

YOUR PULLETS FINANCED ON GROWENA

Finance Cost Only 1 2/3c per Bird

These pullets of yours will be worth their weight in gold this fall—IF THEY ARE PROPERLY FED FROM NOW TO LAYING.

Our newly found export market for eggs in the British Isles indicates that we are likely to have a scarcity of eggs and high prices during the next fall and winter.

You know how important it is that pullets be fed properly during the growing period if they are to do a real job of laying for you.

If you would like to feed Growena but happen to be short of ready cash right now, do not let that bother you.

Your total feed cost from hatching to laying on the Purina plan will run somewhere in the neighborhood of 50c to 55c per bird.

Come in and talk over the feeding of your pullets with us. We will be glad to show you how you can have the best pullets you have ever raised without any further cash outlay until you house them in the fall.

Warning to Farmers

A serious outbreak of army worms has been reported from the eastern part of Prince Edward Island. Farmers are advised to look over their grain fields and if any damage is found it should be reported immediately to the Entomological Laboratory, Charlottetown. Insects do their work chiefly at night and the injury rarely than the insects themselves should be looked for.

F. M. CANNON, in charge, Dominion Entomological Laboratory, Charlottetown.

EDUCATE BY RADIO

WEST VANCOUVER — (CP) — Education by way of the air waves will be brought to students of the West Vancouver High School when they return to classes next fall. Loudspeakers in three classrooms are linked with a microphone in the office of Principal J. R. Mitchell through which he can address the students or pick up regular radio programs.

The system cost \$300, half of which was raised by the students.
