While in Ottawa Capt. Taylor met with a number of provincialists among them being George Hyndman, son of F. W. Hyndman, City, and Mr. Finlayson, also of Charlottetown. Capt. Taylor said that in passing through the state of Maine the ground was covered with snow while in St. John rain was falling.

NEW SCHEME FOR OCEAN AIR SHIP

ANOTHER "PRINCESS" FOR C. P. R. FLEET

MONTREAL, Nov. 13.—A cablegram received by the Canadian Pacific Railway officials announces the launching of their new boat, the Princess Sophia, at the yards of Bow, McLaughlin & Co., of Paisley, Scotland. This boat, while not as big as the other Princess steamships they have recently been built by the Canadian Pacific Railway, is of the best construction and it is well fitted for the Pacific coast service of the company, in which it will be entered. It is 245 feet long, forty-four foot beam, and with eighteen feet depth. It is equipped for coal or fuel oil.

The new Princess will probably be ready for its long trip round Cape Horn to Vancouver in eight or ten weeks. The Canadian Pacific already have one steamer making this trip, the steamship Princess Alice, which was reported to have arrived at Monte Video a week or two ago. The Princess Alice is also a new steamer.

CORNELL STUDENTS HAVE GONE ON STRIKE

ITHACA, N. Y., November 14.—Fifty male Cornell students, who in working their way through the University, are waiters on the tables of the co-eds in Sage dormitory, struck today. As a consequence the 400 girls were compelled to wait upon themselves. The occasion was not to their liking and there was considerable grumbling among them, but they had to get their own food, or go hungry.

The boys struck, they say, because they were obliged to eat butter that had come back to the kitchen from the girls' tables, and also to drink milk they believed to have been watered.

A committee has been appointed by the strikers to wait upon the management in an endeavour to see if it is not possible to have them served with as good a bill of fare at the second table as is given the girls.

All You Need is A Cascaret Tonight

No Sick Headache, Bilious Stomach Coated Tongue or Constipated Bowels by Morning.

Turn the fascalts out—the headache the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take Cascarets now and then and never know the misery caused by a lax liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry it out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerfulness for months.

Children love to take Cascarets because they taste good—never gripe or sicken.

FOREIGN CONSULS WILL HAVE PLACE

OTTAWA, November 14.—A special arrangement has been made for the presentation of foreign consuls at the drawing room to be held by their Royal Highness the Duke and Duchess of Connaught next Saturday night. They will be received along with their wives and unmarried daughters in the apartments of the speaker in the senate before the presentation in the chamber. For some years the consuls have not attended the drawing room because of not being accorded any special precedence, in fact their place was last before the general public. They took the position that as a matter of courtesy they were entitled to some recognition. The arrangements now made will, it is understood, be wholly satisfactory. As senior consul, Hon. J. G. Foster, consul-general of the United States will be first mentioned.

STRENGTH OF THE LOW TARIFF SENTIMENT IN WEST

REGINA, Sask., Nov. 13.—The leader publishes the official returns of the last election for every polling subdivision of the province, and commenting editorially on the huge majority for reciprocity says:

"Such a record of enormous majorities throughout the length and breadth not one province alone but two adjacent provinces, is one of the most significant features of the late contest. They reveal the strength of the low tariff sentiment of the west, a sentiment that, so far from being weakened has been strengthened and intensified by the rejection of reciprocity by Ontario.

"Prior to the polling, the Leader said if the Big interests were successful in their efforts to deprive the west of its natural market, they would live to regret their folly. We pointed out that the reciprocity pact did not endanger their interests and legitimate profits, that it dealt primarily with natural products, but that if these Big interests were so shortsighted as to oppose such a measure designed to benefit the farmers, and were successful in their opposition, a much more dangerous agitation, that is, dangerous to the protected interests, would arise—an agitation not for free trade in natural products, but for lower tariff all along the line. Time will demonstrate the truth of that prediction, and the majorities rolled up on the 19th and 20th September for freer trade and larger markets are in evidence of the force which will be behind that agitation and which will ultimately carry the low tariff party to victory."

"Schooner Edith B. Dennis loaded with coal from New Bedford for Greenport, sank seven p. m. last night. Wife and two sailors, names I do not know, drowned. I tried to make look at Port Terry, but unable to do so, on account of condition of schooner. I was washed ashore on a piece of wreckage."
