WEDNESDAY MORNING, OCTOBER 30 1907.

THANKSGIVING DAY.

Tomorrow is set apart for Thanksgiving to the Supreme Goodness for the mercies and bounties of the year—for the rich harvests of the field, the mine, the forest and the sea, for liberty, peace and prosperity. We invite our readers to rest and be thankful. In observance of the day, no paper will be issued from this office tomorrow.

SCIENCE AND INVENTION.

We live in a wondrous age. The astronomers, the electricians, the aerial navigators, the engineers, the chemists are busy as never before, and their numbers are multiplied from year to year. On the one hand the range of scientific exploration is directed to the composition of matter, dividing the atom into thousands of ions. On the other hand it is exploring the regions of infinite space. It is now held to be proven mathematically that the planet Mars is inhabited by intelligent beings.

Wireless telegraphy has come into commercial use and thousands of words are daily flashed across the Atlantic through the air, as they have been for forty years along the wires beneath the seas. The wireless telephone is closely following the wireless telegraph. Portraits and pictures of all kinds remarkable for their accuracy, are being sent hundreds of miles by telegraph.

The Lusitania has brought down the Atlantic steamship record till already the three day steamer from Britain to Halifax is practically in sight. France, Germany and Britain have in actual operation aerial warships, which sail the air with a speed and certainty comparable to the navigation of the ocean.

The Panama Canal is building. A score of great tunnels, piercing the mountains or bending beneath the rivers are being constructed about the world. Hundreds of miles of underground railways are being built and extended beneath the great cities of the world. Ever longer grow the spans of the great bridges, of which Canada will in a few years have the longest in the world at Quebec.

These instances touch but fringe of the present rapid and stupendous progress of the world in the age in which we live. It has been said that in the past fifty years the advance has been greater than in a thousand years before and the ratio of progress increases from year to year. What a world this will get to be within the life time of the boys and girls today!

At the outset of his great tour through Canada, Leader Borden intimated that he hoped to visit Prince Edward Island after his return from the west. Many here would be glad to see and hear him. The time before the meeting of Parliament will be short, however, and if he is coming arrangements should be promptly made.

Mr. Bourassa has the courage of his convictions. His charges against Hon. Mr. Turgeon, of the Quebec Government forced Mr. Turgeon to resign. In doing so he challenged Mr. Bourassa to meet him in his constituency of Bellechasse and try conclusions before that electorate. Mr. Bourassa accepted the challenge, resigning his seat in the House of Commons in order to do so. This will be a distinct loss to the Canadian Parliament. Should Bourassa defeat Turgeon, his victory will be a notable one indeed. Should he fail Mr. Bourassa will be at least temporarily out of public life. Some of our French-speaking compatriots evince a political courage that is rare among Anglo-Saxons.

DR. DOBSON'S FUNERAL TODAY.

This afternoon all that was mortal of Rev. William Dobson will be tenderly laid away in Sherwood Cemetery. How many, how tender and loving, have been the tributes paid to his memory since his demise! These, coming from near and far, prove how wide and beneficent was his influence, how many minds he had illumined, how many friendships he had established, how many hearts he had touched. Wherever he had lived and preached, wherever he had travelled or visited he had sown friendship and love, noble thoughts, elevated precepts, a lofty example. He had in very truth "allured to brighter worlds and led the way."

It is the reflex of the forces set in motion by his brilliant mind, his great heart, his noble life and life work, which today leaves the air still vibrant with his voice and fragrant with his memory. This afternoon a great tide of human sympathy and emotion, of gratitude for all that he was in our midst, of solemn exaltation in the thought that he is now "something far advanced in state," mingled with a sense of loneliness and irreparable loss, will converge upon, surround and fill the Brick Church. The last tribute will be paid by a multitude, with full hearts. And in the days to come, while yet the sense of loss is growing, to how many sad hearts will come the thought:—

Oh for the touch of a vanished hand
And the sound of a voice that is still!

FOOD POISONS.

90 Per Cent of All Diseases the Result of Undigested Putrefying Foods

Men of affairs, women of society and children with active brains are too of sedentary in their habits, giving little time to exercise. To this evil is added that of high and irregular living—as a result, the stomach cannot stand the demands made upon it. The abused and overtaxed stomach does not properly do the work of digestion, food taken in ferments and the poison permeates the whole system. The body loses in weight and becomes a prey for the attack of whatever disease it may encounter.

Did it ever occur to you how busy that tomach of yours is? It only holds three pints, but in one year you force it to take in 2,400 pounds of material, digest it and prepare it for assimilation into the blood. No wonder it rebels when overworked. We crowd it with steaks and pastry, irritate its juices with spices and acids, and expect the stomach to do its work. It can't do it.

All over the inner layer of the stomach are glands which secrete the juices necessary to digestion. The entrance of food into the stomach is the signal for these glands to do their work. The more the the food, and the more indigestible, the greater the demand upon them and upon the muscles of the wall adjoining.

Think of the tons of high-seasoned game, sweetmeats and appetizers crammed into this little four-ounce mill, and then wonder, if you will, why you are dizzy or nauseated or constipated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy.

First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bed time. They are not a medicine but a digestive. Your stomach is worn out and needs help not medicine. Stuart's Dyspepsia Tablets will do the work that the stomach fails to do. There's enough power in one grain of Stuart's Dyspepsia Tablets to digest 3,000 grains of ordinary food, so you needn't fear that anything you eat will remain in your stomach undigested.

Stuart's Dyspepsia Tablets will rout the poison because they remove the cause—food fermentation. They are nature's own cure for dyspepsia. The host of troubles dyspepsia is father of cannot be numbered, for a healthy stomach is the source of all health.

Seize your opportunity before worse conditions confront you. Send today for a free trial package of Stuart's Dyspepsia Tablets. They will bring your stomach relief. F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

WATCH THE STOMACH.

HAVE YOU ANY OF THESE SYMPTOMS?

If you have either variable appetite, a faint gnawing feeling at the pit of the stomach, unsatisfied hunger, a loathing of food, rising and souring of food, a painful load at the pit of the stomach, choking sensations in the throat, headache and dullness of spirits, constipated bowels with alternate diarrhœa, are you gloomy and miserable?

THEN YOU ARE A DYSPEPTIC.

The cure is careful diet, slow eating, thoroughly chewing the food; avoid drinking at meals.

Keep regular hours, shun stimulants, tone the digestive powers and regulate the stomach and bowels with Burdock Blood Bitters. It has cured the worst forms of dyspepsia, even of twenty-five years duration. Mrs. Geo. Parks, Cooper, Ont., was cured; she writes: "I have used Burdock Blood Bitters and find that few medicines can give such great relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia and could get no relief until I tried B.B.B. It helped me right away and I think it a wonderful remedy. I would recommend it to all sufferers from dyspepsia.

A CORDIAL INVITATION TO DISEASE.

This is an apt description of constipation It's an unnatural condition to begin with, and it's more, because it brings about blood deterioration, interferes with digestion, renders you susceptible to infectious diseases and causes anaemia. Not so much a purgative as a natural stimulant to the bowels is what you need You get it in Dr. Hamilton's Pills which increase liver activity restore the bowels to perfect action and positively cure constipation and its attendant evils. Insist on having only Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box at all dealers.

IT DOES CURE WOMANLY ILLS.

"I feel it my duty" writes Mrs. S. Mead of Fraserville, Ont, "to let you know that sometimes previous to the change of life I suffered more than I could tell. Neighbors told me Ferrozone was the only remedy and their advice was good. Ferrozone put a stop to my pain and sickness, had a direct action on my troubles that relieved from the start. I safely passed the turn, and now enjoy perfect health and rest. No womanly medicine can be better than Ferrozone." Instant relief is found in Ferrozone for female weakness of every kind, 50c per box at all dealers.
