A Happy Childhood A Matter of Health
Let Baby's Own Tablets Keep Your Children Well.
Little children very quickly get out of sorts. By prompt treatment they can usually just as quickly be set right again. Most of their troubles arise in the first place from the stomach or bowels; that is why a good cleaning-out is the first thing prescribed by the doctor. Formerly castor oil was the means used to bring this about; nowadays Baby's Own Tablets do the same work, but without trouble to the parent or discomfort to the little one. Children take Baby's Own Tablets happily because there is no nasty taste and because no gripping after-pains follow their use.
As a specific for childhood indigestion, vomiting, constipation, colic, colds, teething pains, etc., there is nothing to equal Baby's Own Tablets. They never do harm and always do good. The Tablets are sold by medicine dealers or by
