U. S. MAY SEND DIPLOMATIC REPRESENTATIVE TO CANADA

Appointment of an American Minister to the Irish Free State is Also Being Considered—Such a Step Would be a Departure in Policy for the United States and a Reversal of Previous Opinion.

(Canadian Press) NEW YORK, Feb. 2.—A Washington dispatch to the New York Times says: "Serious consideration is being given to the appointment of American ministers to the Irish Free State and Canada, a step which would amount to a departure in policy for the United States and a reversal of previous opinion at the White House that such action was not probable."
Final decision is yet to be reached and Secretary Kellogg declined yesterday to discuss the matter.
"The establishment of these legations would reciprocate the action of the Irish Free State and Canada, the first having had Timothy A. Smiddy here as minister and the second having recently designated Vincent A. Massey as minister. The latter is soon expected in Washington although earlier indications in government circles were that no such action should be looked for on the part of Washington. It is now admitted that in naming such ministers the United States would be but meeting similar action on the part of those governments with equal courtesy.
It also is felt that the volume of Canadian matters requiring diplomatic attention involving many important international issues such as the adjustment of the water level of the Great Lakes calls for the attention of a resident minister."

Canada-West Indies Service Will Be Continued

(Canadian Press) OTTAWA, Feb. 2.—The government-subsidized Canada-West Indies steamship service will be continued by the Canadian Government Merchant Marine. It is officially announced tonight. The contract under which the Canadian and West Indies governments help to provide a passenger, mail and freight service between Canada and the islands has expired and tenders were twice called for by the Minister of Trade and Commerce, Hon. James Malcolm.
He announces tonight that as a result "the government is convinced that the most advantageous and economically by the Canadian National Railways' management," and that the services will be put into operation as nearly as possible within the time stipulated in the recent Canada-West Indies trade agreement.

Rev. G. C. Taylor's Church Had Good Year

At the annual congregational meeting of Calvin Westminister Presbyterian Church, reports from all organizations in the church were received and adopted. The session reported 67 new members during the year and that \$730.45 had been contributed to home and foreign missions.
The Ladies' Aid Society, and the Girls' Club, collectively, had receipts of \$2,100, the total receipts for the year from all sources being \$7,389.11.
Calvin Westminister, with all accounts paid reported a comfortable balance in the bank. This church lost its property at the time of destruction, owing to the Union question, but have since been awarded \$5,500 by the Church Property Commissions. A building fund has been started with about \$2,000 promised.
Rev. Geo. C. Taylor, conducted the devotional exercises and J. H. Rothwell, chairman of the board of management, presided at the business meeting.

King's Request

(Special to the Guardian) LONDON, Feb. 2.—It is stated in this morning's newspapers that the King has specially requested that in future at Royal banquets held at Buckingham Palace only food of the Empire grown ingredients only, including wines.

Slavery To Be Abolished

(Canadian Press) RANGOON, Burma, Feb. 2.—The British government has ordered the abolition of slavery in Burma.

MRS. YOUNG PLANS TO BREAK SONS CONTRACT

Youth's Mother Instructs Hollywood Attorney to Institute Action Against Trainer Henry O'Byrne.
(Canadian Press) LOS ANGELES, Calif., Feb. 2.—An attempt to break the contract which gives Henry O'Byrne, trainer and manager of George Young, 40 percent of the earnings of the 17-year-old Santa Catalina channel swimmer, will be made by Mrs. Jane Young of Toronto, Ont., the youth's mother.
This was the announcement made by William H. Sheldon, Hollywood attorney following the arrival here yesterday of Mrs. Young. Sheldon said he would leave at once for San Francisco where O'Byrne and Young have gone to meet theatrical engagements with instructions from Mrs. Young to institute action to break the contract.
Sheldon is counsel for Bill Hasten, former pal of the channel hero, who took Mrs. Young and her party in tow yesterday on their arrival in California.
The plan to break O'Byrne's contract is in defiance of an ultimatum issued by the League of Nations council in the event of the withdrawal of his cooperation and support in the event his portage made changes in his management.

Some Pertinent Questions To Be Asked Prem. King

George Black, Member For The Yukon, Will Ask What Parliament Meets, What Has Been Done To Protect Canadians In China
OTTAWA, Feb. 2.—"What has Canada done to protect Canadians in China during the present disturbances in that country?" asks George Black, member of parliament for the Yukon in a series of questions of which he has given notice and which will likely be taken at the session opening here next Tuesday. Mr. Black further asks as to what protection is being afforded such Canadians, and at whose expense, also if Canada is contributing to the expense of such protection and to whom the contribution is made; whether the Canadian navy is being used in such protection and of what it consists, and whether Canada as of equal status with Britain in the Empire, and considers that it has power to deal independently with foreign nations.

N. S. Legislature Opened Yesterday

(Canadian Press) HALIFAX, N. S., Feb. 2.—The second session of the Thirty Eighth General Assembly of Nova Scotia was opened here today by His Honor Lieutenant Governor J. C. Tully, with the usual ceremonial display. A detachment of 100 officers and men from the Royal Canadian regiment with the band from the Halifax Rifles were provided up in front of the historic province house as the governor entered to the booming of guns from the citadel.
The speech from the throne indicated that a considerable amount of legislation would be introduced including a further attempt to abolish the Legislative Council but Premier E. N. Rhodes had previously expressed the opinion that the session would be a comparatively brief one.

One Billion Dollars Offered For Ford Plant

(Special to the Guardian) WASHINGTON, Feb. 2.—An offer of \$1,000,000,000 for the Ford plant was made within the past 30 days by Hornblower and Weeks, New York. John W. Prentiss of that concern testified today in the \$36,000,000 Consols tax appeal case here.
Prentiss revealed his company had sought four times since 1916 to acquire the mammoth automobile works. In 1916 Ford was offered \$500,000,000, in 1924, 1925 and 1927 the offer was increased to \$1,000,000,000 but each time was rejected.

Volunteers Called For

(Canadian Press) NEW YORK, Feb. 2.—The United States Army today called for ex-service men or "especially promising recruits" to volunteer for service in China with the United States forces garrisoned at Tien-tsin.

CABINET MEETS TO CONSIDER "GRAVE REPORTS" FROM CHINA

British Foreign Office Insist That Negotiations With Cantonese Have Not Broken Down, But Admit Prospects Ruined For Early Signature of Draft Agreement.
(Canadian Press) LONDON, Feb. 2.—The British cabinet met tonight to consider what the newspapers term "grave reports" from China.
The Foreign Office in a published statement insist that the negotiations with the Cantonese at Hankow and Kiangsi have not broken down, but admit that Foreign Minister Chen's action in raising the question of the dispatch of British military forces to Shanghai has ruined the prospects of early signature of the draft agreement negotiated between China and British Charge D'Affaires Owen O'Malley.
This agreement would provide for settlement of the recent incidents at Hankow and Kiangsi in which the British concessions were stormed by anti-foreign mobs.
HANKOW, Feb. 2.—The Nationalist (Cantonese) government will sign an agreement for a new treaty with Great Britain as soon as the British forces are withdrawn from Shanghai.
This official announcement was made last night by Eugene Chen, Nationalist Minister of Foreign Affairs.
LONDON, Feb. 2.—Military occupation of Shanghai by British forces may compel Marshal Chang Tso-Lin, northern war lord in control of Peking, to join his soldiers with the invading Cantonese in joint defence against the British, two despatches from London correspondents at Peking said today.
Alarmed by reports of the composition of a British defense force of 10,000 men, Marshal Chang said the killing of a single Chinese would force (Chang) to swing his troops with the Cantonese, the Peking correspondents said.

League to Take Action In Event Of War

(Special to the Guardian) LONDON, Feb. 2.—Measures to hasten action by the League of Nations council in the event of the threatened war will be studied by a council committee which is to meet in London in the course of the present month under the chairmanship of Lord Cecil.
The meeting is connected with the international conference for reduction of armaments projected for next year.
The principal measure for the discussion will be the Finnish proposal under which several governments would guarantee a loan to finance the purchase of armaments by any small state which became the object of aggression.

ISLANDER IN THE WRECK AT THOMPSON STATION SIDING

Mr. W. T. Anderson of Morell Was a Passenger on the Maritime Express When It Crashed Head on Into the Ocean Limited.
Only one Islander, Mr. W. T. Anderson of Morell was injured in the recent collision between the Ocean Limited and the Maritime Express at Thompson Station Tuesday night.
Mr. Anderson boarded the Maritime express at Truro about 6 o'clock for Sackville. The train was ten minutes late, and he was in the first-class car about six cars from the front of the train, sitting quietly without the least idea of danger when suddenly there was a deafening crash.
It came so suddenly that Mr. Anderson only remembers having found himself standing up clutching the sides of the seat while the train tore through a field to a distance of about 200 ft. before it came to a standstill. During that time the car swayed perilously mad rush he expected. Although many passengers were thrown from their seats there was no panic. The doors of the car were torn off but curiously enough only a few of the windows were broken. The Maritime locomotive after the impact rolled down an embankment. The train went on to the left into a field and Mr. Anderson said that had it gone to the embankment about 5 feet deep with perhaps a longer list of dead and injured.
The two fish cars which were next to the Maritime locomotive and which were smashed to kindred wreckage by the terrific impact undoubtedly, thought Mr. Anderson, acted as a shock absorber and lessened the damage.
This was Mr. Anderson's second experience in wrecks while on the Maritime express. The first he had some years ago when at Derby Junction, the express went through an open switch also. On that occasion he escaped even a slight injury. But he stated that he would not care to experience a panic. The doors of the car were torn off but curiously enough only a few of the windows were broken. The Maritime locomotive after the impact rolled down an embankment. The train went on to the left into a field and Mr. Anderson said that had it gone to the embankment about 5 feet deep with perhaps a longer list of dead and injured.

On that occasion he escaped even a slight injury. But he stated that he would not care to experience a panic. The doors of the car were torn off but curiously enough only a few of the windows were broken. The Maritime locomotive after the impact rolled down an embankment. The train went on to the left into a field and Mr. Anderson said that had it gone to the embankment about 5 feet deep with perhaps a longer list of dead and injured.
The two fish cars which were next to the Maritime locomotive and which were smashed to kindred wreckage by the terrific impact undoubtedly, thought Mr. Anderson, acted as a shock absorber and lessened the damage.
This was Mr. Anderson's second experience in wrecks while on the Maritime express. The first he had some years ago when at Derby Junction, the express went through an open switch also. On that occasion he escaped even a slight injury. But he stated that he would not care to experience a panic. The doors of the car were torn off but curiously enough only a few of the windows were broken. The Maritime locomotive after the impact rolled down an embankment.
