YESTERDAY'S STOCK AND BOND QUOTATIONS

MARKET GOSSIP

(By John L. Cooley, Associated Press Financial Writer.)

NEW YORK, N. Y., April 5.—Demand for stocks thinned out today and the market slumped downward to a weak close. Bonds and commodities were also affected by the prevailing mood, although trading in all directions was quiet.

Whatever cheer had been generated by Monday's late rally was quickly dissipated when it became evident that the covering responsible for that rally had taken care of shorts' immediate needs and that shares lacked other sources of support. In an absence of nearby bids, leaders made a steady procession into new low ground, dragging down some stocks which had previously been able to hold above their February minimums.

Rails and utilities, generally speaking were the weakest groups. Atchison broke 7¼ to the lowest since 1901 before the dividend news met a little covering and closed 6¼ off.

The preferred lost as much on a single sale. Union Pacific, still paying $10 a year sold 6 points lower, rallying moderately from the bottom. Norfolk and Western entrenched itself deeper in the nineties and was off 5¼ net.

American Telephone held above the old low, 107¾ until late afternoon and then yielded to 106⅝, the lowest since 1921 when it sold at 93½. The final price was 107¼, down 2⅝. U. S. Steel, whose dividend has now been consigned to the casualty list, came within a fraction of the bear market minimum, showing a net loss of 2⅝. The preferred met a very thin market and was off approximately 5 points. American Can, Eastman Kodak, Allied Gas, American Tobacco "B" and National Chemical, Case, Dupont, Consolidated Biscuit finished roughly 2 to 3 under the previous close. Volume, however, decreased to 1,453,410 shares.

Financial circles, despite their present concern over taxes, are closely following the progress of International moves toward economic and political stability. Although less has been made recently of foreign problems, an undercurrent of uncertainty persists, especialy as regards Central and Southeastern Europe.

Enjoyable Entertainment

An enjoyable concert put on by the Ladies Aid and choir of the Central Christian Church was presented last evening in the Church Schoolroom to a large audience.

The various numbers on the program were enthusiastically received, many being encored.

Several excellent numbers had to be cancelled owing to the unavoidable absence of Mr. J. Austin and Miss Mary Trainor.

Following is the program as presented by a group of well known Charlottetown arists.

"Howd'y Do"—Edward Outhouse.

Piano solo "Turk'sh March,"—Mrs K. S. Rogers.

Read'ng—Mrs. Arthur Henry.

Solo—Miss Louise Cox.

Violin Solo—Master Billy Rogers.

Duet—Miss Doris Tait and Mr. George Johnson.

Musical number.

Intermission and sale of candy. During the intermission the audience was entertained by Mr. Warren on the piano-accordian.

Solo—Mr. Ben Acorn.

Stunt—Mr. Fred Wr'ght, Miss Violet Neal and Miss Edith Ling.

Reading—Mrs. Robert Acorn.

Duet—Miss Doris Tait and Mr. George Johnson.

Solo—Mr. George Bears.

PUBLIC FORUM

Continued from page 4

any is available. The bar room of former years, has become the business place of today, where business is obtainable. The former blear eyed, have become the bright eyed of today. The yearly bar room crop of rum addicts, that were always in the making, to fill the ranks of the fallen addicts, as they succumbed to the ravages of alcohol, are, now, students of science. Straight and sober men and women now walk the streets (although many are hungry) instead of the gibbering drunken persons before prohibition.

These things are encouraging, despite the bootlegger and the propaganda against prohibition, both in this country and elsewhere. It is one of the disgraceful things for Canada, that her flag and ships are lawless rum runners, committing illegal acts against a friendly nation. Every boat with contraband liquor aboard, that lurks outside the twelve mile limit, off our coast, is a veritable enemy of decent society. Let the owners, skippers and their friends, read this and hold their heads in shame. Let not their love of money, be the cause of damning their soul, and disgracing their country. America is engaged in a great moral experiment, endeavoring to save humanity from its own lustful and destructive appetities. In that struggle, is engaged the forces of good and evil. The good trying to help mankind; the evil desirous of destroying it. The struggle is bitter—but, like all good causes, the right shall prevail in the end. And, the liquor interests like the drug interests, shall become ostracised by moral opinion, and be recognized as that, which they really are: lepers of society, feeding on the prey of appetite and habit formed and possessed, human derelicts, who have been wrecked by their nefarious traffic, in alcohol and drugs. How a decent minded society can stand idly by and condone, much less, encourage, such a thing, is beyond my power of reason, or understanding.

Of course, it may be expecting too much of such a class, when we expect them to have some moral consideration for their fellow beings, when blood money is their stakes. We do, however, expect our fellow religionists to have some moral concern for humanity, so, when we find them lined up with the rum interests, we are righteously indignant, and humanely bewildered. The press, usually, sides with the popular opinions on most every issue. Occasionally, there is an outstanding editor, with the courage of his moral convictions, who will stand squarely for what he thinks is the right. Again, though, economic determinism, enters into his business, and he must be concerned with the financial success of his paper.

Please don't think I am trying to burden your paper with the troubles of Uncle Sam. I am merely telling my compatriots what conditions confront many of our countrymen here in the United States. Let no one plan to come here, unless he has plenty of money to keep him for some considerable time. You know about the big "citizenship" controversy among the workers here, especially on city work and in city institutions. Those who shed copious tears for every foreign rum running lawbreaker that is caught, or punished in the act of capture, stand up in the halls of the law, and advocate the discharge of lawful industrious and moral men and women, who happen to be working in a city or state job, without United States citizenship. In other words, the rum element, place a premium on lawlessness, and a penalty on lawfulness. The flag and the constitution, however, stand for that which is good and just. Most countries are that way.

I may see you this summer, if we are able to travel in our depression. With greetings to all concerned,

I am Sir, etc.,
PETER A. REILLY.
Boston, Mass.

JAPS INCREASE

(Continued from Page 1)

Korea will be strengthened by about one brigade each under the proposal of the Minister of War, Gen. Sado Araki.

Aside from aiding Manchoukou, as the Pu-Yi regime is called, the purpose of the replacement was given thus by the War Office:

"To facilitate command of troops, to suppress banditry over an extensive area, to eradicate the peace influence of Chang Sueh-Liang, the former controlling War Lord of Manchuria, to protect 1,000,000 Japanese subjects in Manchuria and to ensure the peace of Manchuria's 30,000,000 population."

Meanwhile news dispatches from Manchuria told of fresh engagements between Japanese and Chinese "irregulars" in eastern Kirin Province, bordering on Korea and Soviet Russia.

"An AMBASSADOR for Canada Abroad"

"In every important port at which I called, I found two great Canadian institutions—the C.P.R. and the Sun Life."

So said a globe-trotter recently.

"The Sun Life of Canada is international. It is found in almost all lands and is well thought of."

A former president of the National Life Underwriters' Association, after a world tour.

SINCE 1880, the Sun Life Assurance Company of Canada has extended to five continents. To-day its agencies encircle the globe.

Its world-wide connections and representatives provide facilities and service for its policyholders, when travelling, almost consular in character.

By its scrupulous fidelity in carrying out its undertakings, it has established an enviable reputation for Canadian business methods—an invaluable introduction to Canadian traders, and a great advertisement for Canada abroad.

It is an ambassador for the Canadian people.

SUN LIFE ASSURANCE COMPANY OF CANADA

Montreal Market Sidelights

MONTREAL, Que., April 5.—Lacking anything in the nature of constructive news developments surrounding the markets and faced with further weakness in the market in Wall Street, the local market drifted still lower into new low ground in today's session, with volume on an expanding scale. At the close here, losses exceeded gains by 15 to three while the average price of twenty stocks declined 38 to a new low for the index of 22.08. A four point dip by Bell Telephone to a new low of 98 was in a large measure responsible for the loss in the average price, with changes for the most part of a fractional nature. Six issues sank to new minimums for the year or longer.

Railway traffic on Canadian roads in the past month, has exhibited a highly mixed trend, with the improvement in loadings in the west the stimulating and constructive feature of the situation. This tendency contrasts with a sharp decline in revenue freight loadings in the eastern division, and creates a situation that makes it impossible to draw definite conclusions as to the situation as a whole.

MONTREAL, Que., April 5. (By the Canadian Press)—The slow ebbing away in security values continued today on the Montreal Stock Exchange with six new lows for 1932 or longer being recorded.

Bell Telephone broke 4 points to 98, while other new lows were shown by Steel of Canada, International Nickel, Quebec Power, Massey Harris and Winnipeg Electric.

Canadian Pacific railway again moved against the general trend to show a fractional gain while Canada Cement and Atlantic Sugar were the only other issues to gain.

Volume showed an increase over Monday, amounting to 11,865 shares compared with 7,039. Losses outnumbered gains by a ratio of five to one and the index of 20 representative stocks touched 38, its lowest level in several years.

The active leaders confined their losses to small amounts, Brazilian Traction, with 2,562 sales, was ⅝ lower at the close at 10½. Nickel went to 7⅝, off ⅛ on sales of 2,403 shares and McColl Frontenac with a turnover of 1,250 shares, was off ¼ at 8.

Quebec Power established its new low at 15 where it closed for a loss of 1½ points; Bell Telephone went down to 98, and other losses included: Smelters, off ½ at 42, Cockshutt, off ⅝ at 4⅜, Massey Harris, off ¼ at 3; Southern Canada Power off 2 at 16; Steel of Canada off ⅜ at 19⅝, Winnipeg Electric, off ⅛ at 3⅜, B. C. Power, off ¼ at 22¾ and Canadian Car off ⅜ at 8.

The bond market also turned soft with Victory 1933's selling at $101.00, down 25 cents and Conversion 1958's at $91.75, off 50 cents. Total sales were $0.650.

Sterling closed at $4.1831 and United States money at a premium of 10 13-16 per cent.

"Skyscraper" in Mexico City

Mexico City, Mexico, soon will have its first "skyscraper," and because of the peculiar foundation conditions of the city the new structure is attracting the interest of architests and engineers in many parts of the world. The building is 13 stories high, is of structural steel and reinforced concrete and will be equipped with a modern ventilating system, latest-type elevators and other improvements of present-day structure. As Mexico City once was a lake bottom, although 7,500 feet above sea level, buildings nave been low and spread out because of the constant settling of foundations. Those of the new building are of reinforced concrete on wood piles. The structure is believed to be earth-quake-proof.

PRODUCE

MONTREAL, Que., April 5. (By the Canadian Press)—Egg and butter prices were generally lower while cheese and potato quotations held unchanged on the produce and dairy market here today.

Fresh graded Ontario eggs, in cartons or less, declined slightly, extras at 18 cents and firsts at 16 cents, both losing a cent while seconds were steady at 15 cents a dozen. Offerings of western fresh eggs were light with extras being quoted at 19 cents, firsts at 17 cents and seconds at 15 cents a dozen. Quotations to retailers were unchanged. Receipts were 2,877 cases.

No 1 regraded butter, in carlots or broken lots, lost half a cent at 24 cents a pound. Fresh butter was quoted at 23 cents a pound. Receipts were 709 boxes.

Current cheese was unchanged at 10½ to 11 cents as was summer make at 12 to 12½ cents a pound. Receipts were 13 boxes.

The potato market ruled steady, quotations of broken lots per 80 pound bag being 30 to 40 cents for Quebec whites and 45 to 50 cents for Quebec and New Brunswick green mountains. Carlot prices were ten cents a bag cheaper than the broken lot levels.

SUGAR

NEW YORK, N. Y., April 5.—Raw sugar was unchanged today with buyers showing continued interest at last paid prices of 2.66 for spots. At this level sales were confirmed of 45,000 bags of Phillipines, 15,000 bags of Porto Rican for April, arrival to local refiners, while an outport refiner paid 2.67 for 18,000 bags of Phillipines for April arrival.

Final prices were 3 to 4 points net lower.

Approximate sales 28,700 tons. May closed 69, July 75, Sep 81, Dec 87, Jan 90, March 95.

In refined prices were reduced 10 points to the basis of 3.90 for fine granulated following the recent decline in raws, but demand was still light and of a routine character.

COTTON

NEW YORK, N. Y., April 5.—Cotton futures closed barely steady. Closing bids: Jan 680, Feb 687, March 695; April 610; May 616, June 623; July 631-33; Aug 640; Sep 649; Oct 658; Nov 664; Dec 671.

Spot closed quiet. Middling 625.

LIVERPOOL

Cotton spot in better demand. Prices three points higher. American middling fair 591, strict good middling 546, good middling 506, strict middling 496, middling 491, strict low middling 481, low middling 471, strict ordinary 451, good ordinary 421. Receipts were 10,000 bales, including 1,900 American.

MONTREAL, Que., April 5.—There were 170 cattle, 1,158 calves, 541 hogs and 54 sheep and lambs for sale on the two Montreal livestock markets including about 70 cattle held over.

There were two loads of medium good to good quality steers just arrived. Common butcher cows brought from $2.25 to $2.50 and common bulls were mostly $2.50 to $3.

Calves were only common to just fair quality. Prices ranged from $2.25 to $3 with one lot of about 40 of the best calves at 3.25. The bulk of the sales were made between $2.50 and $2.75.

Spring lambs made the bulk of the offering and these were sold between $3 and $7 each according to quality. The few sheep offered brought around $4.

There was a weaker undertone in the hog market. Most of the bacons, butchers and lights were sold for $5 fed and watered, with some sales as low as $4.75. Sows were mostly $3.25.

Grain Market

CHICAGO, Ill., April 5.—Grain values receded today from bulges that in the last few days had carried wheat up six cents over last week's low point.

Indications of a possible break in the drought which has prevailed over domestic winter wheat territory had a bearish effect, combined with unsteadiness of securities. Besides, trans-Atlantic demand for wheat from North America was disappointing, although some business was done both by the United States and Canada.

Wheat closed nervous ⅞-1⅜ under yesterday's finish, corn ⅝-⅝ down, oats unchanged to ¼ off, and provisions unchanged to 12 cents lower.

WINNIPEG

WINNIPEG, Man., April 5.—Guided by weakness of Liverpool wheat quotations and a spotty export demand grain prices underwent moderate downturns in the wheat pit here today. Predicted showers over United States winter wheat fields also acted as a bearish influence. Prices closed ⅞ to one cent lower than yesterday's final figures.

May and July each dropped ⅞ to 62; and 64 cents respectivvely while October finished ⅞ to one cent lower at 66⅜.

Damage reports from the United States winter wheat belt and bullish reports concerning wheat prospects in Russia gave early session strength to the market but the advance was shortlived and values dropped gradually to reach the low points near the close.

Broomhall reported a better feeling in European countries and indicated that France would be in the market for supplies of foreign wheat on a fairly good scale while Italy already was buying moderate quantities. He reported also that Germany was in need of grain imports.

Apart from small export trade in oats, cash wheat trade was draggy at unchanged spreads. Coarse grains closed easier.

CLOSE

Wheat—May 62⅛B, July 64B, Oct 66⅜.

Walk Hix	3¼	3⅛	3¼

A cinema actor suing for a breach of contract described himself as the greatest actor in the world.

One of his friends took him to task for so loudly singing his own praises. "I know," replied the actor. "it must have sounded somewhat conceited but remember I was on oath."

lice batons when entrance of a citizens' deputation was delayed late this afternoon. Windows and doors in the building were smashed. A parade estimated at 10,000 citizens had marched to the Assembly to present a resolution calling for investigation of charges that minutes of the executive council had been falsified.

Irked at the delay, one section of the crowd got out of hand and commenced to smash windows. Several were injured when police engaged them, but the rioters gained the upper hand, broke all the windows in the basement of the Government building, looted the files, and threw documents into the street.

SECOND ESCAPE

The Premier made a second escape, from the private residence where he had taken shelter, eluding the mob by leaving through a rear entrance.

The crowd then raided the government liquor store and carried off all available supplies. At 9.30 they were dispersing.

"There's a fellow who swindled me out of $25.000."

"Really?"

"Yes—he wouldn't let his daughter marry me."

CONDUCTED GEO-PHYSICAL SURVEY

During the summer of 1931 a member of the staff of the Dominion Observatory, Department of the Interior, Canada, conducted a geophysical survey in northern Ontario, using the Eotvos Torsion Balance in the survey of the lignite deposit at Onakawana, and the magnetometer in the survey of the iron ore deposit at Grand rapids on the Mattagami river.

THE INTERNATIONAL BOUNDARY

According to the Department of the Interior the International Boundary between Canada and the United States as defined in the various treaties is 5,500 miles in length, of which 3,100 miles is land boundary and 2,400 miles water boundary, with 5,483 monuments to mark the land boundary and 2,530 reference marks from which the water boundary can be conveniently located. The land boundary is also marked by a vista cut through the woods in all forest-covered areas.
