All grains are doing well in Manitoba. Slight appearance of rust in some parts of the Portage Brandon Division is reported but is not serious as yet. Wheat is headed out and appears well filled. Other grains are doing well. The hay crop is reported heavy and no serious damage from hoppers or any other source to date. Additional moisture would be beneficial in the Dauphin-Swan River territory. Although most welcome rains were received in the Regina Division they were too late to affect the commercial crop but were of inestimable value for feed and pasture. Livestock is being shipped out of some areas on this division but conditions generally are a little more hopeful than a week ago. Good rains occurred over the western part of the Saskatoon Division with a total of one to three inches being reported from various districts. Some fair yields may be expected from summer fallowed land but stubble and spring ploughing have suffered badly and crops from land of this kind will be light. Some rust has made its appearance but it is difficult to say at this time to what extent the crop will be damaged. The Prince Albert Division has received heavy rains in the most northerly part of the territory. Crops in easterly and northerly district can still be classed as fair. Some hail damage is reported from points adjacent to Prince Albert, Shwalbure, Spruce Lake, Frenchman Butte and Paradischill. Grasshoppers are reported active in the westerly part of the territory. While stand will be short in most districts it is expected grain will fill out well provided further rains are received. Recent general rains in Alberta have improved conditions in the Calgary Division but the wheat crop will be only about 50 per cent. yield according to the present outlook. Average height of wheat is low and where headed out heads are small. In Central Alberta crop conditions vary considerably, estimates running from as low as five to as high as fifty bushels. Great credit for improvement was effected by the recent heavy rains. In the Peace River territory crop conditions are much improved over the last report. Grain is well headed out and in fairly good condition.

MINING

TORONTO, July 16 — Summer lethargy weighed heavily on the Toronto stock market today as little interest stirred in any section.

Chief weakness in the yellow metal group was again in the secondary and junior issues. Lake Shore held unchanged, McIntyre closed up 1-4 and Dome dropped a point. Fairly active traders to drift down a few cents each included Kerr-Addison, Macassa, MacKenzie, Moneta, Paymaster, Perron, Pickle Crow, Preston, Read-Authier, Siscoe, Slave Lake, Stadacona and Sylvanite.

Base metals lagged with losses showing throughout the group at the close but the adjustments were of little importance. In the silvers trade was slow and prices steady.

In the junior oils the close was slightly stronger for Home, Pacalta and Homestead. Vulcan lost 5 cents.

Livestock

Live stock market reports from Montreal for the week ending July 14th, indicate a continuing rise in practically all quotations on live stock of quality and merit. Good to choice cattle were in demand; steers ranged from $4.00 to $8.00, with a general average of $8.00 for good stock; heifers ranged from $4.00 to $6.50 with an odd sale up to $7.00.

Calves:—Good calves were steady at $7.25 to $7.50 with choice up to $8.00; common veals were from $4.50 to $5.50 with mediums ranging from $5.75 to $5.60.

Lambs:—Lambs were strong at $9.50 with some lots selling at $10.00. These quotations indicated an increase of fifty cents to one dollar over last week's price. Toronto markets show a similar or even stronger price increase.

Maritime hog buyers showed a decidedly lazy reaction to the higher market trends in Upper Canada. The spread in price on rail grade, carcass weight, between here and there being unusually wide; sufficiently so to permit of through routing to the stockyards.

Price tendency in lamb markets lead us to believe there should be no undue haste in selling, especially lambs under the choice weights—70 to 90 pounds. Farmers should get the most reliable information possible before promising their live stock at any price.

Finance

NEW YORK, July 16 — (AP)— Foreign exchange mixed. Great Britain demand 4.97 3-8, 4.96 9-16, 4.97 3-8; 60-day bills $4.95 5-8; France demand 3.82 3-4; Italy 5.26 1-4; Belgium 16.84; Germany 40.23; Canada .99 13-16.
