A NEW WINTER STEAMER.

Through the kindness of Mr. McNair of Bruce Stewart & Co we are able to reproduce, this morning an article from the Marine Engineer of London, dealing with the work performed by the Russian ice-breaking steamer Ermaack.

The experiences of the past two months have abundantly demonstrated the inadequacy of our present winter steamers for the emergent conditions which are liable to arise in any future winter.

On the Island St. Patrick's Day is to be well celebrated this year. Demonstrations are being held at Charlottetown, Emerald, Fort Augustus, Kelly's Cross, Rustico, Summerside, Souris and Timish.

"Neith" is the novel name of a new monthly magazine recently launched in St. John. Neith was an Ethiopian divinity, representing liberty, wisdom and eternal justice.

We have not advanced the price of our tobaccos. Amber smoking tobacco, Bobs, chewing tobaccos are the same size and price to the consumer as formerly.

THE EMPIRE TOBACCO Co., Ltd.

The Toronto Globe states that a company of British capitalists has been organized to take over the Magdalen Islands, in the Gulf of St. Lawrence, and convert them into a great fishery station.

It is claimed by protectionists that the protective tariff has done great things for the United States. And it is also claimed, and this at least can be maintained successfully, that the best work of the high tariff is shown in the rapid growth and development of the iron and steel industry.

TEETH FILLING AND CROWNING MADE ABSOLUTELY PAINLESS. While improvements have been going on in science generally dentistry has not been standing still. The "Berlin System" is based upon the knowledge that the conditions of dental sensibility are numerous requiring a wide range of remedies. The "Berlin System" of painless dentistry embraces a method known to the profession as large and some that are not generally known. It succeeds because it takes each of the various sensitive conditions into account. DENTAL SPECIALIZATION This is the age of specialists and in no profession is specialization more important than in dentistry. Time was when one could acquire a knowledge of dentistry in a short time, but in the last few years the profession has grown by leaps and bounds, until now it is beyond the attainment of any one man. It is now practiced by the co-operation of several men, each devoting his time to a special branch. In our office each man devotes his time to a special branch. We divide the work into parts and have specialists for each part. NARCOTILE for painless dentistry is a great success. If you have tooth trouble we will be glad to talk with you face to face. Drs. Maloney and Kennedy. Dental Specialists. Berlin Dental Parlor.
