UNFATHOMED PIT UNDER TEN HOMES

By British United States
LONDON, July 8. A road subsidence which created a hole, about 50 feet across and of unknown depth threatens ten homes in Kingsfield-road, Bushey Herts.
Hundreds of tons of earth from the roadway and gardens of two of the houses have collapsed, and although 350 tons of earth were emptied into the crater, the pit was then found to be 70 or more feet deep.
And still it continues to suck in more earth from underneath the houses and the roadway.
There is, apparently, a huge hole somewhere inside the hill over which Kingsfield-road runs, and thunderous reports can be heard each time the earth slips.
Gangs of workmen are engaged in a feverish attempt to cut away more of the roadway, and thus help to fill the pit and save the two houses.
An explanation of the mystery of the subsidence was given by Mr. J. Allen Howe, of the Geological Survey.
"The subsidence" he said, "is due to the action of underground streams. The funnel down which all this earth is going probably extends 200 feet into the earth, and it would be impractical, or at any rate a very long job, to attempt to fill it."

MALPEQUE

Mr. Melville and Miss Clara Donald, Mrs. James Donald, Miss Mrs. Nelson Ramsay and Miss Sophie Ramsay, Alberton, motored to Charlottetown on Thursday.
Mr. and Mrs. Percy Tanton of Summerside and their daughter, Miss Vera of Toronto were the guests of Mrs. Donald, Baltic.
Rev. D. M. Grant, Mr. and Mrs. Thomas MacNutt, Mrs. Leslie D. MacNutt and Mrs. James A. Campbell were visitors to Charlottetown last week.
Rev. Scott Fulton, of Zion Church Charlottetown, gave a most interesting lecture to a large and appreciative audience on Thursday evening June 7th in Malpeque Hall. Rev. Mr. Williamson presided. Professor Thompson, the organist of Zion Church was also present and gave two instrumental selections which were really enjoyed. At the close of the lecture a vote of thanks moved by Mr. Frank MacNutt, seconded by Mr. Robert Crafer was tendered to the lecturer by the chairman.
The following is the scholarships and prize list of Fanning School, Malpeque:
Scholarship—Mary Burns
Grade X—Gregor MacNutt;
Grade IX—Edith MacNutt;
Grade VII—Louise Burns;
Grade VI—Ruth Montgomery;
Mr. James Murphy, Principal.
Grade V (Sr.)—Barbara MacNutt;
Grade IV—Lois Ramsay;
Grade III (Sr.)—Grace Bearisto;
Grade III (Gr.)—Lorne Owen;
Grade II—Enid Ramsay;
Grade I (Sr.)—Mary Stewart;
Grade I (Gr.)—Francis Bearisto.
Perfect attendance, Leslie Abbott and Roy Abbott.
Miss Marjorie Peake, Primary teacher.

Mrs. Charles Harvey returned to her home in Craipud after a weeks visit with her sister Mrs. Vernon MacDougall.

Mrs. Charles Stewart and little daughter of Montreal, are the guests of Mrs. H. A. Stewart, Hamilton.

Rev. James A. Ramsay, Mrs. Ramsay and three sons of Moncton are spending their holiday in Hamilton.

Mr. and Mrs. Stanford Gay, Summerside, were visitors to Malpeque on Wednesday.

Miss Maude Donald Sea View, is spending a few days with her sister, Mrs. Ralph Ramsay.

Mr. C. E. MacNutt and Mrs. E. H. Ramsay, Ch'town, motored to Malpeque on Tuesday.

Miss MacKenzie, daughter of Mr. Arch MacKenzie, Kensington, has taken a position as stenographer in the store of Peter MacNutt and son.

Mrs. Robert Stewart left on Monday, for a visit to friends in Kensington and Tyne Valley.

The annual examination of Millview School took place on Thursday afternoon, June 30, and was very well attended by parents and visitors.

The pupils were examined in the various subjects by their teacher, Miss Gertrude Villot, assisted by Mr. and Mrs. Charles MacKenzie, and showed by their ready answers that they had been carefully trained during the last three years.

After the examination the teachers presented Public School Certificates to the following pupils: E. Margaret Smith, Myrtle MacEachern, and Edna Taylor, and was in turn presented with two lovely pieces of French Ivory from the pupils. Prizes for department were also given to the following children: Myrtle MacEachern, Edna Taylor, Lois Smith, Kathryn Sheidow, Elinor Jenkins, Kitchen Smith, Rose Grant, Ruth Sheidow, Alberta Storey, Venie Smith, Elmer Darke, Walter Grant and Rita Grant.

All were then treated to home-made candy, and after complimentary remarks had been made by some of those present, the National Anthem was sung, and thus a pleasant afternoon ended.

The opening of the United Church Hall, Souris, celebrated on Wednesday, July 6th, by an entertainment, the programme being prepared by the members of the Busy Bee Club. Mrs. J. F. Sterns acted as Chairman for the evening. The programme consisted of: Chorus by the group—"There's Music in the Air"; Reading—"Goosey Lucy makes Calls" by Laleah Roop; Pantomime—"Six Little Grandma's"; Dialogue—"Not Quite a Bargain" by Helen Roach and Blanche Green; Duet—"I'm Going to tell my Ma on You" by Doris MacDonald and Laleah Roop; Paroel Drill—by eight girls; Recitation—"Sister's Best Feller" by Doris MacDonald. Motion Song—"We've got the Mumps" by twelve girls; Recitation—"Big" by Carolyn Loring; Intermission—Sale of Candy; Snowball Dance—six girls; Trio—"Won't you come out and Play?" by Ethel Green, Bernice Horne and Ella Poole; Solo—"My First Music Lesson" by Emily Poole; Recitation—"The Frolics Little Bonnet" by Adele MacLean; Tamlurine Drill—by group (12 girls); Remarks by Chairman; Chorus—"Good-night". Following remarks by chairman an address was read to Doris Lockhart, (who was about to take her departure), by Doris MacDonald, President of the Busy Bee Club, and presentation made by Emily Poole, Doris MacDonald thanked the people for their kind attention and good order, also Mr. Sterns for acting as chairman, and the managers of St. Mary's Hall, who so kindly loaned the chairs for the evening. The Busy Bees extend their greatest thanks to Mr. Roach for the loan of the piano. —(S)

The half-yearly examination of Alma School took place in the school-house on Thursday, June 30th at 1 o'clock p. m. There were about thirty-six visitors present to witness the examination. The pupils were examined in the different subjects by the teacher, who was assisted by Mr. W. L. McLean, a teacher of great prominence but who has now retired from the profession. The children showed by their answers they had been carefully instructed by their teacher. After the public examination a well prepared programme was carried out: Mr. Neil Vandierstine was appointed chairman. The following is an outline of the programme given:
Chorus—"O Canada" by the chil-

dren, assisted by Mrs. Fred Johnston; Recitation—"The Athabasca Trail" by Archibald Johnston Chorus—"The Island Hymn" by the pupils; An Essay on Confederation" by John Johnston; Address by W. L. McLean; Chorus—"The Maple Leaf" by the pupils; Recitation—"The Maple" by Rhoda McLeod; Chorus—"My Native Canada" by the pupils; Recitation—"A Song of Canada" by Irene Reid; Vocal Solo by William Farrell entitled "The Call to Arms"; Recitation—"A Canadian Camping Song" by Sandra Johnston; Recitation—"Canada" by Dora Reid; Vocal Solo—"The Red Scarf" by William Farrell; Recitation—"The Children's Song" by Vivian Vandierstine; Recitation—"The Maple" by Carl Vandierstine; Recitation—"Canada's Diamond Jubilee" by Rolston Johnston; Recitation—"The Canadian Boat Song" by Elmer Johnston; Recitation—"Our Country" by Carl Johnston; Recitation—"A Speech" by Basil McLeod; The distribution of medals to the children; Remarks by the visitors, namely: Mr. W. L. McLean; Mr. William Farrell; Mrs. Fred Johnston; Mrs. Sam Leese; Mr. Neil Vandierstine, and others who all spoke in the highest terms of the programme and the progress of the school generally. A vote of thanks was tendered to the teacher for the way in which he prepared the children for the programme. A vote of thanks was also tendered to Mr. W. L. McLean for his able speech on Confederation, also a vote of thanks to Mr. William Farrell for his assistance as Organist, and a vote of thanks to the chairman for his able and impartial conduct in the chair.
The pupils also presented the teacher with a well filled purse and an address:
The address is as follows:
Alma School District
Souris, P. E. I.
Dear Teacher:—As the time is at hand for the completion of this year's school work, we wish to thank you for the profitable and pleasant time as pupils under your care and tuition. No doubt we have at times tried your patience, but you have at all times been kind and firm. Please accept this gift as a token of our esteem.
From the pupils of Alma School.
This address was read by Miss Irene Reid and the purse presented by Miss Rhoda McLeod.
In addition to the foregoing programme, selection were given on the violin by Mr. William Farrell, noted organist and violin player, and needless to say this was interspersed with step-dancing by Rhoda McLeod, Irene Reid and Mr. Neil Vandierstine.
Special mention must be made here in praise of the Women's Institute of Peter's Road who take an active interest in the school, and who prepared cake, candy, and oranges, etc., for the children.
The examination was brought to a close by the singing of the National Anthem.
(Patriot please copy.)

MURRAY RIVER
Honor Roll Murray River School for school year ending June 30, 1927:
Grade IX—1 Clara Cook 2 Helen Principal's Dept:
Gosbee 3 Marion McKenzie.
Grade VII—1 Hilda Brehaut and Katherine Hallingshurst (equal) 3 Bert McLeod.
Grade VI—1 Fern Keenan 2 Nellie Duttony 3 Rita Lerguson.
Miss Giddings' Dept:
Grade VI—1 Anne McLeod 2 Constance Beck 3 John Gosbee.
Grade V—1 John Reynolds 2 Lowell Reynolds 3 Harry McKenzie.
Grade IV—1 Ruby Reynolds 2 Hazel Beck 3 Flossie Hooper.
Grade III (a)—1 Melrod Hallingshurst 2 Clara Johnston 3 Anna Munn.
Mr. Buell's Dept:
Grade III (b)—1 Hammond Dewar 2 Marguerite Buell 3 Patricia Murphy and Ella Buchanan 4 Russell McPherson.
Grade 2 (a)—1 Charles Duttony 2 Mary Irving 3 Roy Reynolds 4 May MacLeod.
Grade II (b)—1 Ethel McLean 2 Agnes McKenzie 3 George Gosbee 4 Alex. Reynolds.
Grade I (a)—1 Elbert Nicolle 2 Elwood Beck 3 Clarence Reynolds, John Herring.
Grade I (b)—1 Audrey Keenan 2 Catherine Duttony 3 Isabelle Feltnate 4 Vernetta Keenan.
Grade I (c)—1 Laird Hooper 2 Earl Alley 3 George Reynolds 4 John Porter.
Students who received Public School Certificates: Hilda Hooper, Claire Brehaut, Katherine Hallingshurst, Marion McKenzie, Bert McLeod.
Rebecca Cook, Principal.

Bank Executives
In Conference
(Special to the Guardian)
NEW YORK, July 9.—Conferences are being held by the executives of four of the largest central banks in the world, Wall Street bankers are of the belief that two important conclusions will be reached. First an agreement or understanding of some kind regarding the flow of gold among financial capitals of the world and second a credit of \$200,000,000 to the bank of Poland to be participated in by the New York Federal Reserve Bank and the European Banks of issue.

Why Dairying Pays

(By J. A. Macdonald, Dairy Inspector.)

DAIRYING IS A VERY IMPORTANT BUSINESS IN CANADA
In Canada there are approximately 3,650,000 cows producing milk. The value of the Dairy products of Canada are close to \$300,000,000. In 1907 their value was \$97,000,000. The report on Mineral Production gives the value to Canada of \$209,000,000. The miner leaves the land a desolate waste, while the Dairy farmer leaves the soil in better condition for another year's operation.

ADVANTAGES OF DAIRYING
Scientists have demonstrated that milk and its products are the cheapest and most essential food. That fact establishes the permanency of the Dairy industry. Judging by the increased production, dairying must be the most profitable branch of farming.

1. It increases the fertility of the soil, while selling raw material decreases it.
2. It can be made a steady income all the year.
3. It reduces the risk of farming.
4. A dairy cow gives a quicker return for the money invested than anything else on the farm. She starts an income the day after she is purchased.

5. On account of our long freight haul to market the advantages of increased value in 100 pounds of dairy products makes the freight rate less.

THE FARM
Dairying tends to a well regulated system of crop rotation, and helps to eliminate weeds.

It gives yearly employment to members of the farmers' family as well as hired help where winter dairying is followed.

A business to be a success must have constant all-year-round attention. Dairying inculcates habits of punctuality, industry, cleanliness and thrift.

To do their best, cows must be fed and milked regularly, and unless there is cleanliness about the dairy there certainly can be little profit.

Dairying utilizes what otherwise might be waste on the farm. Milking gives the boys and girls a sense of responsibility.

A big source of revenue is derived from the by-products, for feeding hogs and poultry, an industry that is fast developing in the Maritime Provinces, also when we offer young milking stock from disease free areas there will be a big demand and good prices.

THE PRODUCTION PER COW
Production per cow in Denmark is 300 pounds butter fat. Per cow in the Maritimes is about 150 pounds. Our principal need is higher production per cow to put the industry on a more permanent basis.

Dairying was the salvation of Denmark and high production per cow is the reason of the stability of the industry there. We must get our production per cow as high as our competitors of the world's strength, then we will not hear the cry "DAIRYING DOES NOT PAY!"

Good feeding comes first in high production, and is a question which should be studied thoroughly by herdsmen and herd owners.

Not only is it one of the most important means of increasing milk production, but it also has a direct relation to the economical production of milk. There are three common mistakes made in feeding dairy cattle, viz. lack of liberal feeding, lack of sufficient protein and lack of individual feeding.

From various experiments in feeding cattle and from observations made through the records of cow testing associations, it has been found that good feeding will increase the milk flow of the average cow from 25 to 50 percent.

It is important that the dairy cow be given enough food to keep up her body, and also to produce as much milk as she is capable of giving. This must be determined by a study of the individual cow and her production. Generally, too, the ration lacks protein which is so essential to milk production. It is quite a common thing to find dairy cows being fed a ration of silage, hay and straw with a little oat chop and quite often no grain at all and yet they are expected to produce milk profitably. Protein is necessary and should be supplied either in good alfalfa or clover hay or in such concentrates and grains as oat meal, cotton seed cake, gluten meal, bran, oat chop and other meals.

Feeding according to production is also necessary from an economical standpoint and should be adopted in every herd. Of course, this can be done accurately only where dairy records are kept for each cow; but where there is a milk sheet it is quite an easy and simple matter to apportion the grain ration according to the production of each cow.

It is unfair to call any cow a scrub on account of low production when it is caused by poor feeding and housing. Have cows in good condition when they freshen, the time to build up the cow is when she is dry, and she will repay you a milk sheet it is quite an easy and simple matter to apportion the grain ration according to the production of each cow.

It is unfair to call any cow a scrub on account of low production when it is caused by poor feeding and housing. Have cows in good condition when they freshen, the time to build up the cow is when she is dry, and she will repay you a milk sheet it is quite an easy and simple matter to apportion the grain ration according to the production of each cow.

Get the best sire possible and rear the female calves from the best production. Keep the young stock growing from the time they are dropped.

Dairying is the king pin of all live stock on the farm. A good dairy cow is the best market we can get for the raw material grown on the farm.

The profits depend on the breeding and feeding care, and the skill of her farmer.

It takes a certain amount of feed to maintain the body of a cow. The cost is the same for a good or poor cow. It is the intelligent feeding over and above that amount what makes dairying pay. An ex-

MARKETING

The markets for dairy products are the most staple in the world. Production has increased 50 percent in the last ten years. Prices are all higher than they were ten years ago. The pro rata consumption of dairy products is increasing each year. The better article we turn out the greater the consumption will be. Farming cannot be carried out successfully without live stock.

THE HOME
Dairying is a cash business, and the cash is coming in all year round.
The farmer can buy cheaper for cash, and in "Off" years dairy farmers are better off than other types of farmers.
The home, as a result of dairying, is supplied with fresh milk and cream, butter, cheese, pork, bacon and veal.
Dairying is particularly profitable on farms of moderate size than permit of more dense settlement, which means to such to the home life on the farm.

THE OPPORTUNITIES
The demand for good butter, cheese, cream and milk on the world's market is unlimited, and so long as the quality is maintained, that market is likely to continue. Thus, in summing up the reasons "Why Dairying Pays", we should think not only of its returns in dollars and cents, though that is the main measure of the success of the business, but we should also think of:
The upkeep of the fertility of the soil; the economical and profitable use of the family labor; the additional contribution to the family purse from the by-products of the industry; the inward satisfaction that comes from milking real paying cows; the lessened cost of marketing in proportion to the actual cash returns; the improved home and home surroundings.
All these make dairying worth while.

Kipling On
Canada's Jubilee
LONDON, July 8.—Rudyard Kipling has written to Hon. F. C. Larkin, Canadian High Commissioner in London, with reference to the service in Westminster Abbey on July 1st in commemoration of the 60th anniversary of the Canadian Confederation and the reception held by Mr. Larkin at Canada House in the evening in celebration of the jubilee.

Mr. Kipling says:
"The service in the Abbey was a visible seal on all the faithful remembered work done for Canada in the past by men and women who would have been quite content to be forgotten in its superb

fulfillment. The gathering in the evening, under the lights and flowers, was a step on the threshold of new life and self-knowledge for the Dominion and for the Empire—only the first step. Think what the next sixty years will bring of strength and achievement to grace such beginnings.
"As a race we pretend that the little we are always doing is always done badly. So what I ought to have written, you after having seen Canada awaken, aware and resolute in her mother's house, is: "All things considered, it isn't half bad."

SUIT THAT CAN BE EATEN
By British United Press)
LONDON, July 8.—A man with an edible suit was the leading figure at the Richmond Horse show the other day.
With his "moke" he took part in the costers' hockey. His coat, trousers, waistcoat, cap and shoes and those of his "assistant" too were covered with roasted peanuts. His name is J. Crowe, and his donkey's name is "Little Nell." He says that every shell on his suit had its kernel inside and was sewn on separately.
"The two suits" he said, "took me

six months to make; they weigh about a hundredweight between them, and the value of the nuts is \$800.
