DOROTHY DIX SAYS—

Beauty Only Skin Deep

Plain Girls Can Develop Personality And Mentality to Attract

One of the most tragic things in the world is the tears that plain girls shed over not being Miss America...

They think that the doors of opportunity are shut in their faces; that they will never have a date, or a good job, or get married...

Now, of course, every woman would like to have a peaches-and-cream complexion and be a Powers model...

As a matter of fact, there is nothing that girls overvalue more than they do beauty. It isn't half as potent as they think it is.

The homely girl can substitute a lot of attractions for the lack of beauty. Brains, for instance, she can make herself so intelligent...

Except for the movies and the dress and millinery trade, a girl's face isn't her fortune when it comes to getting a job.

So, ugly ducklings, cheer up. Don't worry about your looks. If you make yourselves interesting and lovable, people will think you are beautiful whether you are or not.
