Pearson Denounces Soviet Imperialism At U.N.

Smallwood Announces Hard-Surfaced Highway Across Newfoundland

OTTAWA, Sept. 26 — (CP) — The United Kingdom likely will ask Canada to cut prices so Britain may continue large-scale shopping in this country next year, it was learned today.

The price cuts will be asked as a means of getting around the full 25-per-cent slashes in dollar imports which the U.K. and other Commonwealth countries are expected to undertake — even with sterling devaluation.

It appears, however, that instead of Canada agreeing to price and quantity controls on the whole list of commodities she hopes to sell Britain in 1950, the U.K. may be asked to make selective shopping — buying less of those goods which Canada can sell elsewhere.

These problems of Anglo-Canadian trade are being discussed on a pre-negotiation basis by the continuing committee on trade, meeting in closed sessions here. The sessions are expected to finish tomorrow.

The officials, which include Mackenzie, Canada's Deputy Minister of Trade, and Sir Alexander Clutcher, United Kingdom High Commissioner to Canada, are believed to be studying expected Canadian shipments overseas of food, lumber and metal products.

Britain May Ask Canada To Cut Prices

ST. JOHN'S, Nfld., Sept. 26 — (CP) — Premier Joseph Smallwood told Newfoundlanders today a highway will be built across the island between St. John's and the ferry terminus of Fort Aux Basques.

He did not say when the project would be started but indicated it would be in his present term of office or sometime during the next four years. No cost was given.

The Premier made the announcement after his return from Ottawa. He also said 500 slum dwellings in this Capital will be replaced through a Dominion-Provincial scheme costing \$2,500,000.

Third point in his statement was "a large program" of secondary road construction and he said the job would be done by show-and-tell-tying Newfoundlanders — not by machinery — to relieve unemployment.

Coming Events

- Dance, Iona Hall, Wednesday, September 28th.
- Dance, Dromore School, Sept. 28th, Burke's Orchestra.
- Mail your Films to Garnham Photo Studio, Charlottetown.
- Dance, New Iona East School, Tuesday, September 27th.
- Legion Dance at North Rustico Hall, Thursday, September 29th.
- Come to the Matinee Races at Sunny Green Acres, October 1st.
- See "Ray Little Show" in Wilshire Hall, September 27th Sale of candy.
- Dance, Fort Augustus Hall, Friday, September 30th. Sponsored by Junior Farmers.
- Regular Dance at the "Sea Breeze", Victoria, each Wednesday, Dancing 9 till 1.
- Reserve Monday, October 31st, for Masquerade Dance in St. Peter's Legion Hall.
- Dance every Friday night at the Gordon Lodge. Good music. Dancing from 9 till 1.
- Variety Concert and Dance, Kelly's Cross Hall, Friday, Sept. 30th. Lunch served.
- Show "The Sullivans" at Bradalbane Theatre, 8:30. Dance after show. Don't miss it!
- Come to the United Church Supper, Chicken, Ham, Salads and Pies, September 28th, Cherry Valley Hall.
- Reserve Tuesday, September 27th, for Ham and Hot Scallop Supper, Mt. Abillon Hall. Supper served at 5 o'clock.
- Lot 65 Hall, Monday, Oct. 10, old time fiddling and step dancing contest. Send entries to Linus Trainor.
- Due to arrive this week, car of Bran and Shorts. Please place orders and take delivery from car. Hazelbrook Dairymilk Co.
- Dance in New Glasgow Hall, Tuesday night, Sept. 27. Dancing 8-12:30, good music, canteen service, in aid of rink.
- Regular dance, East Royalty Rink Hall, Tuesday, September 27th, Eastern Rhythm Boys. Dancing 8:30 to 12:30. Bus leaving 1, M. T. 10:00.
- Don't miss the fiddling and step-dancing contest in Cardigan Hall Thursday, Sept. 29. Send entries to Lemuel Allan, Secretary, Cardigan.
- Meet your friends at St. Mary's Annual Bazaar and Chicken Supper, Sunday, September 27th and 28th. Meals from 8 o'clock until 10, Bingo, Cards, etc.

Pearson Denounces Soviet Imperialism At U.N.

By NORMAN ALSTEDTER
NEW YORK, Sept. 26 — (CP) — L.B. Pearson of Canada bluntly accused Russia today of a new, aggressive imperialism which threatens the world.

Canada's External Affairs Minister added, however, there is evidence that the new imperialism will not survive because of its own internal weaknesses and contradictions. He delivered one of his direct attacks on Soviet policy during the general debate of the United Nations fourth assembly.

Outlining the problems of international control of atomic weapons, which has become a prime concern of the assembly, Pearson said Russia's proposals for such control are "hypocritical and meaningless" if the Soviet Union continues to insist on national sovereignty in atomic questions.

Foreign Secretary Bevin of Britain and Foreign Minister Llewellyn D. Lloyd of Yugoslavia also blasted Russia as imperialist. The latter accused Russia of making verbal threats against Yugoslavia while professing peace-loving intentions.

Bevin made clear that Britain will not support prohibition of atomic weapons until Russia agrees to an adequate system of inspection which would prevent secret manufacture of atomic bombs.

He described as "stupid" the Russian charge that the Western Powers have prevented prohibition of atomic weapons.

Bevin proposed that Russia submit a proposal with Yugoslavia to the U.N. for the control of atomic weapons.

He said the Western Powers are fully aware of Russian intentions to use its agents and the Cominform to upset the economy and political economy of every Western Power.

Bevin added, however, that he would welcome an exchange of views in a spirit of reasonableness and compromise if that was what Foreign Minister Vishinsky of Russia was driving at when he called for a settlement of differences by mutual discussion.

Pearson told the assembly the world watches the new Russian imperialism with so much concern "partly because of its aggressive interference in the affairs of other states, partly because of its inherent instability."

"There are already evidences that because of its own internal weaknesses and contradictions, it will not survive," he added. He held out the hope that a more just relationship between the states affected by Soviet imperialism may come about as it changes.

The Canadian Minister's 3,000-word address was interrupted by applause when he turned to the subject of international control of atomic weapons.

Crash Victim And Husband

Stranger than a murder mystery is the story police are piecing together of the events that led to the destruction of an airliner on Sept. 9 near Quebec and the loss of 23 lives. Involved are the late Mrs. Guay, killed in the crash, shown here with her husband Albert Guay, Quebec jeweller, now held by police. An explosion is believed to have wrecked the plane and it is known that a friend of Guay, Mrs. Marguerite Pitre, put a heavy parcel marked "fragile" on the plane just before the fatal flight began. Mrs. Pitre was picked up by police after an overdose of sleeping tablets.

Police Believe Paralytic Maker Of Bomb Used In Plane Murder Plot

By GUY GAGNON
QUEBEC, Sept. 26 — (CP) — Provincial Police tonight kept "close watch" over a 47-year-old paralytic, said to be a wizard with his hands and believed to be the maker of the bomb which blasted a twin-engine Canadian Pacific Airlines plane Sept. 9, killing 19 passengers and four crew members.

Police were tight-lipped over details of their investigation, but sources close to investigators said the grey-haired watch expert "would be the logical maker of the bomb."

A square-faced, grey-eyed man, paralyzed from the waist down, his only pastime for years has been to work with tiny, complicated mechanisms.

He is known to be an old friend of J. Albert Guay, 32-year-old Quebec jeweller charged with murder of his wife Rita by blowing up the DC-3 at Sault au Cochon, shortly after it left Quebec on a regular flight to Baie Comeau.

"Cold-Killer" Pill Developed In U.S.

NEW YORK, Sept. 26 — (AP) — The United States Naval Medical Bulletin says the navy has developed a 90-per-cent effective "cold-killer" pill if it's taken at the first sign of a cold.

It was discovered accidentally by a number of doctors treating patients with anti-histaminic drugs to relieve symptoms of hay fever and other allergic disorders.

The "cold killer" has been named "riclidin," derived from "coryza," meaning the common cold, and "cide," to kill.

Research study of anti-histaminic was carried out by Capt. John M. Brewster, M.C., of the navy.

Sam Carr Appeals

TORONTO, Sept. 26 — (CP) — Sam Carr, sentenced to six years for conspiring and uttering a false passport for a known Russian spy, today started appeal proceedings. The former organizer of the Labor-Progressive Party has been in jail since Jan. 31 when he was brought back to Canada after his arrest in New York. He was sentenced April 8.

Import Restrictions Off Fresh Fruits, Vegetables

OTTAWA, Sept. 26 — (CP) — Canada will open the door next Saturday to unrestricted importation of fresh fruits and vegetables. Finance Minister Abbott announced today in the Commons. Restrictions first were imposed about two years ago.

The move, resulting from recent monetary talks in Washington, will pave the way for immediate shipment into Canada of United States pears, grapes, cranberries, green beans, beets, cauliflower and sweet potatoes.

An official of the Canadian Fruit Wholesalers Association said these new items likely will cost Canada about \$8,500,000 a year.

Because of Canadian-dollar devaluation, the Canadian consumer will pay about 10 per cent more for the products than Americans.

The official said lifting of import restrictions will mean little

Says Atomic Control Proposals Hypocritical

By NORMAN ALSTEDTER
NEW YORK, Sept. 26 — (CP) — L.B. Pearson of Canada bluntly accused Russia today of a new, aggressive imperialism which threatens the world.

Canada's External Affairs Minister added, however, there is evidence that the new imperialism will not survive because of its own internal weaknesses and contradictions. He delivered one of his direct attacks on Soviet policy during the general debate of the United Nations fourth assembly.

Outlining the problems of international control of atomic weapons, which has become a prime concern of the assembly, Pearson said Russia's proposals for such control are "hypocritical and meaningless" if the Soviet Union continues to insist on national sovereignty in atomic questions.

The Canadian Minister's 3,000-word address was interrupted by applause when he turned to the subject of international control of atomic weapons.

Halifax Considers Retail Sales Tax

HALIFAX, Sept. 26 — (CP) — City Council tonight waded into a voluminous report recommending a tax on certain retail sales within the city but postponed further discussion until next Monday.

Under existing proposals, the tax would be applied to a lengthy list of items to offset an expected \$2,000,000 city deficit next year. Excluding confectionery — trade tools and implements purchased by fishermen and farmers; items costing less than 10 cents; prescription drugs; amusement tickets such as those to theatres and coal and firewood in certain quantities would be among items exempt from the levy.

Mayor Gordon S. Kinley told tonight's meeting: "Every suggestion, whether on the proposed plan or on some feasible means of increasing the city's revenue or decreasing the tax rate, will be given consideration."

Two New Planes Off Secret List

LONDON, Sept. 26 — (AP) — The Ministry of Supply took two new anti-submarine planes off the secret list today.

One, the Fairey 7, powered by two turbine engines geared together to drive the four-blade propellers in opposite directions on the same shaft.

If one engine is shot out the propellers will still operate from the remaining engine.

The second plane, still undergoing tests, is the Blackburn Y.A.T. powered by a piston engine. It also has counter-rotating props.

Reduced Sentence Deeth To Life Term

SUDBURY, Ont., Sept. 26 — (CP) — Gerard Chretien, sentenced to be hanged Thursday for the Dec. 9 rifle murder here of William Wilson, tonight had his death sentence reduced to life imprisonment.

Earlier Leo Landreville, Chretien's counsel, said an appeal to the Federal Cabinet was based on the question of mental deficiencies of the prisoner and the circumstances of the crime.

Busy Season Reported At Experimental Farm

With this harvest season, the Experimental Farm is completing one of its busiest seasons and is well on its way on its five-year "progress" which was started in the summer of 1948.

This work includes renovations of buildings and grounds, particularly on the new properties of Upton Farm and Beach Grove Inn.

At intervals during the last few days, Mr. R. C. Parent, superintendent and Mr. Gordon Warren, assistant to the superintendent in horticulture, has shown a Guardian representative around a number of the many experimental projects, explaining their significance and enjoying the sights of a bountiful harvest.

The forty-odd staff and employees are busy harvesting at present and recording and tabulating the many various results of what is already harvested. The grain this year was in the earliest on record. B. Frank Tinney's poultry section has the largest number of layers ever recorded on the Farm Experiment Station.

Funeral Disturbed By Shooting Affair

MONTREAL, Sept. 26 — (CP) — The solemnity of a burial in Mount Royal Cemetery was shattered today when a 49-year-old man fired several shots at a crowd of mourners, seriously injuring one woman and then killing himself. Both are Negroes.

Suburban Outremont police identified the dead gunman as John Frederick Turner of Montreal.

The injured woman is 34-year-old Rose Evans. She was taken to hospital with two bullet wounds. Doctors said her condition is serious.

Police said more than 300 mourners fell to the ground or scurried for cover behind headstones and watched Turner chasing the screaming Miss Evans.

Two shots from a .45-calibre automatic revolver went wild, but two others struck Miss Evans.

Police said they believed the two had been on intimate terms for some time but that Miss Evans had left Turner.

Urges Plugging Of Gap In Pacific Coast Defences

OTTAWA, Sept. 26 — (CP) — The Defence Department was urged today to take steps to block a huge gap in Pacific Coast defences stretching from the United States border to the Aleutians.

Major-General G. Peakes (PC - Nanaimo) said in the Commons Throne-Speech debate that Canada is vulnerable to attack throughout the whole length of her British Columbia coast.

He pressed for a series of moves to tighten defences along this coast, bringing them in line with what the United States has done.

The moves are:

1. Establishment of an auxiliary squadron of the R.C.A.F. in British Columbia.
2. Provision of an aircraft carrier to patrol the Pacific coast.
3. Establishment of proper defence ground units at the airfield

Report Russians Making Trans-Ocean Rockets

BERLIN, Sept. 26 — (AP) — German scientists are producing the Russia trans-ocean rockets designed for Hitler before the war ended, Soviet-zone informants claimed today.

The informants said the mammoth underground munitions plant at Peenemuende, on the Baltic coast, is turning out rockets at full speed.

Allied intelligence officers said they know of "certain activity" at Peenemuende, but declined to elaborate.

At the end of the war the Allies agreed that Germany's war potential should be destroyed.

The new rocket, said the German informants, was dubbed "Fire Lily" by the Nazis, who never had a chance to use it.

Its range and accuracy are enough, the report said, to hit a target 5,000 miles away.

Earlier today both Allied and German sources confirmed that Russia had installed a chain of rocket-launching platforms in Eastern Europe, stretching from the Baltic to the Black Sea.

Peenemuende was wrecked by R.A.F. and R.C.A.F. bombers dur-

Will Visit Island

Maj.-General Daniel C. Spry, D.S.O. (above), chief executive Commissioner of the Canadian Boy Scout Association, is expected to visit Prince Edward Island on November 6-9. Mr. R.C. Parent, Provincial Commissioner, announced yesterday.

The chief executive Commissioner will make a coast-to-coast tour of the Dominion, leaving Ottawa on October 10 and returning on November 19.

While in P.E. Island, he will address the Monday meeting of Rotary on November 7th and will visit Scout leaders in Summerside and Borden. At Borden he will be present at the opening of the new Scout hall.

Russia Policeman Quits

BERLIN, Sept. 26 — (Reuters) — A Soviet zone policeman walked into a British sector police station here today, announcing he was "fed up" and would like to go to West Germany. He was sent to a refugee camp.

Seize 50 Ounces Of Illegal Heroin Worth \$140,000

MONTREAL, Sept. 26 — (CP) — The R.C.M.P. today snatched a trap on the alleged boss of Montreal's dope racket and seized the biggest haul of illegal narcotics in local history—50 ounces of heroin worth \$140,000.

Arrested was Johnny Young, dubbed by police a member of the notorious Perreault gang and "king-pin" of the undercover drug trade here.

Young was nabbed by the R.C.M.P. in his mid-town St. Dennis Street apartment. With him, police said, was the heroin and an arsenal of weapons including a machine gun.

Arresting officers said that Young spotted them coming in and made a break for it. An R.C.M.P. constable tackled him on St. Dennis Street.

Young is the latest person arrested in a series of raids growing out of a month-long R.C.M.P. investigation of drug peddling in Montreal.

Little more than a week ago, \$85,000 worth of heroin was seized and four men were arrested, including Rev. J. Arthur Taillefer, Roman Catholic priest of Ste. Madeleine d'Outremont parish.

Arrested with Father Taillefer was night club owner Michel Sisco and two others were arrested within two days—Jean Claude Lapere, 23, and Rosario Deleise, 33.

Father Taillefer, Sisco, and Young all were charged with conspiracy to possess, sell and distribute drugs.

Young was arrested today on a charge of having conspired with Walter Sillantias of Vancouver be-
