

Baker's Cocoa

There are twenty-five to thirty different grades of cocoa beans, but Baker's Cocoa is made of high-grade beans only. That is one reason why it is better.

Interest Keen In U. S. Navy

WASHINGTON, Oct. 14.—(Can-adian Press).—Great national and international interest attaches to the report which the general board of the navy will make before many weeks on the question of the rela-tive places to be held by battleships and by aircraft and submarines in the U. S. naval establishment.

The general board has begun to go into this question at the in-stance of President Coolidge who is interested in the possibilities of air-craft, especially since the world flight of U. S. fliers.

Although the board's report is not yet formulated, there is every reason to believe that it will not favor scrapping the battleship. It will undoubtedly favor develop-ment of aircraft, and submarines as well, as supplemental to the battleship but not as the main reliance of the navy.

The expectation here is that out of the agitation may come a new and definite naval program. Since the Washington peace conference, the naval policy of the United States has been drifting. Leading naval officers are anxious to have a program settled on. While there is difference among them as to just what the program should be, the sentiment appears to be for more cruisers, more airships, more submarines, all this without sac-rificing the dreadnaught.

Navy officials are not entirely at ease because of the fact Japan is adding to her navy at a much more rapid rate than either the United States or Great Britain. The Ja-panese navy is being modernized every way, with much attention to aircraft, sea-going submarines, and fast, light cruisers. There is, of course, no expectation of trouble in the Pacific but it has not escap-ed notice that the Japanese at Gen-eva have been aggressive and ap-arently are bent on opening up the immigration problem, some-thing which the United States op-poses on regarding as a purely domestic question.

C. W. L. Hold Meeting

(Continued from Page 1)

In charge were well repaid for efforts by the smiling faces and cheery voices of the happy Girl Guides. To them fell the honor of having been the first Guides here to have held a field service, Father Maurice McDon-ald their chaplain being the celebrant of the Holy Sacrifice in their Mass camp.

The visit of His Lordship Bishop O'Leary was spoken of also his generous Dr. McGuigan and Mr. William Hynes of the League of the Cross came in for special mention and all those who helped in any way. The pres-ident spoke highly of work done by Miss Dorsey and the Guide officer and extended the thanks of the League to them.

The report of the president who was voting delegate to the Diocesan Convention was then read and gave an interesting account of the work accomplished. The mes-sage of His Holiness Pope Pius XIth to the national convention of the C. W. L. held in Edmonton last August was read and atten-tion drawn to the fact that this is the first message of its kind to a women's society in Canada.

Plans were made for a future meeting and it was decided to hold a few weekly whists in Rosary Hall beginning this evening. It was also decided to hold a rum-mage sale, Oct. 24th.

Many other questions were dealt with before the meeting ad-journed until the first week in November.

Wets Repudiate Tract on Liquor

(Special to Guardian)

TORONTO, Oct. 14.—Both wets and drys in Pterboro today are seeking some clue to the author-ship of a tract which was distrib-uted in two local churches today. It deals with the liquor question and says in part:

"Who made the drunkard? Who ever made him possible. Who ever put the sleep wine in the palm tree and ferment in all liv-ing nature? If the maker had known half as much as Carrie Nation he never would have done it. We'll get after him next."

The Moderation League is tak-ing steps to establish that it had nothing to do with the pamphlet.

Says No Pressure Was Brought Upon Heads of Labor

LONDON, Oct. 14.—J. H. Thomas, colonial secretary, open-ing his election campaign in Derby which constituency he has repre-sented in the House of Commons for some years, dealt at length with the matter of the withdrawal of the prosecution of Acting Editor J. R. Campbell of the Workers' Weekly for alleged sedition.

He said his reply to those who asked why the government did not accept the proposal of the Liberal members of the House of Commons to appoint a select com-mittee to inquire into the Campbell case was this:

"If we have reached the stage where the prime minister of this country and the attorney-general having from their places in the House of Commons pledged their own honor as to everything that had taken place in the Campbell matter and having told their full story with regard thereto are sim-ply to be told 'We do not believe you,' how can we expect that the administration of this country or negotiations with foreign powers can be conducted with the whole House of Commons saying 'We do not believe you.'"

Mr. Thomas emphatically de-clared that, with a full knowledge of all that had taken place in the Campbell matter, he could say that no pressure of any sort had been brought to bear on the govern-ment to influence its decision in the case.

"OH BOY" BARITONE TO TOUR CANADA

(Continued From Page One)

NEW YORK, Oct. 14.—Edmund Burke, the noted Canadian bass baritone, will visit the Dominion this season, according to an an-nouncement made by his manager here. Mr. Burke has just been re-engaged for his third successive season with the Metropolitan Oper-a Company and critics are look-ing forward with interest to his sec-ond annual song recital in New York to be given October 27. Last year Mr. Burke included fourteen new songs in his programme and the musical writers of the local papers therefore look upon his coming recital as an event of ex-traordinary interest.

The Burke recital is also arous-ing no little interest in the Cana-dian colony here. Burke is one of the most prominent of a little cot-terie of artists who have brought the Dominion to the fore in mus-ical circles here, and his remark-ably successful career has been watched with interest by his fel-low countrymen in New York. Many of the leading members of the Cana-dian Club, the Canadian Society, and other Canadian organizations have already booked reservations for the concert.

Detailed arrangements have not yet been completed for Mr. Burke's forthcoming visit to Canada, but he will give one recital in Montreal this winter and will likely appear also in Quebec, Ottawa and several other eastern cities. Last year he made a successful tour of the Mar-time Provinces and won high praise from the critics of the papers in Nova Scotia and New Brun-swick.

Although possibly most renown-ed as an opera singer, Mr. Burke has proved that an artist may be equally great in opera singer, Mr. Burke has proved that an artist may be equally great in opera and recital. He is regarded as one of the most versatile singers now be-ing the public. His career in op-era has been a distinguished one, culminating three years ago with his engagement by the Metropol-itan Opera Company, and has been many important roles.

Mr. Burke is a native of Toron-to, and he still retains his Cana-dian citizenship. He is a graduate of McGill University, holding a de-gree of Bachelor of Civil Law. Des-pite his training for the law courts, he devoted himself to a musical career in Montreal. He served as a Cap-tain with the Canadian army dur-ing the war.

Rum Ship

(Continued From Page One)

his cabin twelve rifles and six re-volvers beside his bunk. He ex-plaind that his ship, which is a 964 ton oil burning vessel of Nor-wegian registry, had left Antwerp for St. Pierre with a delictic crew and 100,000 cases of assorted li-quors. Only 43,000 cases remained in the ship's safe customs men found \$26,000 in United States money.

The crew had made free with the liquor, he said, and before they were one day out, the fighting be-gan. Drayton continued all the way over, reaching a climax after the vessel anchored in Rum Bay.

Eighty they arrived everybody got drunk, three men received bro-ken jaws, one had his leg broken, two received broken arms and a score had their eyes blackened, he told the customs men. He retired to his cabin to wait for the storm to subside.

While the captain was telling his story to Captain Blake, the other customs men had driven the cur-ling, staggering gang men below decks, and made fast the hatches. The Sargatna was then towed in-side Sandy Hook, where a guard was placed over her to await the decision of officials as to her dis-position.

No Verdict Yet On Bevis Murder Case

(Canadian Press)

HALIFAX, N. S., Oct. 14.—Shortly before midnight the jury deciding the fate of Lewis Bevis, Halifax gunman who held the local police off for over twenty-four hours July 13-14 last when he shot and killed a police officer, Kennedy badly wounded was still locked up and there was no indication as to when the verdict would be announced.

The trial ended tonight at nine-thirty when Justice Chisholm con-cluded his charge to the jury speaking one and a half hours. J. W. Madden, K. C., Sydney coun-sel for the defence addressed the jury this afternoon and appealed J. R. Campbell of the Workers' Weekly for alleged sedition.

He said his reply to those who asked why the government did not accept the proposal of the Liberal members of the House of Commons to appoint a select com-mittee to inquire into the Campbell case was this:

"If we have reached the stage where the prime minister of this country and the attorney-general having from their places in the House of Commons pledged their own honor as to everything that had taken place in the Campbell matter and having told their full story with regard thereto are sim-ply to be told 'We do not believe you,' how can we expect that the administration of this country or negotiations with foreign powers can be conducted with the whole House of Commons saying 'We do not believe you.'"

Mr. Thomas emphatically de-clared that, with a full knowledge of all that had taken place in the Campbell matter, he could say that no pressure of any sort had been brought to bear on the govern-ment to influence its decision in the case.

France Worried Over Downfall Of Socialists

PARIS, Oct. 14.—The fall of Prime Minister MacDonald in Eng-land was expected in France, but the government is worried over the result of the election to follow. Many concessions were made by Premier Herriot during the London conference based mainly on Mr. MacDonald's promises that he would deal sympathetically with France when the question of re-fering debts was discussed.

If the outcome of the election is against MacDonald, new conversa-tions will have to be started with the now British premier, who will have no moral engagements to Herriot or France. Herriot's opponents have pointed out at every opportunity that the Liber-als and Conservatives in the Brit-ish parliament spared MacDonald in order to enable him to induce France to abandon the Ruhr. Once this difficult problem was

premier.

NO LIMIT

clearly, they would be ready to return to office.

In government circles it is be-lieved that the fall of MacDonald will not affect the good relations of France and Great Britain. It is stated that any British govern-ment, regardless of political color, will be forced to continue the policy traced by the Labor Party.

AFRICA SHY OF RADIUM
The world must come back to Colorado for its radium. Dr. C. H. Vio of the Standard Chemical company's research laboratory says that the two ounces of this precious element estimated to be the total deposits in the rich mineral deposits of the Belgian Congo, are only enough to supply the world for about three years. These African radium ores dis-covered in 1913 have been found to be much richer than the de-posit in this country and the cheaper product made possible by the fact has already caused a drop in the market price from \$100,000 a gram to \$70,000 a gram. Unless richer deposits are soon found elsewhere, the world will again be dependent for its supply on the ores in our western states.

SHANGHAI, Oct. 14.—The new Chinese administrat-oring Shanghai for the Peking government, as a re-sult of the defeat of the Chi-kiang forces, today worked in connection with foreign au-thorities, incident that they would be able to avert dis-turbances incidental to the change in the local govern-ment.

BELLEVUE SCHOOL
Following is the standing of Bellevue school for the month of September:
Grade X.—1, Mary McLeod, 2, Alfred Weatherble, Grade VIII.—1, Mae Matheson; 2, Catherine McPherson; 3, Mary McBeth, Grade VII.—1, Annie Matheson; 2, Belle McPherson; 3, Annie McPherson; 4, Ernest Matheson, Grade V.—1, Effie McBeth; 2, Mary McPhoe, Grade III.—1, John Alex. McPherson, 2, Ruth McPherson, Grade II.—1, Eric McPherson; 2, Stanley McBeth, Grade I, Sr.—1, Jessie McBeth; 2, Mary McPhoe; 3, Reta McPherson; 4, Lizzie R. McPherson, Grade I, Jr.—1, Amphemia McPherson; 2, Malcolm McPhoe; 3, Maggie McPherson; 4, Hugh McPherson. Perfect attendance.—Jessie I. McBeth, teacher.

30 Millions

(Continued From Page One)

ture will rise fourteen stories above the ground, and there will be ten ward floors with sixty-four beds each, a total of 640 beds, almost triple the capacity of the present outgrown plant in Madison Avenue at 70th Street.

Each of the ward floors will be divided into a number of small wards containing from one to twelve beds, thus eliminating the large cheerless wards of former times. Each will have three sun-parlors, affording sufficient floor space for a third of its patients at one time.

Each will have diet kitchens, a treatment room for minor opera-tion and dressings, a clinical labor-atory and a reception room. As far as possible, each floor will be separately administered, so that patients may have the intimate care in a small hospital and at the same time benefit by the complete facilities of the large in-stitutions.

Plan Two Roof Gardens.
The twelfth floor will house a number of operating rooms and an operating amphitheatre, and on the two floors above will be recreation rooms, a gymnasium for convales-cent patients, and two roof gar-dens swept by the breezes of the Hudson and commanding an inspir-ing view of the Palisades and the hills of New Jersey.

To the west of a main hospital building will rise a wing contain-ing the private patient pavilion with 125 beds. The income from these beds will be turned back for support of the work in the wards. The ground floor of this pavilion will be fitted up as a hotel, afford-ing accommodation to relatives and friends who may wish to stay near patients.

On the north side of the group, and connected with each floor of the main hospital building by an ele-vator shaft, will be the new home of the School of Medicine, a completely equipped as its sister institutions is for the care of pati-ents. In the connecting axis will be still other rooms devoted largely to work common to both institu-tions.

In addition to other advantages, this arrangement will save much time for the doctors, surgeons and students whose work is divided be-tween lecture rooms, laboratories, and the wards, clinics and opera-tion floor of the hospital.

The net result will be an impos-sible group building covering more than two city blocks and compris-ing a single unified plant planned in detail to promote with maximum efficiency and economy, the wel-fare of patients, the education of medical students and nurses, and the advancement of medical know-ledge through research.

London Prison
(Continued From Page One)

own statement on the grounds of ill health, but War Office records indicated other reasons.

After the war, Gervais posed as a baseball enthusiast and tried to raise an all-English team to take part in baseball league matches. Nothing came of it, but later Ger-vais made some money out of a more legitimate business. He soon ran out, and in 1921 he went to Paris, leaving a dishonored cheque behind him. In Paris serious allega-tions of fraud are still being in-quired into. Returning to London he posed by a major line of the 12th Lancers, and married the daughter of Gerald Lee Devan, of insurance scandal fame. Now he is in jail.

Progressives Also Prepare.
Reports from various sources in-dicate that the Progressives gener-ally will put up their own candi-dates, no matter what Mackenzie King does. The action of the Liber-als in some ridings in trotting out their candidates has been a signal to the Progressives to get busy.

While some of the Progressives at present in the House are prepared to go over to the Liberals, there are others who think that this would be a breach of faith with their constitu-ents which they dare not contem-plate.

The political situation, by all ac-counts, is just as complicated out West as it was three years ago, and just now there are few indica-tions of it clearing. After a while Mr. Meighen will again go out and talk to the Westerners when their harvesting operations are being over, they will have more time to listen.

NO TIPS IN CHINA

The Chinese are not accustomed to tipping the barber. As a matter of fact the Chinese barber is very modest in his prices, and his patrons can obtain a haircut, a head shave, a face shave, and in addi-tion have the shoulders and back massaged, all for less than five cents.

The razor used by Chinese barbers is a triangular shaped blade with straight handle, folding up as does the American straight razor. The blades are made from old rails or any other scrap metal which has outlived its usefulness for other purposes.

NO RETURN ON INVESTMENT

"Gentlemen," said the speaker, "I can't sit still without saying a word, and so I rise. I will speak to you about the future of the country. Buildings are erected for posterity. Everything that is done, built, planted is simply for the benefit of posterity. Now what heaven's name has posterity done for us?"

Clearing Ground For Next Election

(Continued From Page One)

OTTAWA, Oct. 14.—The Prime Minister's tour of the West is be-ing followed with much interest here, this being true of both Gov-ernment and Opposition circles. It is generally taken for granted that this is the last visit to the West be-fore dissolution. It is not for nothing that between forty and fifty meetings are being held. Knowing that a general election after the next session of Parliament is quite a probability, the Premier desires to have the situation made as favor-able as possible, in so far as the Liberal party is concerned.

The chief purpose of the Prime Minister's tour is to get the Pro-gressives out of the way as much as possible by the time that the general election comes around. Though he is assured of the sup-port of sufficient of them in the House as long as he cares to stay there, this is not enough. The Progressives are afraid that this may enable quite a few Conservatives to slip in. So the Prime Minister is trying to persuade the Western people that there is no need any longer to maintain a third party, for this Government will serve the purpose.

This has been considered the psychological moment to make the tour, being no secret that the Progressive strength is not what it was three years ago. Leader Forke is losing his hold. He lost consid-erable prestige last session and it is considered improbable that he can recover lost ground during the next one. The "Ginger Group" does not consider him aggressive enough, and there is more trouble ahead. This condition of affairs is hurting the party in the country and so the Prime Minister has considered the present a very opportune time to advocate a reapproachment.

As far as can be learned, his ef-forts so far have not been very successful. There is a tendency to distrust his attitude towards the completion of the Hudson Bay Rail-way. His statement that it would be useless to introduce measures to finish this work, for the Senate would be sure to throw them out, is looked on as an attempt to dodge the issue. If an amount to complete the work were placed in the supply bill the Senate couldn't very well throw it out.

The attitude of the Grain Grow-ers Guide, the official organ of the Progressives, is disappointing to the Liberals. Instead of expressing gratitude for the tariff reductions of last session, in a recent issue it asks the question: "Is the King Government going to make real re-duction in the protection customs tariff?" This indicates what has generally been supposed, that the Progressives consider the changes made last session as but the first steps in a general and worth-while revision downwards. In the face of strong demands for further action it is difficult to see how the Prime Minister can expect to win over the Progressives.

Gets Divorce

(Continued From Page One)

Judge C. L. Hoffman, immedi-ately after the hearing of testimony granted to Mrs. Hart, the decree on the grounds of extreme cruelty. Pale, with her voice but a whisper, Mrs. Hart told of her hus-band's affections for Mrs. Hall-Quest.

She and Hart were born in Lon-don, England, she said, and mar-ried there on August 23, 1905. After they had come to Cincinnati to live, she said she learned about the other woman. Her husband, she said, "admitted that he loved her and said he could not change his mind."

His associations with Mrs. Hall-Quest continued until May 1923, Mrs. Hart said. Then her hus-band took her to England, saying he wanted her "to think it over." "We were there but two weeks," Mrs. Hart related. "Then he said he was going back to Cincinnati. He did not say why he left me in London. He came back to Cin-cinnati and resumed his associa-tions with Mrs. Hall-Quest. He wrote me saying he could no longer live with me, as his wife. He went to Chicago some time in November Mrs. Hall-Quest went with him."

They have lived in Chicago since then. He said to me he could not live with me any longer because of his love for this other woman. He admitted he was living with her. He said 'I expect matrimony her as soon as I get a divorce'."

Miners Not Satisfied With Agreement

DRUMHELLER, Oct. 14.—Some opposition has developed in satisfying the new agreement signed last week by operators and miners representative of United Mine Workers of America, District No. 18. The rank and file in some districts are said to be op-posed to the schedule, which in-cludes a reduction in wages and a local, the Atlas has instructed the men not to return to work un-till the strike has been definitely settled. The operators had in-tended to hire men to get the mines ready for work.
