

Turning Failure Into Success

BECAUSE a hundred inventors failed to make machines that would fly; has nothing to do with the hundreds of aeroplanes that dot the sky over England, France, Belgium and Canada.

Because you can't make a rich, delicious cup of coffee with the brand you are using; has nothing to do with your success with

SEAL BRAND COFFEE

Rightly chosen—expertly blended—perfectly roasted—Seal Brand comes to you with all its rich, aromatic flavor sealed in the tin and ready to delight you with its rare deliciousness.

Imported Seed Wheat "A Change of Seed Grain Always Pays" Results of Sowing Imported Seed Wheat Increased Yield and Better Quality Our Wheat is Grown on Contract Especially for us The continuous growing of any variety of grain on the same soil and under the same conditions for many years tends to degeneration in quality and decrease in yield. This applies especially to the wheat crop in P. E. Island. Our firm have been pioneers in wheat importation and the largest dealers since 1883 and tens of thousands of bushels have been imported and sold by us, in fact our Seed Store has for thirty-seven years been HEAD-QUARTERS FOR IMPORTED SEED WHEAT. As usual, our wheat is put up in strong cotten seamless bags, each containing two bushels (120 lbs) net. Samples and prices on application. WHITE RUSSIAN (Very Scarce) Crop a Failure. WHITE FIFE (Scarce) We have imported direct from the Province of Ontario some choice No. 1 White Fife of excellent quality, grown from stock seed. This is the best wheat in the world, and a very desirable change. Farmers should see this wheat. Gives more flour of excellent quality and yields well. RED FIFE This is undoubtedly one of the finest milling varieties grown. Succeeds well in good soil, equal to White Fife, suits our soil and climate. COLORADO BEARDED This is a light amber wheat, rather short, thick berry, heads good size, white straw and chaff, stands up well and ripens early. MARQUIS WHEAT Is a cross between Red Fife and an early hard red wheat from India called Hard Red Calcutta. Compared with Red Fife the growing crop of Marquis cannot be distinguished from Fife except that Marquis does not as a rule, grow as tall a plant, the straw being stiff and straight of medium length—not so liable to lodge as Red Fife although the heads of Marquis are proportionately heavier than Fife. Ripens 10 days earlier than any other kind, and makes the best of flour. Samples and Prices on Application. Address. CARTER & CO., LTD, Seedsmen Charlottetown, P. E. Island
